FALL FESTIVAL

The Hebron Chapter of Future Farmers are making plans for a bigger and better fall festival this year. Last year our premium list was over fifty dollars. This year we will have a premium list of \$75. We are adding to our entry list and are going to have more exhibits.

The Home Economics department of our school will work with us in making the fair a greater success. The date has not been definitely set, but it will be sometime in the latter part of November, so get your exhibits ready.

Watch the Boone County Recorder for complete list of premiums and exhibits. This paper was very helpful in making our festival a success last year. The same major crops will be on the list this year: tobacco, corn, potatoes, apples, with several changes in the amount of premiums and the minor exhibits.

Now is the time to begin to select your crop exhibits. Several of the Ag. boys have already begun selecting corn, potatoes, tobacco, etc. The premium exhibits are open to anyone in the county, so plan to attend.

Lots of prizes, lots of fun, lots of eats and lots of entertainment. Watch for the date and come to the Future Farmers' Fall Festival at the Hebron School.

Now you can decide whether to eat a breakfast food that champions eat, or stick to your bacon and eggs.

Notice Of Bids

Bids will be received by the undersigned at his office in the Court House, Burlington, Kentucky until 12 o'clock noon Central Standard Time November 4, 1940 for performing work and furnish materials and labor as follows:

Removing paper from all rooms in the Court House, filling and repairing all cracks in the plaster and applying a coat of glue size to the plaster and two coats of inside gloss paint. Also paint the woodwork in all downstairs rooms 2 coats of lead and oil paint. Contractor to furnish all materials and tools, pipes and radiators are to be painted with lead and oil paint.

The right to reject any and all bids is reserved.

By order of Boone County Fiscal Court.

FORD FOR 1941 ARE

LARGER, MORE BEAUTIFUL

There has been a lot of advance discussion of changes, and changes there are, starting with a considerable increase in size for the Ford V-8s, Deluxe and Super Deluxe.

Designers have taken full advantage of increased wheelbase and longer body to give additional room and more spaciousness, and Ford engineers have worked right up from bigger tires through to luxury seat cushions and new softer springs for the solid enhancement of riding comfort.

New four-cylinder truck and commercial car engine is part of the economy features included in the Ford working line.

The wheelbase of these big new Deluxe and Super Deluxe Ford V-8s is longer and the overall length is longer than any other sedan in the Ford line.

Running boards have practically disappeared from sight, due to the width of the new bodies. But they are there to step off when the doors are open.

The 85 horsepower V-8 engine is still unique in its class. It is the only eight cylinder car in the low price field. These new Fords have lower transmission gear ratios thus giving the "get-away."

In addition to beauty both inside and outside the Ford engineers emphasize the greatly improved ride in all 1941 models. This extra riding comfort starts with two inches longer wheelbase and a new electrically welded "X" type frame.

This new frame structure is 100 per cent more rigid, making the body now mounted on big rubber cushions still quieter in service. The springs, front and rear, with their increased effective length, have a balanced action eliminating any "pitching" and give the easier time of ride. The rear seat cushions are two inches farther ahead of the rear spring and axle, which further improves the riding qualities.

The four lever-type hydraulic shock absorbers now have a more sensitive adjustment to match the new softer acting springs. The new improved ride stabilizer, connected by swinging shackles to the front axle, minimizes side sway and improves steering.

Super Deluxe cushions are unusually comfortable since luxury type individual coil springs are used. Over these is a thick pad of latex treated curled hair which gives a softness only associated with expensive cars in the past.

The new Fords have big 12-inch hydraulic brakes, for quick, smooth action and long service. The emergency, or parking brake, is on the rear wheels and operated by a steel cable. The brake lever is under the instrument panel, at the left of the driver. The new hood lock knob is located under the instrument panel near the brake lever. This protects the engine, battery and accessories from theft.

An entirely new body design is included in the 1941 Super Deluxe line—a sedan coupe. This coupe combines a close coupled body design with comfortable seating for six. Also in the line there is a convertible club coupe, seating five, and equipped with an electrically operated top that functions even when the engine is not running. It is operated by throwing an electric switch.

There are four body types in the Super Deluxe line, six in the Super Deluxe line. There are three color choices for the Super Deluxe and six in the Super Deluxe line.

Among the refinements which are new this year on all models are the speed lines on the side of both front and rear fenders, the new hidden gasoline filler cap, electric light on the luggage compartment lid which automatically lights whenever the lid is raised if the car lights are burning, ventilating front windows, a new wide tempered glass one-piece rear window, rain glasses in a rigid, twin windshield wipers and speed control, twin sun visors, fender top parking lamps, and two-spoke clear-vision comfort-type steering wheels. There is a center front license plate on the Super Deluxe.

Every Whitley county club member who borrowed money to buy seed potatoes has repaid. Williamsburg Rotary Club and Corbin Kiwanis Club members furnished the funds. Fifty-four club members grew approximately 1,000 bushels of potatoes, and won first on Cobblers at the Kentucky State Fair.

HIGH PRODUCING COWS

MEAN GREATER PROFIT

How production per cow is closely related to profit in dairy farming is brought out in a report of a study which economists at the University of Kentucky College of Agriculture made in Shelby, Spencer and Henry counties.

Where production per cow averaged less than 7,000 pounds of milk in a year, farmers made an average of \$1,396. Where the production ranged from 7,000 to 8,000 pounds, the average profit was \$1,570, and where the cows produced more than 8,000 pounds of milk in a year, earnings jumped to \$2,033.

The average number of cows milked was 21. Receipts averaged \$2,558, and net earnings \$1,679. None of the farmers lost money.

Grade "B" whole milk was sold. The farms averaged 200 acres and ranged from 10 to 445 acres.

There are suggestions the economists say dairy farmers might consider:

The substitution of high producing cows for poorer ones through careful culling and selection; the production of more legume hays; the use of better cropping systems, including the use of limestone and fertilizer to increase crop yields and improve pastures; keeping the land adequately protected by cover crops in winter; and providing the dairy cows with adequate well balanced economic rations to insure milk production per cow, are some of the ways in which farmers on small farms may increase their income.

WHEAT LOANS

TOTAL \$191,701

Commodity Credit Corporation loans totalling \$191,701.00 had been made to 806 Kentucky wheat growers through September 25, the State Office of the Agricultural Adjustment Administration announces.

Growers stored 256,021 bushels of wheat in warehouses in Lexington, Louisville, Hopkinsville, Elkhart, Bowling Green, Franklin, Henderson, Pembroke, Sturgis, Owensboro and Russellville.

The closing date for making loans on the 1940 wheat crop is December 31, 1940, and loan rates for Kentucky No. 1 soft red winter wheat range from 76 to 80 cents a bushel on grain stored in approved warehouses.

Virtually all Kentucky farmers who received loans on the 1939 crop repaid their loans and removed the wheat from storage, realizing a profit by selling the wheat on an improved spring market.

Why worry about the future when you can't tell from today's goings on how long it is going to be there to worry about.

STATE DEPARTMENT

RECEIVING BOB WHITE

QUAIL FOR HOLDING PENS
The Division of Game and Fish has already begun receiving Bob White Quail which have been purchased within the state according to a statement issued by S. A. Wakefield, Assistant Director.

These birds will be placed in holding pens at various points in the state," Wakefield explained, "and will be held there until next spring when they will be liberated along with thousands of additional birds which will be purchased at the time of liberation."

"We plan to hold, at our quail retaining stations, approximately 15,000 quail during the winter," Wakefield stated.

QUILT SUGGESTIONS:
One sensible suggestion comes for cutting quilt blocks. Use a piece of oilcloth for the pattern. Trace the design on the oilcloth. The quilt patches will be of the same shape for the material sticks to the surface of the oilcloth and doesn't slide. You don't need to do any pinning either. An interested reader tells of a practical quilt made of a quilted mattress pad. The design was applied in the center in colorful pieces and the border was of the colored material. An easy-to-wash quilt this was.

100,000 KENTUCKY FARMERS

RECEIVE AAA MATERIALS

Approximately 100,000 Kentucky farmers received phosphate fertilizers, for treating soil conserving crops, and liming materials, supplied in place of cash payments by the Agricultural Adjustment Administration, for use in the 1940 Agricultural Conservation Program.

Of this number, 94,000 received phosphates for use on pastures and on other grasses and legumes, and 9,000 received lime. Phosphate was supplied to aid the farmers in meeting soil-building goals in every county of the State, while the lime went to farmers in 26 counties where farmers encountered difficulties in getting the material from local sources. Those farmers received 87,939 tons of liming materials, which represents approximately 10 percent of the liming materials used by Kentucky farmers in the 1940 program.

Of the total 99,400 tons of phosphate supplied to Kentucky farmers by the AAA, 57,946 tons was triple superphosphate and 41,454 tons was 20 percent material.

Weak Feet Affect Body

N. TULCH

Foot Comfort Specialist at—

PEOPLE'S FOOT COMFORT

9th and Madison Covington

When feet are permitted to pro-

trude inwardly, the bony structure

of the foot goes down, shutting

off the nerve and blood supply in

the bottom of the foot. When you

cramp or choke the blood stream

and slow up circulation, there is a

lack of bone repair; chemical de-

posits, or waste matter form at the

joints. Next inflammation sets in

at these joints causing pain. That

inflammation is often mistaken

for rheumatism, arthritis and

many other ailments. Also when

you cramp the blood supply you

shut off the food supply to the

nerve.

When nerves are impoverished,

muscle tone is impaired because

sensory nerves indirectly control

motor nerves which in turn con-

trol the muscles. When muscles in

the feet have lost their tonicity due

to impoverishment of the nerves,

feet are no longer subconsciously

held in normal position.

Surgical shoes give support to

the vital arches in the feet releas-

ing cramped nerves and blood

vessels to promote better circula-

tion. Gradually as circulation im-

proves, muscles grow strong and

regain their tonicity.

With foot health improved the

person feels better all over. Re-

search has shown that no less

than eighty-seven diseases are in-

directly caused by bad feet.

Don't take chances with your

health, happiness and peace of

mind. With foot comfort you'll

live longer and feel better.—Adv.

TONIGHT AND FRIDAY

The California pottery industry makes it bow to the screen in "Love You Again," co-starring William Powell and Myrna Loy. An entire pottery factory was rented for one sequence in the production in which Powell is called upon to act as general manager. The pottery yards, kilns and display rooms play an important part in the sequence.

"Love You Again" is an amusing, fast-moving comedy dealing with the plight of a man who recovers suddenly from an eight-year attack of amnesia only to discover that he no longer knows himself. How he manages to squirm out of any number of tough situations makes for a laugh a minute.

SATURDAY

Bonita Granville, who got her first screen kiss during the filming of "Those Were the Days," comedy romance based on George Fitch's "Swish Stash," was asked by William Holden, who did the kissing, how she liked it.

"I don't know," replied Miss Granville. "My corset was hurting me!"

The picture features Miss Granville, Holden and Ezra Stone, and deals with that mythical school, "Good Old Swish."

FLORENCE HOMEMAKERS

October 24 the Florence Homemakers held their regular monthly meeting at the Town Hall, with the new president, Mrs. Lorie Morin, presiding.

Attendance on Thursday was five guests, four new members and twenty-eight regular members.

We were indeed glad to have with us, Mrs. Sam Sleat, our District Chairman, Mrs. Rod Hughes, county chairman of the "Bug Making Project," Mrs. J. L. Vest, Mrs. Goldie and Mrs. Young.

During the morning session our new officers were installed and reports made by all committees.

Due to the fact that our recent tour of Iovoydale, W.L.W. and The Frank Tree and Spice Co., was such a big success, plans were made to make another tour on November 15, at which time we will visit three other places of interest.

The same committee will be in charge, and they urge all members to make reservations at once. Plans were made for a Halloween party, to be held at the Town Hall, November 1st at 8 o'clock. Prizes will be given for the best dressed and the most comical dressed. All members and their families are invited.

During the afternoon session our major project leaders, Mrs. Gertie Fossett and Mrs. Adrienne Stith, gave a very interesting and helpful lesson on designs for Handmade Rugs.

The next regular monthly meeting will be November 28th.

EIGHT KENTUCKY COUNTIES TO JOIN ST. ELIZABETH HOSPITAL PROGRAM

Mobilization of Kentucky friends of St. Elizabeth Hospital, Covington, is now under way for observance of the 80th anniversary of the hospital November 10 to 17. Special committees will function in Kenton, Campbell, Bracken, Carroll, Gallatin, Grant, Boone and Pendleton counties.

James R. McGarry, prominent Covington attorney has been chosen general chairman of the arrangements committee and will preside at the first rally meeting of friends of the hospital Thursday, October 17 at 8 p. m.

The Sisters of the Poor of St. Francis who direct the hospital came to Covington 80 years ago on November 11, 1860. For a short time they commuted between their Cincinnati base at St. Mary Hospital and Covington by ferryboat. They used a small brick building that had been used as a grocery store to begin their hospital work. Rapidly outgrowing the original institute, the nuns obtained a large building on Eleventh Street, Covington and made it ready for occupation in 1868 with a capacity of 110 beds.

Continued growth of the hospital service made necessary further development and in 1911 the plot at present occupied by the hospital on Eastern Avenue, Covington was obtained. The cornerstone for the new building was laid on June 14, 1912 and two years later, August 2, 1914, the new St. Elizabeth Hospital was open for inspection.

That some friends of the hospital have a plan to ask the institution financially to assist the 80th anniversary program. The 80th anniversary of the hospital will be made subject of observance of religious and civic groups throughout the Northern section of Kentucky, Mr. McGarry said in announcing preliminary plans.

LET'S STOP THIS PRACTICE

The law states that every person that weighs live stock must be bonded and the next time you go to your stock yard notice the large red and white sign which contains the names of bonded weighmen. If you see any person other than those whose names are listed on this card weighing live stock they are subject to a penalty of \$100.00 to \$500.00 fine or ninety days in jail or both. This is for protection for fair and accurate weighing. Report at once any violation of the law so that it may be strictly enforced.

If you will notice in the scale house you will see a small round sticker on which is written the date in full or the date of the State Inspectors visited this market and thoroughly examined these scales to see if they are in good mechanical condition, properly oil, free of obstruction, working smoothly and easily and will properly balance.

A larger sign will give the date that the scales were tested with weights by a competent scale tester, who has no affiliation whatsoever with the State. He is directly connected with some scale firm and remember that his inspection and test is your best guarantee of accurate scales. This inspection should be made at least once every six months and is absolutely essential as usually a scale is wrong it is to the detriment of the seller.

There are many things that can be done with a set of scales that can be detected only when accurately tested. Remember a scale should weigh accurately when a weight is on the corner or whether in the center. Rust, dirt, excess amounts of oil and many other things will slow up the scales and will therefore be against the farmer.

The State Inspectors also have the privilege of reweighing live stock in any of the stock yards.

The next time you sell some live stock go to the scale house and either go inside or look out the window and watch the weighman weigh your stock. He is supposed to weigh it to the nearest five pounds. Your live stock has not been properly weighed until the beam is as close to the center as possible and standing still. If it is moving you do not have accurate weight and may be from 10 to 15 pounds off.

Your live stock is usually weighed slightly in favor of the buyer, because that seems to be an established custom among all weighmen. On a five-pound listed weight the odds are against any live stock being exactly on the even or five weight.

If the Kentucky farmers will study their own marketing problems more and insist on their full rights, their income will be increased many hundreds of thousands of dollars yearly.

A litter of 10 cross-bred pigs that weighed 2,270 pounds when 168 days old has just been sold by Mrs. Fanny Holladay of Adams county. County Agent R. B. Rankin notes that the pigs were kept growing at maximum rate by running on clover and lespedeza pasture while eating corn and tankage. The litter was rated as one of the best ever produced in Kentucky.

DISPELLING THE FOG

By Charles Michelson

Utility candidate Wendell Willkie concluded his western tour and descended on New York with a declaration that he was well satisfied with his pilgrimage.

The newspaper people who accompanied him on his journey did not in their reports narrate anything that might be thought to contribute to such a conclusion. Bruce Barton voiced what Mr. Willkie evidently did not care to declare—Mr. Barton, whose estimate of the chances of the Republican ticket this Fall was so enthusiastic that for weeks he shied away from a nomination for the New York senatorship, for which he was finally drafted. He announced that California, for example, afforded an even chance for Willkie. California does not know this yet, for the betting odds are two to one on Willkie on the other side. They are offering even money that Roosevelt's majority in that State will be over 400,000. Congressman Barton suggests that Willkie will effect the same result in New York State—and down in Wall Street they are betting two to one he doesn't.

Lots of people are trying to cheer up Mr. Willkie. Even the Gallup poll that the other day calculated that Roosevelt would carry thirty-eight States as against ten for the neophyte Republican, tries to make him feel better. It did not recant on its forecast, but it took another scientific poll that it says indicated that the Willkies are more enthusiastic for their candidacy than the Democrats are for gauge is something new, but a painstaking poll-taker would not balk at estimating the percentage of whether a mule driver or a section boss could swear more effectively. The result would doubtless be buttressed with all the appropriate trimmings of weighted totals, trends, variabilities and 4 per cent margin of error.

Talking of Straw Polls
It would be interesting to have the results of how many people believe that the re-election of Franklin D. Roosevelt would result in Congress never meeting again, which was one of the dire prophecies emanating from the G. O. P. high command.

Perhaps the most interesting of the Willkie declarations in his Empire State debut was that the country was on the verge of economic ruin and that F. D. R. was responsible for the plight of business. A few days before, Alfred R. Sloan had declared the policy of the Roosevelt administration which he said "made accomplishment a crime," and restricted business with all sorts of things. Yet on the same day the General Motors magazine mentioned that the output of its 1941 models would be ten per cent greater than this year's. Business has been so bad that, whereas General Motors only made a net profit of \$246,000,000 in the five years from '30 to '34 inclusive, its net profit for the five years ending in 1939 was \$888,000,000. (These figures are from the New York Times). It was also recounted that the dividends paid amounted to only \$480,000,000 in the first five years cited, but amounted to \$711,000,000 in the past five years.

"Taxes are so high," said Mr. Sloan at Pittsburgh, "that the profit motive is in jeopardy."

Well, the figures quoted from the Times represent the earnings after payment of the higher taxes complained of, after social security taxes and after the payment to labor of its highest wage scale.

The Sorrows of Corporations
With net sales of over a billion dollars annually for the past five years—the 1939 net sales aggregated \$1,377,000,000—it would hardly seem that Mr. Sloan's business could be put in the martyr class.

However, for campaign purposes, the picture of a nation sick of the throes of depression is deemed necessary and Mr. Willkie continues to repeat that "business must be given a chance to make profits."

You may take practically the whole list of money makers from the five and ten centers—Woolworth nearly triples this year the \$22,000,000 it made in 1932—to U. S. Steel, which went from a deficit to a \$40,000,000 profit—and get a gauge of how business is doing.

It might be worth noting that the ten big outfits whose losses at the time of Roosevelt's advent to the White House aggregated \$150,000,000, last year lumped 200 million dollars in profits. These figures, like those given about Mr. Sloan's enterprise, are after the taxes have been paid.

Under the circumstances, it might be pertinent to ask how much profit these distressed multimillionaires expected to make after January, 1941, when they put up the champion of light and power for the Presidency of the United States.

WHITE FEED SACKS

One subscriber writes of a successful fixture to bleach feed sacks. She uses 1 cup of kerosene and 1 tablespoon of lye to 3 gallons of water. First soak sacks about twelve hours in the liquid. Be sure to rub them a bit in order to remove any printing on the sacks. Boil them in a clean mixture of the same ingredients for about 15 minutes. Afterwards use a clothes whitener purchased from your grocer for a final boiling.

ROOSEVELT AGAIN CHOICE OF PEOPLE

EARLY RETURNS INDICATE MAJORITY IN STATE OVER 100,000

Official Returns From Boone County Give Roosevelt Majority of 1169—Chandler and Spence Elected—School Board Members Chosen

President Franklin D. Roosevelt was swept into office for the third term by an overwhelming majority as incomplete returns from many states showed him leading in approximately 40 states.

Boone County joined the large number of other counties in the State in piling up a huge majority for Roosevelt, giving him a plurality of 1169 with all precincts counted. Only one precinct in the county was marked up in the Republican column, that being Constance which gave Williekie 158, Roosevelt 101.

Roosevelt's majority in Boone County against Alfred M. Landon in 1936 was 1725. This year the voters of this county gave him a majority of 1169.

Complete official returns from the county follow:

Roosevelt	2526
Williekie	1357
Chandler	2619
Smith	1262
Spence	2592
Cook	1274

Kentucky, with incomplete returns was estimated to give the

President 100,000 majority. The extent of the Roosevelt sweep in the State surprised old line politicians. Republicans had talked hopefully of a GOP lead of 30,000.

The President is sure of a landslide victory in the electoral college, where it really counts. As we go to press, approximately 436 electoral votes are indicated for Roosevelt. Only 266 electoral votes are needed for his election.

The swing to the Democratic nominee was general throughout the country, Roosevelt piling up substantial majorities in states where Williekie had been given the edge in a majority of the pre-election forecasts. Last reports from Indiana, home of Williekie, the president was leading by approximately 18,000 plurality.

What promised at the outset of the tabulation Tuesday evening to be a "neck-and-neck" race between Roosevelt and Williekie degenerated into a rout for the Republican nominee as later returns came in from the debatable states, and long before midnight it was apparent to even the Williekie supporters that their favorite had run a poor second to the President.

One state after another in which Williekie had early leads went over to the Roosevelt column as the count of ballots proceeds into the night. Shortly before midnight, the Far Western states, which were in reporting because of the difference in time, joined the Roosevelt procession and removed whatever doubt remained of the magnitude of the new Deal victory.

Kelly, Acra, Conner, Ransler and Carlisle Elected to School Board

Courtney Kelly, J. Acra, Hubert Conner, C. O. Carlisle and C. W. Ransler were elected as school board members and trustees, respectively in their various precincts. Kelly, Acra and Conner will serve as members of the Boone County Board of Education, while Carlisle and Ransler will serve as trustees of the Walton-Verona school district, a system independent of the Boone County Board.

The total vote for the various candidates follows:

Courtney Kelly	283
W. Keene Souther	161
Jack Acra	187

WEED QUOTAS TO BE DISCUSSED DRAFTEES TO BE TRAINED IN KY.

BY J. D. CRADDOCK, STATE AAA COMMITTEEMAN AT BURLINGTON, WEDNESDAY, NOV. 20, 7:00 P. M.

Mr. J. D. Craddock, State AAA Committeeman, will address Boone County tobacco growers at Burlington on Wednesday, November 20th, at 7:00 p. m., according to Mark Cook, Chairman of the County AAA Committee. Mr. Craddock will discuss important factors involved in the 1941 tobacco marketing quotas.

Tobacco growers throughout the Burley belt will vote November 23rd on whether or not tobacco marketing quotas will be in effect for the 1941 marketing year. Serious problems are facing the tobacco growers and every one should plan to attend the meeting at Burlington on November 20th.

Harold Lee Congleton To Undergo Operation

Harold Lee Congleton, son of Mr. and Mrs. Lamar Congleton, of near Burlington was removed to Christ Hospital Tuesday afternoon and will undergo an operation Wednesday morning for osteomyelitis, a disease of the bone.

Harold Lee has been ill for several weeks, but until Tuesday the cause of his illness was unknown.

The Recorder joins his many friends in wishing for him a speedy recovery.

FT. THOMAS AND FT. KNOX TO BE CENTERS—25 QUESTIONNAIRES TO BE SENT DRAFT BOARDS.

Louisville, Ky., No. 1—Col. Frank D. Rash, state director of the Selective Service system, announced today that a majority of Kentucky's 172 draft boards will be called to the colors Nov. 18 will train in Kentucky.

He said he had been notified by the Fifth Corps Army headquarters at Ft. Hayes, Ohio, that 43 would report to Ft. Knox on Nov. 20 and 69 at Ft. Thomas on Nov. 19 and 17 to the reception center at Huntington, W. Va. on Nov. 22.

Under the present setup, it is planned to send questionnaires to about 25 registrars in each of Kentucky's 165 local Draft Board areas on the basis of order numbers.

It was not officially confirmed, but it was believed that one draftee would be selected from each of Kentucky's 165 Draft Board areas and the remainder would be selected by some form of lottery.

The state headquarters announced the number of Kentuckians registered for selective service totaled 327,565.

The Ladies' Aid of the Constance Christian Church wants to thank each and everyone for their donations and services Saturday night at the oyster supper, also for their patronage which was greatly appreciated.

BANK OBSERVES 35TH BIRTHDAY

NOVEMBER 6—WAS ORGANIZED IN 1905 WITH CAPITAL STOCK OF \$20,000.00—MUCH PROGRESS NOTED.

On another page of this issue will be found an advertisement of the Peoples Deposit Bank reminding its customers and friends of its 35th anniversary. The capital stock of \$20,000 was subscribed in the year of 1905 and an organization was effected in May of that year by the election of the following directors: B. W. Adams, O. P. Conner, T. J. Walton, W. L. B. Rouse, A. W. Corn, W. P. Beemon, C. W. Riley, Henry Clore and H. C. Duncan. B. W. Adams was chosen as President and O. P. Conner, Vice President with D. E. Castleman as Secretary-Treasurer.

A building site was selected and a small two-story brick building erected on the corner of Union and Jefferson Street, which building and lot is now owned and occupied by the Farmers' Mutual Fire Insurance Company.

On August 14th, 1905, A. B. Renaker, of Dry Ridge, Grant County, Ky., then a young man 22 years old, was selected as cashier and on November 8th, 1905 the bank opened for business. No assistant was provided at that time and the Cashier performed all active duties pertaining to the position in those days, including the duties of the janitor. The banking hours then were usually from 7 a. m. to 5 p. m. and as much longer as customers required. The business gradually grew and a 3 percent semi-annual dividend was paid the first year, December 31, 1906. Within two years it was necessary to provide the Cashier with an assistant and Miss Nell H. Martin was selected for this position which position she continues to hold with the bank.

The bank operated a year or two without the aid of an adding machine all work being done with pen and ink and without electric current or any modern conveniences in the building. Judge C. C. Roberts worked in the bank for a few months in the beginning without pay just to learn the business.

Later it was necessary to have a second assistant and D. B. Carpenter was employed a short time, then he resigned to finish his education. L. T. Utz was elected as assistant cashier to fill the vacancy, resigning later to become deputy sheriff. C. Beemon was then elected assistant cashier and served in that capacity until he resigned on account of ill health in 1937.

Two banks were operating in Burlington up until February 1927 when a merger was effected between the Boone County Deposit Bank and the Peoples Deposit Bank, and G. S. Kelly and C. L. Cropper, who were with the Boone County Deposit Bank, became assistant cashiers of the merged institutions which positions they now hold.

Before the Peoples Deposit Bank opened for business O. P. Conner died and E. H. Blankenbaker was chosen to fill the vacancy on the Board and W. L. B. Rouse was made Vice President. B. W. Adams succeeded to the Presidency.

Upon the death of W. L. B. Rouse, C. H. Youell was elected President and served until his death in 1930, when N. E. Riddell, former President of the Boone County Deposit Bank was elected President of the Peoples Deposit Bank, which position he now holds. Others who have served on the board from time to time were B. B. Hume and Edgar C. Riley.

This bank has had an unusual growth, and it is said by bank examiners to be the largest country bank in a town the size of Burlington within its knowledge.

During the depression of 1933, when many banks of the nation were failing, few if any withdrawals were made by depositors, and the officers continued to serve customers normally and without having to resort to rediscounting of paper or the borrowing of money. This is a record of which any bank should be proud. It is the policy of this bank to operate along safe, sound and conservative lines, yet liberally as possible in dealing with its customers.

Three members of the original

board of directors are still serving they being A. W. Corn, W. P. Beemon and Henry Clore. Of the present members of the board, two of its members are of advanced age, R. S. Cowen is 96 and A. W. Corn is past 94 years of age. Both of these men are reasonably active and attend the regular board meetings. Another member of the board Henry Clore, will soon be 84 years of age and he too attends regular board meetings and takes an active part in the affairs of the bank.

The present home of this bank is very comfortably located on Washington Street, facing the court house, in a two-story brick building with a modern burglar proof vault and Don Steel 10-inch Moser vault door which the bank received in 1937 and merged with the Boone County Deposit Bank. The Boone County Bank had erected this nice building in 1925.

The Boone County Deposit Bank was organized in 1886 with Fountain Riddell as President and Jo C. Revill as Cashier. Upon the death of Mr. Riddell, Dudley Rouse was elected to the Presidency, serving until his death in 1912 when Judge N. E. Riddell was elected President. W. D. Cropper was elected Cashier upon the death of Mr. Revill and merged with the merger, when he retired on account of ill health and died the following year.

It is very interesting to note the many changes and improvements in banking over a 35-year period, in that practically all business is now done by check many new and improved systems of bookkeeping are required in order to furnish customers with modern banking service.

Thirty-five years ago banks were not examined by the State Banking Department, in fact there was no banking department. Banks made their quarterly reports to the Secretary of State and that was all that was required. A few years later the Secretary of State requested banks to permit his office to make examinations by certificate. This was the beginning of bank examinations and the establishment of a State Banking Department with a law being enacted requiring all banks to submit to examinations and later to the Insurance Department by the government, carrying dual examinations by both State and the F. D. I. C. The Peoples Deposit Bank was one of the first to sign the agreement with the Secretary of State permitting examinations.

Florence Store Will Celebrate Fifth Year Of Service

Anten's Food Market, Florence announces in this issue of the Recorder their Fifth Anniversary Sale which will be conducted this week. The management is offering special prizes, souveniers, and useful gifts for everyone attending the anniversary sale.

On another page of this issue will be found an advertisement offering special in all kinds of staple and fancy groceries. The management made the following statement: "In observing our 5th Anniversary, we wish to express our sincere thanks to our patrons who have made it possible for us to serve this community. We hope to merit your patronage in the future."

Disease Reported In Cattle And Hogs

Black Leg in cattle in North Bend and Hamilton communities and Hog Cholera in Grant community were reported the past week by Kenneth Ryle, Veterinarian at Burlington. The herds were immediately treated to prevent further spread of the disease.

Dr. Ryle is rated as one of the leading veterinarians in the state and is rendering an excellent service to farmers of Boone and adjoining counties. He advises that farmers in the above communities be on the lookout for further spread of these contagious diseases among their livestock. It is possible for dogs, other animals and birds to carry the disease from one farm to another.

REFERENDUM TO BE HELD

BY BOONE COUNTY BURLEY GROWERS. THREE QUESTIONS TO BE ASKED—SAME PROCEDURE TO BE USED.

Three questions will be asked burley tobacco growers in the referendum to be held in November after a national marketing quota is proclaimed by the Secretary of Agriculture as required under provisions of the Agricultural Adjustment Act of 1933. Mark Cook, chairman of the Boone County Agricultural Conservation Association, said.

The proclamation of marketing quotas, required by law because of the large supply of burley tobacco on hand, will be followed by a referendum within 30 days, Mr. Cook said.

The three questions to be asked in the referendum are: (1) Are you in favor of quotas for a three-year period (1941, 1942, 1943)? (2) Are you opposed to quotas for three years, but in favor of quotas for one year (1941)? (3) Are you opposed to quotas?

Procedure in holding the referendum is the same as that used in the burley referendum of 1940, except for changes made necessary by amendment of the act affording growers a choice of quotas for one year or for a three-year period.

CEASE FIRING

On Nov. 11, 1918, at exactly 11 a. m. came the call to "cease firing." Many millions of prayers had been tendered for this decision to come to cover the shame of a stricken humanity. So, thankfully, the world heard on that day the echo of the armistice of the great World War. In Boone County we recall the excitement and frantic celebrations that followed, the unrestrained jubilation that spread over the world and most joyfully did the U. S. react. Hearts that were laden with worry and heavy with tears were enlightened by hope. The anticipation of seeing loved ones, of the return to homes and families swept the nation's emotions high. "Cease firing" were the most cherished words of 1918 and could be the most appreciated ones of 1940.

That armistice that was designed as a declaration of peace was followed by dictates of surrender that was eventually to ferment and grow in another great war. To lose a battle means that one side becomes the conquered who must cede to demands, just and unjust. Too often the conqueror stresses his victory by acting first and thinking afterwards. The sore festers, healing only on the sur-

face. Everyone knows a running sore is bound to cause trouble. Too late we realize that the "cease firing" of 1918 was only prolonged to pass to another generation. Would that there might be a complete and satisfactory armistice for the nations of the world!

FOR SERVICE RENDERED

With an ache or pain today, the habit of many is to locate a specialist noted for the specialized treatment of such a complaint. In seeking this sort of medical attention and the services of large city hospitals, the small town doctor has been relegated to a back seat in some communities. There will always be those among us who recognize the ability of home town physicians, of the respect they draw and the commendable way they have served for these many years. Practicing medicine in a small town has its drawbacks. Demands are made upon the time and strength of the country doctor that the city doctor does not need to bear. The doctor who knew the family from way back, has a personal interest that calls him to unhesitatingly answer. Nearby hospitals offer modern equipment to save human lives, and fast means of transportation get the sick to these institutions. The country doctor used to travel mud roads in horse and buggy, operate with bad lighting due to smoky kerosene lamps, and spend hours by bedside to save the children of parents and grandparents whom he had known and served before. Perhaps he wasn't so methodical in his bookkeeping and a monthly statement was not prompt in the issuing. There was as much concern over a case where the doctor wouldn't receive a cent as over the fewer cases where the charge would be instantly paid. Each town and village over the country still have their doctors who live in the hearts of the people. A new order of physicians may have taken their place on the roster of service but no one can take from the old-time country doctor the reward he so rightly deserves. Valor for services rendered.

HELP AT HOME

Each has answered in his own way, the general appeal to assist in the local drives for community welfare. We should be concerned about the pitiable state of health and living that is not so far from our doors but that we don't hear the calls for help. To those cries from lands abroad we are being heedful and supporting. But we must remember that winter will be equally hard on our own unfortunate who will be as cold and as hungry. Those about our country who are ill and discouraged will need protection and contributions. Many have been the calls made upon our purses and on our time. Sometimes we stop to question and halt to consider personal limited means but there will be a way to protect those within our gates, for as they say, "that is the American way."

1941 AUTOS

From close-ups and long shots of the new auto picture for 1941, there is much in store in luxury and beauty and service for the owner of one of these new cars. There are shining models that already grace the streets. As well as appealing to the eye they have added features for safety which appeal to the soul. The new design. Auto engineers have surely done wonders in protecting us from ourselves with the installing of greater glass area both front and sides, sealed-beam lighting for night riding, special lights for fog, extra signal lights, new widths in seating arrangements, all-steel bodies and new type frame structures, improvements in safety glass, eliminating of shock to the steering wheel, new sort of tires for wet pavements, special kind of air-conditioning and so on. We should leave much of this to some salesman who will delight in giving you the dope first handed.

FORWARD, POTATOES

As most of us already know, Germany produces almost ten times the average U. S. potato crop. Being the world's largest producer she has turned attention to utilizing this potato for something else besides eating and has put it to a test for industrial purposes. Germany consumed about 30 percent of the crop for food, 15 percent to seed, 38 percent for feeding live stock and 10 percent for lossage. The remainder they are trying to use in the manufacturing end. While alcohol eats up many millions of bushels, the place of alcohol has been taken by the desperate making matches, motor fuel, chemicals, medicines. Starch has long been a product as well as starch by-products. This holds true in our country where the manufacture of soap from potatoes has progressed. Dyesynth and resins used in making matches are employed through courtesy of the lowly spud. Seldom do we think, as a dish of steaming potatoes graces the board in our homes, that there reposes in skins of brown, potential soap, starch, matches and fuel.

THE NATIONAL BIRD

The hunting of duck, pheasant, rabbit, squirrel and deer, with a number of states having laws for the protection of certain birds and animals by banning the bagging of various game, gives us thought for the many states that have joined in protecting our national bird, the bald eagle. There are only seven of the 48 states who do not preserve the eagle by offering it legal protection.

Back in 1782 the eagle was designated as our nation's insignia. Despite the many stories telling of huge birds that sweep down on children, carrying them away to nests, the imagination stretched itself a bit in most cases for the eagle has been proven to carry little over its own weight. There was not much evidence offered to back up the tales. Scientists praise the hawk as a protector of crops from animal destruction. They find that the eagle is not a predatory bird and prefers dead flesh, mice, fish snakes and rabbits for food. A few states find sport in hunting the bird by airplane due to its destruction to the livestock. However, if there is not better care taken to preserve the life of the eagle, we will find ourselves a nation with an emblem of an extinct bird. The king of birds should be protected legally by every state in the union.

UNIFORM INTERNATIONAL

SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D.
Dean of the Moody Bible Institute, Chicago.
(Released by Western Newspaper Union.)

Lesson for November 10

Lesson subjects and Scripture texts as given by the Committee on Bible Lessons of the Council of Religious Education; used by permission.

THE GOLDEN RULE

LESSON TEXT—Luke 6:27-38.
GOLDEN TEXT—As ye would that men should do ye also to them likewise.—Luke 6:31.

Hiding in a dark cellar will not stop the sun from shining; it will only deprive us of its warmth and life-giving power. Likewise the faith of mankind to receive and practice the great principles of Christian faith does not alter nor weaken them, even though it does deprive humanity of their blessing.

It may seem foolish to some to observe an Armistice Sunday in the midst of a world at war, to talk about the golden rule in a selfish world where men hate one another, but the fact is that now is the time to really consider the solution of God for man's problems. Then too, let us remember that the failure of mankind as a whole to receive the truth of God does not hinder us from receiving it as individuals. Our relationship to God is an individual matter, even though we also belong to a race or nation. Our lesson presents the golden rule.

I. A Great Christian Principle (vv. 27-31).

The magnificent breadth of this principle of Christian consideration does not teach that our enemies—no small withholding even in argument over the detailed interpretation of verses 29 and 30. Surely there is not in mind here any casting to the winds of an intelligent appraisal of the needs of those to whom we give; nor is there any thought of a self-glorifying turning of another cheek in physical combat. It does not teach that our nation may not defend itself against those who attack us. At the same time we must note that it means much more than most of us are willing to receive in its words.

What does it mean? It means that in the spirit of Christian love we will give of ourselves and our substance in "large handed but thoughtful charity." It means love for our enemies—no small withholding even from unreasonable people. It means doing unto others what we would have them do unto us. It "requires" that we should do to others as we desire that others should do to us. . . . that we buy of others as we desire others to buy of us. . . . that we talk about others behind their backs as we desire that others should talk about us. . . . Are we doing it?" (Dr. John W. Bradbury).

The Golden Rule is not the Gospel. No one is saved by living according to it; in fact, that is quite impossible apart from faith in Christ.

II. Its Divine Foundation (vv. 32-35).

The so-called golden rules of men lack the divine element of grace and are all in the negative. Confucius said, "Do not do to others what you would not want them to do to you." Others spoke similarly, but Jesus, building on the divine love which does good to even the evil and the unthankful (v. 35), gives a positive admonition of gracious consideration of others.

We are the children of the Most High God (v. 35) and are to live in accordance with His standards and, what is of equal importance, by His grace and strength. Even Christians are prone to live as their neighbors live (vv. 32-34) until they see how much better God's way is, and realize that He gives enabling grace for a daily walk in that better way.

III. Its Practice and Reward (vv. 36-38).

Jesus has already admonished His followers to love and serve both friend and foe. The manner in which that is to be put into practice is further developed by urging them to be merciful, not setting themselves up to judge the conduct of others, but rather giving liberally to them in a spirit of love. This does not forbid judging on the part of those whose official duty is to judge, nor does it set aside the exercise of sound judgment (Isa. 56:1 and I John 4:1), but it does forbid unauthorized and unkind judgment.

"But will all this pay?" asks Dr. Bradbury (in "The Gist of the Lesson") and answers: "Indeed it will. . . . The measure that we use in measuring out to others is the very measure God will use in measuring in to us. The reason many of us get so small a blessing from God is that we use such a small measure in our beneficences and blessings to others" (see Phil. 4:19, noting vv. 15-19; II Cor. 9:8, noting vv. 6, 7; and I John 3:22, noting vv. 16-21). "One of the most fundamental conditions of prevailing prayer is generosity in giving. A stingy man cannot be a mighty man of prayer (Prov. 21:13)." Read these verses with care, and they will bring a real blessing to your life.

Giving and Receiving
Give, and it shall be given unto you good measure, pressed down, and shaken together, and running over, shall men give into your bosom. For with the same measure that ye mete withal it shall be measured to you again.—Luke 6:38.

A man is innocent until he is proved guilty and then he is usually judged insane.

Most of life is gone by the time that you become wise on how to make the most of it.

— The High Cost of Getting Well
Within recent years much has been said about the high cost of getting well. After giving this problem a great deal of study, we have devised a simple plan whereby the patient may get the best health service at a very nominal cost, without sacrificing any laboratory tests or x-rays which may be necessary in his particular case.

We shall be glad to explain this plan in detail if you will call at this office.

Florence P-T. A. To Meet November 11th

The regular monthly meeting of the Florence P-T. A. will be held next Monday night November 11 at the school house. A business meeting will be held at 7:30 and an Armistice Day program will be given by the school at 8:00 p. m. Refreshments will be served by those having birthdays in July, August and September. All members are urged to attend.

County Surveyor To Be Out Of County For Several Weeks

Noel Walton County Surveyor has asked us to make the following announcement:
"I am going to be out of the State after November 18th for several weeks, so will take this opportunity to ask all of you who have lots, or farms that you want surveyed this year, to get in touch with me as soon as possible, in order that an early date may be arranged. To any who have surveying to be done and who want the job completed this year, but don't feel that they are financially able at this time, may I say that I will be glad to make any extension of credit that will enable them to have their work done at an early date.

"After November 18th a deputy, to be selected later, will take care of any urgent or pressing work that may come up during my absence. If any of you wish further information you can get in touch with me until Nov. 18th at Burlington 166.

"NOEL WALTON."

**BLUE BIRD CLUB IS
ORGANIZED AT HEBRON**
The eighth grade girls of the Hebron school have organized a club called the Blue Birds. The purpose of this club is a drawing club. We have had three meetings with fifteen members, some high school students and some from the seventh grade present.

We met Thursday, Oct. 31 and enjoyed a successful Halloween party. Lunch was served by the girls.

Officers for the ensuing year were elected as follows: President Janet Feldhaus; vice president, Betty Biddle; secretary, Lucille Bowman; judge of art, Zelpha Nicholas.

Next meeting will be held Nov. 7th. We hope each meeting will add to the success of our club.
Janet Feldhaus.

DESIRABLE FARM TO BE SOLD NEAR INDEPENDENCE

The J. A. Frakes 70-acre farm will be sold at auction Saturday, November 9, 10 a. m. This property is located three miles west of Independence, on Wright Road, just off Banklick Station Road.

The farm has a five-room shingle house, one-floor plan, and has a full basement, furnace, double garage, electricity, chicken house and a large barn. The land is suitable for alfalfa and tobacco.

Included in the sale are horses, milk cows, pigs, hay, farm tools and farm equipment. A turkey will be served on the grounds.

The sale will be conducted by Rel C. Wayman, 623 Washington St., Covington.

Hebron School Opens Basketball Season Fri.

The Hebron High School opens its basketball season Friday night, Nov. 8th, with Cold Springs. Coach Huey of the Cardinals has about twenty-five in his squad and prospects are good for two first class teams before the season is very old. Hebron has a twenty-game schedule this year, eleven games at home and nine games on the road. All home games will start at eight o'clock Eastern Standard Time.

Following is the home game schedule:

Cold Springs, November 8th.
Silver Grove, November 15th.
Walton, November 22nd.
Ludlow, December 6th.
Burlington, December 14th.
Alexandria, December 21st.
Florence, January 10th.
Warsaw, January 18th.
A. J. Jolly, January 31st.
New Haven, February 15th.
Hamilton, February 21st.

BURLINGTON SCHOOL NOTES

An Art Club, under the supervision of Miss Amanda Holladay was organized Monday with about 20 girls becoming members. The following officers were chosen: President, Jane Hollis; vice president, Gertrude Garrison; secretary, Mildred Lizer, and treasurer, Mary Jane Pettit. The members are very much enthused over the plans for the year. Glass painting, lantern shows, and outdoor sketching will be probable activities for the new club.

The Senior Girl Reserve Club met Wednesday. Reports and discussion of Conference were the main topics of the group. The club plans to sell popcorn or soft drinks at the basketball games.

The monthly County Teachers' meeting was held at this school on Monday night. The majority of the teachers of Boone County were present.

Everyone in school felt rather badly about the Eagles losing to Silver Grove Friday night. However, we're hoping to win over Walton in our Saturday night game here, Nov. 9th.

New Member Added To D. H. I. Association

Dairy Herd Improvement Association membership in Northern Kentucky Association has been secured by Mrs. Edna Hamilton, Verona. Mrs. Hamilton's dairy herd is composed mostly of milking Shorthorn cows.

Eight Boone County dairymen have secured D. H. I. A. membership to date. They are Harold Crigler, Wm. Moore, Dr. R. C. Garrison, Grant Maddox, Ira Tanner, Albert Parker, Herman Decker, and Mrs. Edna Hamilton. There are a number of other dairymen interested in herd testing and record work but who have not signed up to date. Those expecting to test should sign up at the county Agent's office immediately as the new testing year starts with the month of November.

Increases In Small Payments Continued

Provisions for increases in small payments under the Agricultural Conservation Program in 1939 and 1940 will be continued in the 1941 program, Mark Cook, Chairman of the Boone County Agricultural Conservation Association, announces.

This provision, Mr. Cook said, increases all payments under \$200.00 on a sliding scale, so that farmers in the lower payment brackets are paid proportionately more for their soil improvement work than those in the higher brackets.

All payments up to \$200.00 are increased by 40 per cent of the amount of the payments, and on payments from \$200.00 to \$200.00 the percentage of increase is lowered with each rise in the amount of the payment.

Mr. Cook emphasized that this is not a new provision. He estimates that approximately 170 farmers in the county received these increases in 1939 and that about 190 will receive increases under the 1940 program.

Thirty-Five Years of BANKING SERVICE

1905

1940

ON NOVEMBER 6th, 1905 this bank opened its doors for business and has withstood storms, panics and depressions with the full confidence of its customers during all this period.

No restrictions were ever placed on withdrawals and no customer was ever refused a loan for lack of funds.

Stockholders have received \$170,900.00 in Dividends.

Depositors have received just a few dollars less than \$500,000.00 interest on deposits.

The people of Boone and adjoining counties have been very kind and generous with their patronage during the past 35 years and the officers and directors desire to express their appreciation for the cooperation and good will of the many customers who have made this strong bank possible.

Mr. and Mrs. Howard Huey and Mr. Sammy Huey spent Sunday afternoon with Mrs. Huey's daughter-in-law, Mrs. James Cleek, who is recovering nicely from an automobile accident.

Miss Lucille Hoffman, of Lawrenceburg, Ind., spent the weekend with Mr. and Mrs. Stanley Bonta.

Mrs. Ernest Ryle and Mrs. "Dode" Pope, of Covington called on Mr. and Mrs. Charles White

and other relatives here last week. Mr. and Mrs. Henry Raines did not like our neighborhood, so it seems, for they moved Monday, back to the same house in Belleview which they vacated just two weeks ago Monday.

From all reports from Rantoul, Ill., our local boys Allan White and Kenneth Rogers appreciate the dear Old Boone County Recorder more than they did when they were here in Gasburg. They tell us they like it fine out there and that their uniforms are getting tight, so it sounds as though they are being well fed.

Mr. and Mrs. Geo. McDaniel and children spent Sunday with Mr. and Mrs. Bill McDaniel.

Mrs. John Kloppe and Miss Gladys were visitors in Burlington Friday afternoon.

Mrs. Stanley Smith and children called on Mrs. Harry Bayer one afternoon this week.

Mr. Lester Ogden called on the Hugh Arnold's last Friday evening.

Rufus Neace spent Saturday night with Mr. and Mrs. George McDaniel and family.

Mr. and Mrs. Hugh Baker spent Thursday evening with Mr. and Mrs. W. O. Rector.

The Cook and Aylor families are improving the front of their lawns by terracing the banks.

The latest report to reach us was the wedding Saturday of Mr. John Kittle and a Miss Martin, of Erlanger. Congratulations and best wishes are extended to this happy young couple.

Mrs. Hugh Arnold and Mrs. Ott Rogers called on Mrs. Charles White one afternoon last week.

Mrs. Harry Bayer called on Mrs. Hugh Baker one evening last week.

Mrs. Hugh Baker and Mrs. Stella Kelly called on Mrs. Charles White one day last week.

L. S. Chambers has been quite busy this week, building a culvert wall.

Mrs. Mamie Williamson and Mrs. Jennie Rogers left Monday for Ashland, Kans., where Mrs. Rogers will spend the winter.

Mr. and Mrs. John Kloppe and daughter spent one evening last week with Mr. and Mrs. Courtney Pope and family.

Mr. and Mrs. John Burns and family, Miss Sara Smith, Mr. and Mrs. Stanley R. Smith spent Sunday with Mr. and Mrs. John Ryle, of Burlington.

Mr. and Mrs. Frank Biddle and family spent Sunday with Mr. and Andy Cook.

Mrs. Cord Cox and son spent Sunday evening with Mr. and Mrs. W. O. Rector.

Mr. and Mrs. Hugh Arnold spent Sunday with Mrs. Elizabeth Keim, of Petersburg.

WILD TURKEYS ARE RELEASED IN ESTILL CO.

The Estill County Game and Fish Protective Association is in receipt of 26 wild turkeys, according to a statement issued by Major James Brown, Director of the Division of Game and Fish.

The turkeys, which were purchased by the Division, were liberated on a 1,500-acre tract of timberland in Estill county by D. R. Howard, Conservation Officer, who was assisted in the liberation by members of the local game and fish club.

PETERSBURG

Miss Flora Detmer and Mrs. Mort Hurd entertained with a surprise birthday party for Mrs. Elizabeth Keim at the Maple Inn at Aurora, Thursday evening of last week. Various games were enjoyed, delicious refreshments were served. Those present were Mrs. Lella Bailey, Mrs. Leo Fahey, Mrs. Lawrence Heiderman, Miss Adeline Reise, Mrs. Elizabeth Keim, Miss Flore Detmer, Mrs. Mort Hurd, of Aurora and Mrs. John Wessler, of Atlanta, Ga. Mrs. Keim received many beautiful gifts.

Mrs. Lirchge and Mrs. Long, of Aurora, Ind., spent Friday night with Mrs. Olga Gelsler and attended church here.

The picture show at the school house Nov. 9th will be "Call of the Wilderness." Come and see a good show.

Mrs. Laura Maines, of Aurora, Ind., spent Thursday with Mr. and Mrs. Filmore Burns below town.

Mrs. E. W. Keim and children, Misses Lois and Lowell Benson were week-end guests of Mrs. Mary Berkshire. Rev. Cross and Mrs.

Ella Houston of Union, were dinner guests Saturday evening of Mrs. Berkshire.

The masquerade social given by the Christian Church Sunday School at the school house was well attended, all having a good time. Mrs. O. S. Watts took first prize as the best masked lady.

Mr. and Mrs. J. B. Berkshire returned home Tuesday from a ten-day visit with their son Frank, at Lawrenceburg, Ind.

Mr. and Mrs. Willie Hill, Mr. and Mrs. McKinney and daughter of Maysville, spent Sunday with Mr. and Mrs. E. A. Stott.

Forest Krutz is improving as much as could be expected, but is still confined to his bed.

Two of Ruthford Kloppe's children are suffering with a severe case of poison ivy.

The building known as the Berkshire building is being painted, both inside and out.

Miss Lucille Hoffman, of Lawrenceburg, Ind., were calling on friends in Petersburg Sunday.

Misses Lucille and Nora Rucker called at the home of Lizzie Walton Sunday, taking her for a long ride, as it was a beautiful day. The

ride was enjoyed very much by her.

Mr. Riley Presser and family moved here from Cincinnati last Saturday. They are occupying the G. C. Stott house.

Mr. and Mrs. Terrill Riley and children, of Lexington, spent the week-end with Mrs. Lou Earley, returning home Sunday evening.

Mr. and Mrs. Harry Jarbo and family and Mr. and Mrs. Cecil Burns spent Sunday with Mr. and Mrs. Leroy Cox at Aurora, Ind.

Ollie Mae Brady, daughter of Mr. and Mrs. Hubert Brady was operated on for appendicitis at Booth Hospital Sunday night.

Mrs. Ralph Montgomery and children spent Sunday afternoon in Petersburg.

There will be a picture show at the school house—a surprise picture. Come out and see it and help the P-T. A.

The Methodist meeting closed here Sunday night.

Mrs. Mary Berkshire attended church here Sunday night.

All of us are born free and equal, but a lot of us abuse the privilege of the freedom end of it.

CARD OF THANKS

I extend heartfelt thanks to relatives, friends and neighbors for the love and sympathy shown me during the illness and death of my beloved husband.

Wallace Clere

Especially do I thank Rev. Raymond Smith and Rev. R. L. James for their visits at hospital and impressive sermon; the singers; donors of the beautiful floral offerings; Chambers and Grubbs for their kind and efficient management of the funeral.

EXCESS TAXES BEING CHARGED

ON CIGARETTES BY SOME RETAILERS, ACCORDING TO REVENUE COMMISSIONER, CLYDE REEVES.

Frankfort, Ky., Nov. 5.—Clyde Reeves, state revenue commissioner, has reported that numerous Kentucky cigarette smokers are being charged an extra penny for "10-cent" brands.

This is due, he said, to some retailers using "illegal practices." Some of the retailers are selling such brands for 12 cents with only a one-cent state tax affixed to the packages.

He explained that the state tax on each package is one cent for each 10 cents, or fraction of 10 cents of the retail selling price. The retailers have a "perfect right" to sell the 10-cent brands at 11 cents, state tax included, but if the smoker pays 12 cents, the state is entitled to 2 cents tax."

Reeves said. He suggested that smokers check their packages of "10-cent" brands and not pay over 11 cents unless a two-cent state tax stamp is on the package.

"Criminal prosecution will be resorted to if necessary to enforce this phase of the Kentucky cigarette tax law," the commissioner declared. He said Revenue Department field agents are "constantly checking" retailers in an effort to "protect the public" and to collect any taxes due.

The situation was brought about by the recent increase in federal taxes on cigarettes, Revenue Department official said. The tax increase was placed on the cigarettes as part of the defense tax program.

Fifty-Eight Attend Meat Demonstration

Fifty-eight attended the two meat cutting and canning demonstrations held last Thursday at Gully and Pettit's Store, Burlington, and at Lloyd Siekmans, Hebron, according to H. R. Forkner County Agent. Considerable interest in better cutting, curing and canning of the home pork supply was shown.

Grady Sellards, swine field agent presented the meat cutting demonstration and Mary Hood Gillaspie, Home Agent, the canning demonstration. The demonstrations were conducted in cooperation with the county "Live at Home" project designed to interest and teach farm people to grow, prepare, and use the food supply produced on the farm in a more efficient way. Farm people are learning that they can produce for their own use food products superior in quality and variety to those purchased in the city.

Foot Health

IN RELATION TO MENTAL HEALTH

N. TULCH

Foot Comfort Specialist at—
PEOPLE'S FOOT COMFORT
9th and Madison Covington

Those of us who have read the novel, "Of Human Bondage," will remember the marked personality defect due to a chronic foot condition. Here we have the case of a man who, because of a childhood foot affliction, grew up with his entire personality warped and distorted.

Usually a parent is anxious for his child to have a well integrated, well rounded personality; be congenial, intelligent, healthy, athletic and socially desirable. The distorted personality is one in which but few or even only one element of the personality is perfected or desired by the individual. You have all heard of children who develop their athletic skill and totally disregard their academic training, and of others who are bookworms, and never have the house to participate in the activities of their social group. This exclusion of activities in favor of only one activity is very often an indication of a shortcoming of the personality.

Let us consider, for example, the case of a child with flat feet. Because of his flat feet, he has difficulty in running and moving about among his friends. He finds shortly that he very often loses in games where speed and agility are required. In the simple game of tag he is usually in the center and the butt of ridicule on his playmates. When teams are chosen he is usually the last one picked and soon begins to feel that he is not capable or wanted by his friends. He begins to avoid them and tries to escape the ridicule by doing things which he can do by himself. He turns to reading, or some other solitary activity, and finds in this way some protection from his playmates. Thus his personality becomes distorted and he fears to meet people on the same social level. He feels inferior and tries to run away.

However, let me not leave the impression that all mental disorders are due to the feet, but let me rather emphasize that mental disturbances that are caused by poor foot health should be quickly eradicated.—Adv.

CASHIER FOR 35 YEARS
ST. ELIZABETH HOSPITAL
TO RAISE \$78,000 DURING
CELEBRATION NOV. 10-17

With the cooperation of philanthropic and civic groups of Northern Kentucky counties, St. Elizabeth Hospital, Covington will endeavor to raise \$78,000 during the observance of the institution's 80th anniversary celebration, Nov. 10 to 17.

Full cooperation of Most Rev. Francis W. Howard, Catholic Bishop of Covington has been pledged to the fund-raising program to which will also be enlisted volunteers of fraternal, civic and religious organizations in Northern Kentucky.

The campaign to raise the jubilee year fund to be used in expansion of the hospital's work was determined following a series of conferences in which many prominent Northern Kentucky men and women participated.

The drive which will highlight the hospital's 80th anniversary celebration including religious and civic ceremonies will begin the week of Nov. 10, James R. McGarry, general chairman announced.

Members of the Crusaders club of the hospital headed by Nicholas J. of Mercy of which Mrs. Herman I. Gausepohl, president and the Circle Shafted is president are cooperating in anniversary arrangements.

Representing Bishop Howard will be Rev. Edward Kosterman, pastor of Mother of God Church, Covington and diocesan representative for charitable institutions.

James R. McGarry, Covington attorney will serve as general chairman of the jubilee.

All Northern Kentucky counties adjacent to and served by St. Elizabeth Hospital have been invited to send delegations to organization meeting of the fund raising campaign.

WELL-MANAGED GOOD SMALL FARM EXCEL POOR BIG HOLDINGS

Well-managed, productive medium to small farms often pay as well or better than poorly managed, low producing large farms. The University of Kentucky found in a business analysis of 106 farms in the outer Bluegrass region.

The operator's net earnings last year for the 106 farms averaged \$1,312. This is what the operator had left after \$73,270 expenses and allowing 5 percent interest on the farm investment. Twenty-nine farms of less than 90 tillable acres each had average net earnings of \$884; 31 farms of 90 to 139 acres, \$1,254; 38 farms of 140 to 249 acres \$1,530 and eight farms of 250 to 400 acres, \$2,046.

On all the different sized farms tobacco ranked first in income, with dairy cattle second. Sheep and hogs are major sources of income on all farms, poultry on the small farms, and beef cattle on all but the small holdings. The tobacco acreage on the small farms averaged 3.3 acres; on the medium sized farms, 4.6 acres; on the large farms, 6.6 acres, and on the 250 to 400-acre farms, 10.6 acres.

Net earnings on the 106 farms ranged from \$73 to \$3,270. Important factors influencing returns were listed as size of business; crop yields, especially of tobacco, corn and hay; pasture production; livestock production, and the way the farm business was balanced.

The team with the heaviest line doesn't necessarily make the most touchdowns. Strategy still plays a leading role.

TEMPTING PALATES

Put 2 tablespoons prepared horse-radish in 2 cups fresh apple sauce and serve with pork or beef dishes for an appetizing sauce. If croquettes are made two or three hours before frying and are kept thoroughly chilled, they will keep their shape when cooking. Scrambled eggs for garnish if a few bread crumbs are mixed with the eggs while cooking. Use a tablespoon of crumbs to each egg. For a nice salad stuff preserved figs with cream cheese, place on slices of pineapples and serve on lettuce leaves.

MAKING DOUGHNUTS

Handle your doughnut dough as little as possible. When frying doughnuts should quickly come to top, browned and under side, and they can be easily turned to brown the upper side. Keep fat at uniform temperature; if too hot doughnuts brown before they are well cooked inside, and if fat is too cold the doughnuts will be flat and grease-soaked.

Help the Red Cross to help humanity.

Four-H Achievement Meetings Scheduled

Achievement meetings are being held during this week and next in each of nine communities sponsoring 4-H club work, according to H. B. Drake, Assistant County Agent. The Hamilton club has already conducted this annual exercise.

Achievement certificates are awarded 4-H members who have successfully completed a year's work in the club. The type of certificates awarded vary with the years of work completed.

The schedule of meetings is as follows:

- Grant, Tuesday, Nov. 5, 8:15 a. m.
- Verona, Tuesday, Nov. 5, 1:15 p. m.
- Walton, Tuesday, Nov. 5, 2:15 p. m.
- Burlington, Thursday, November 7, 9:15 a. m.
- Florence, Monday, November 11, 11:45 a. m. (C. S. T.)
- Petersburg, Tuesday, November 12, 8:45 a. m.
- Hebron, Tuesday, November 12, 9:50 a. m. (C. S. T.)
- New Haven, Tuesday, November 12, 1:30 p. m.
- Taylorsport, to be scheduled.

MANY BUYERS OF WHEAT USING ILLEGAL MEASURES

Buyers of wheat in Kentucky are violating the law in the use of illegal measures for the purpose of grading wheat according to a survey just completed by Mr. Ivan Jett, Director of Markets of the Kentucky Department of Agriculture.

Mr. Jett stated that during a careful state-wide check it was discovered that many of the grain

grading devices now in use were antiquated, dented, bent, improperly repaired, and generally unfit for an accurate determination of the grade of wheat being purchased. "In addition most buyers use pint, quart, or one-half gallon measures for grading purposes," Mr. Jett said, "while Section No. 481A-1 of the Kentucky Statutes specifically provides that it shall be a violation of the law to use any measure other than the standard one-half bushel measure furnished the State by the United States for the purpose of grading wheat."

"Under legislation enacted by the 1940 session of the Kentucky General Assembly, the Division of Markets of the Kentucky Department of Agriculture at Frankfort is authorized to make rules and regulations for the grading of the Kentucky farm products and to enforce such rules and regulations," Mr. Jett said. "Kentucky farmers have undoubtedly lost many hundreds of thousands of dollars by the use of illegal grading equipment and every effort will be made, under existing legislation, to guarantee such farmers that only the standard half-bushel measure will be used in grading wheat in the future."

The attention of the Division of Markets of the Department of Agriculture was called to the use of illegal measures by a group of interested farmers in the State and any violations of this law should in the future be reported to the office of the Director of Markets,

Department of Agriculture, Frankfort.

Mr. Jett stated that while little could be done to assist the farmers with the grading of this year's crop a program of complete cooperation between the farmers of the State and his division would assure the correct grading of the 1940 crop.

Thank heaven we are still spending more money for face powder than for gun powder.

With this movement to "go South American," it will be so that the chap who can't rumba is unpatriotic.

TONIGHT AND FRIDAY

Blazing courage and blazing guns in a thrilling, battling, smashing picture of action... this is "Stage to Chino," power-packed drama of mail-running by stage coach in the old west with George O'Brien in the role of a death-defying United States postal inspector... stirring, breath-taking, spine-chilling, "Stage to Chino" is a "hit" for excitement-craving fans. Virginia Dale is cast opposite George O'Brien.

Second of the Double Bill

Said to be one of the season's funniest offerings, RKO Radio's new domestic comedy-romance, "You Can't Pool Your Wife," teams Lucille Ball and James Ellison again in the stellar roles with Robert Coote heading the supporting cast.

The plot of the offering deals with the frantic efforts of a young married couple to reunite after a combination of mother-in-law trouble and an unusual job serves to drive them apart. Through the endeavors of a wealthy young playboy they are finally brought together, but not until after many uproarious complications.

SATURDAY

"Millionaires in Prison," a comedy drama which intertwines the lives of a convict, king and five rich men behind prison walls, stars Lee Tracy in what is claimed as

one of his most colorful roles.

The millionaires are two stock swindlers, two wealthy businessmen entangled in a corporate mess and a doctor convicted of manslaughter. Tracy, a long term, is the leader of the gray-clad horde. He becomes involved in the efforts of the doctor convicted to complete a scientific experiment in the prison by devising a means of obtaining human guinea pigs. Counterpointing this exciting theme is the effort of the two swindlers to float a crooked stock issue among fellow-prisoners.

Featured in support of Lee Tracy are Linda Hayes, Raymond Walburn, Morgan Conway and Truman Bradley. The story, unusual among prison dramas, is an original by Martin Mooney.

SUNDAY AND MONDAY

Lionel Barrymore, Lew Ayres and Lorraine Day are featured in the latest Kildare picture, "Dr. Kildare Goes Home." Don't miss this big picture—it's something different from the other Kildare features.

TUESDAY AND WEDNESDAY

When a handsome Greenwich Village artist with a secret past tries to take a hand in the future happiness of a strange beautiful girl, his well-meaning plans backfire with hilarious results in "Lucky Partners," co-starring Ronald Colman and Ginger Rogers.

A pretty store clerk's hunch prompts her to invite the artist to share a sweepstakes ticket. Learning that the young lady is engaged to a smug salesman who throws

on honeymoon trips, the altruistic artist agrees to the new partnership providing that the young girl joins him in a platonic, pre-marital honeymoon journey should they win.

From this capricious gesture stems the story's gay comedy and romantic complications. The win, the honeyless honeymoon at-of all places—Niagara Falls, the inopportune exposure of the artist's secret past, all lead to striking climax and amusing ending of this sophisticated offering.

Spring Elyington, Jack Carson, Cecilia Loftis, Harry Davenport, and Hugh O'Connell are featured in "Lucky Partners," which Lewis Milestone directed for RKO Radio.

FINAL PLANS MADE FOR NEW HAVEN COMEDY

What—"Aaron Slick From Pumpkin Creek."

When—7:30 p. m. Saturday, Nov. 16th.

Where—New Haven High School Who—New Haven Parent-Teachers' Association.

Why—To show the public what live-wire P-T-A group can do for their school.

The program follows:

Aaron Slick, not as green as he looks, Rev. Henry Beach.

Mr. Wilbur Merriwell, a crooked speculator, Ivan Clements.

Clarence Green, a mysterious young man, Emerson Smith.

Mrs. Rosy Berry, an Oklahoma widow, Mrs. Walter Ferguson.

Glady's May Merriwell, a sweet young thing, Mrs. Irvin Rouse.

The Girl in Red, Mrs. Austin Gachwind.

Little Sis Riggs, a regular Tomboy, Mrs. Harold Weaver.

Hotel Guests, several members of New Haven P-T-A.

Coach, Mrs. John Masters.

Scene I—Mrs. Berry's kitchen on an Oklahoma farm. Gladys May is chased by an awful cow. Merriwell, the city slicker, meets his match in Sis, the tomboy. The downfall of Aaron Slick—who is crowned with Widow Berry's dough as the cat chases a mouse under "Miss City Lady's" feet causing a general up set in the entire household.

Scene II—Same scene, later in the afternoon. The charming widow almost gets a proposal. Sis hides in the clothes basket. The mysterious Clarence Green who spouts poetry. Oil on the farm, Aaron triumphant.

Scene III—A Chicago cabaret, a year later. The Girl in Red gets the best of Aaron—almost. Merriwell in the tolls of the law. "I'm so glad I could kiss a Dutchman—go in back home, hurry. Back to Oklahoma."

Mid pleasures and palaces, Though we may roam, Be it ever so humble,

There is no place like home.

In the play "Aaron Slick from Pumpkin Creek," Mrs. Rosy Berry, who in real life is Mrs. Walter Ferguson, always wanted to live in the city and here Aaron who after November 16th will be Rev. Henry Beach, is putting the final touches on Mrs. Berry's facial. She does get to the city but after being "squeezed up" in tight shoes for a year she is mighty glad to get back to Pumpkin Creek. But any more would be a give away. Others in the cast are Mesdames Irvin Rouse, Austin Gachwind, Harold Weaver and Mr. Ivan Clements and Mr. Emerson Smith.

EQUIVALENT OF 400,000 TONS OF 24% SUPERPHOSPHATE USED BY STATE FARMERS IN 5 YEARS

During the past five years Kentucky farmers cooperating in the Agricultural Conservation Program of the Agricultural Adjustment Administration have used the equivalent of 400,000 tons of 20 per cent superphosphate on legumes and grasses used for pasture, hay, winter cover crops, and green manure crops in the State.

Use of superphosphates on soil-building and conserving crops has increased steadily since was first introduced as practice in the Agricultural Conservation Program in 1936. That first year 13,364 tons of 20 per cent superphosphate was used in the program.

Beginning in 1937, supplies of triple superphosphate, in place of cash payments, were made available to farmers in the program. Use of superphosphates on legumes and grasses jumped to the equivalent of 48,932 tons of 20 per cent material that year, and climbed steadily to more than 78,000 tons in 1938, and more than 84,000 tons in 1939.

Growing in popularity because it produced increases in hay and pasture and because livestock preferred grazing on legumes and grasses treated with it, superphosphates equivalent to approximately 180,000 tons of 20 per cent material were ordered by more than 90,000 Kentucky farmers for use in the 1940 program.

Of the total amount of materials used in the past five years, 139,500 tons was triple superphosphate which is equivalent to 334,800 tons of 20 per cent material.

NUMBER 24

150 DEMOCRATS ATTEND BANQUET

GIVEN BY YOUNG DEMOCRATIC AND WOMEN'S DEMOCRATIC CLUBS OF BOONE COUNTY AT FLORENCE TUESDAY NIGHT.

One hundred fifty persons attended the annual dinner given by the Young Democratic and Women's Democratic Clubs of Boone County, held at the Florence high school Tuesday night.

Messages of the need for national unity, strong national defense, preservation of the guarantees of the Bill of Rights, and an alert, appreciative, and responsive citizenry to preserve and strengthen the ideals of American democracy were heard by the gathering.

Principal speakers were Judge Joseph P. Goodenough of Covington, Judge Ward Yager, of Warsaw, and Congressman Brent Spence, of Ft. Thomas. Others who spoke briefly included Senator Paul Siedbottom of Williamson, Representative John Neust of Louisville, Sheriff Henry A. Berndt of Kenton County and Claud Bonar, Southgate, Advisory State Highway Commissioner.

Mrs. Virginia Goodridge, Florence, President of the Women's Democratic Club of Boone County, was Chairman of the meeting. Carroll Cropper, Burlington, chairman of the Boone County Democratic Executive Committee, was master of ceremonies.

Haynes Bruce, former President of the Young Democratic Club, was honored at the meeting. Mrs. Walter Ferguson and Mrs. Bruce were named members of a Courtesy Committee to thank those who made the dinner possible.

Tobacco Plant Red Demonstration Planned

Cyanamid fertilizer to kill weed seeds in tobacco plant beds has attracted attention of tobacco growers during the past five years and especially the last two years, according to H. R. Forkner, County Agent. The plan represents a considerable saving in time and expense compared to the old method of burning beds.

Two demonstrations in methods of applying cyanamid fertilizer to get satisfactory results will be held in the county on next Tuesday, November 19th. Mr. Russell Hunt, Tobacco Field Agent from the College, will be present at these meetings. The schedule of the meetings is as follows:

9:30 a. m. (C. S. T. H. E. White's farm, 2 miles south of Burlington on East Bend Road.

1:15 p. m. (C. S. T. H. E. James Pennington's farm, 2 miles west of Walton on Verona State Road No. 16.

These meetings will interest all tobacco growers. Everyone is invited to attend.

Mr. and Mrs. Robert Utz attended the funeral of his cousin in Lexington, last Thursday.

NO HUNTING ON SUNDAY

IS WORD FROM COUNTY OFFICIALS HERE - VIOLATORS SUBJECT TO NOT MORE THAN \$50.00 FINE.

In a statement this week from local county officials, it was stated that the "no Sunday Hunting Law" would be enforced in Boone County this year and that persons violating this law would be fined not less than \$5.00 and not more than \$50.00.

Many persons have been anxious to know just when the season would open on rabbit and quail this year and the county officials, it was announced this week that Monday, November 25th will be the first day for legal hunting in Boone County this year.

Section 1323 of the Kentucky Statutes which covers the Sunday hunting in Kentucky reads as follows: "If any person shall hunt game, with gun or dogs, on the Sabbath, he shall be fined not less than five nor more than fifty dollars for each offense."

The Boone County Fish and Game Protective Association working in connection with county officials, will assist in every way possible to see that Sunday, November 24th, is not made a fourth of July in Boone County.

Four Boone Countians Employed By The Carrollton Whse. Co.

Four Boone Countians, D. Hess Vest, Red Robinson and John L. Vest of Walton and Geo. Baker of Beaver will be employed by the Carrollton Tobacco Warehouse Co., this year, according to an advertisement which appears in this issue of the Recorder.

John L. Vest, Walton, has the position of Secretary and Treasurer; D. Hess Vest, office employee; Red Robinson, head grader and Geo. Baker, general manager.

The Carrollton Tobacco Warehouse Co., consists of the Brile Lite, Farmers, 4th Street, Smith and Turners and 6th Street warehouses.

The above houses will be open to receive tobacco November 20th, and the first sale will be held December 3rd, according to the advertisement.

Dramatic And Choral Group To Meet Thurs.

Everyone interested in the Dramatic and Choral groups are urged to meet at Burlington school Thursday night at 7:00 p. m. Officers of these groups are to be elected.

WOMAN SHOT ACCIDENTALLY

WHEN HUSBAND MISTAKES HER FOR THIEF - SHOT IN HIP WITH .32 CALIBER REVOLVER.

Mrs. Christine Witham, 39, suffered a gunshot wound in the right hip Monday morning, when she was mistaken for a thief by her husband, Raymond Witham, Petersburg rural mail carrier.

Mrs. Witham was just returning from the yard in the early morning hours, after letting their dog out. She had been awakened by her husband, and when he heard the dog being opened he mistook his wife for a burglar and fired. The bullet fired from a .32 caliber revolver pierced the door and entered Mrs. Witham's hip.

E. J. Lowe, Petersburg physician was summoned who rendered medical aid, then she was rushed to Booth Hospital, where the bullet was removed. Her condition is reported as good.

Mrs. Idera Fullilove

Mrs. Idera Fullilove, aged 76 years, passed away early Friday morning, after a short illness at the home of her grandson Melward Worster, Garvey Ave., Elsmere, Ky. The remains were removed to the Tallaferris Funeral Home, for preparation.

She is survived by six grandchildren, James, Kenneth, Melward and Ralph Worster, Mrs. Idera Bethel and Mrs. Ruth Wingo.

She was a member of the Evangelical Christian Church.

The four grandsons, and two grandsons-in-law acted as pallbearers.

Services were conducted Monday at 2:30 at the Tallaferris Funeral Home, by the Rev. F. B. Young, burial following in Highland cemetery by the side of her husband James L. Fullilove.

L. P. Aylor

L. P. (Lute) Aylor, aged 77 years, passed away suddenly Friday at his home in Florence, following a brief illness.

He is survived by his widow, Mrs. Rose Mary Aylor, one daughter, Mrs. Fred Klemeier, Jr., six sons, Shelley, Stanley, Guy, Llewellyn, Harold and Robert Aylor. He was a member of the Hopeful Lutheran Church. His six sons acted as pallbearers.

Services were conducted at the Hopeful Lutheran Church Sunday at 2:30 o'clock by Rev. H. M. Hauer, pastor, with burial in the Hopeful cemetery.

Funeral director Philip Tallaferris had charge of the funeral arrangements.

CONSTANCE P.-T. A. MEET

The regular meeting of the Constance P.-T. A. will be held Wednesday, November 20th at 2 p. m. Final arrangements will be made for the annual oyster supper to be given Saturday, Nov. 23rd. All members are asked to be present.

DRAFT BOARD TO MEET THURSDAY

CLASSIFICATION OF QUESTIONNAIRES TO BE HANDLED BY BOARD—SEVEN BOONE COUNTIANS VOLUNTEER.

Draft Board No. 9 of Boone County will meet Thursday (today) at 1:00 p. m. for classification of questionnaires for seven Boone County men who have volunteered their services.

According to the clerk of the Board, Mrs. Dorothy Ryle, only one man will be called for this county to report at Ft. Thomas November 26th. She also stated that he would be selected from one of the volunteers.

Volunteers in this county include Francis Keene Southern, Burlington; Ernest Lee Easter, Big Bone; Andrew J. Rich, Big Bone; Herschel Mason West, Burlington; Russell J. Ryle, Burlington; Edgar Allen Goodridge, Hebron, and Miles Walton Goodridge, Hebron.

Notice will be posted on the Bulletin Board in the courthouse as to number of questionnaires mailed each day, and all draftees are requested to watch the board for their number. The Board is having a telephone installed in their office and can be reached by calling Local Board No. 9, Burlington. Order numbers have been affixed to registration cards and are now posted on the bulletin board in the court house.

The following notice was handed this office by R. C. Eastman chairman of the Local Board:

Public Notice to Registrants and to the Public

November 9, 1940. Local Board No. 9, Burlington, Boone County, Kentucky.

The Selective Service Regulations provide: "Mailing a Questionnaire (Form 40) by the Local Board to the registrant is notice that the process of classification and selection with regard to that registrant has begun. Each day this Local Board will post at its office a notice of the order numbers of the registrants to whom Questionnaires have been mailed that day."

This Local Board keeps in its office a Classification Record (Form 100). On this Classification Record will be entered the date each action is taken by this Board or the Board of Appeal concerning each registrant. The entry of this date in the Classification Record is the date of the action taken. Other notice will be mailed to each registrant at his address last known by the Local Board, and to any other person who files a claim for him.

Either the mailing of a notice or the entry in the Classification Record of the date the notice was mailed shall constitute notice to the registrant and all concerned. This is true whether or not the mailed notice is actually received by the person to whom it is addressed.

Any person required by law to register, or any registrant, who fails to perform a duty required by the Selective Training and Service Act of 1940 within the time provided by the law (generally 5 days), has violated the law. A person violating the law is subject to trial in the United States District Court, which may impose a fine or imprisonment, or both.

The date when action was taken by the Local Board will be written in the Classification Record in each of the following instances:

Whenever a duty is to be performed by a registrant.

Whenever a period of time begins to run within which a registrant is to perform a duty.

Whenever a period of time begins to run within which a registrant may claim a privilege.

All registrants and other persons concerned should examine from time to time the notices posted by the Local Board and the Classification Record.

The Classification Record is open to inspection by the public during the Board's business hours.

R. C. EASTMAN, Member of Local Board.

Tom Huff Name Director Of Local Insurance Co.

Tom Huff, of Hamilton was elected as a director of the Boone County Farmers' Mutual Fire Insurance Co., at the annual meeting.

He succeeded J. L. Jones who had held this post for several years.

No changes were made in the remainder of the directors, according to F. H. Rouse, secretary.

Fish And Game Club To Meet Thursday Night

A meeting of the Boone County Fish and Game Protective Association will be held at the courthouse, Burlington, Thursday night, Nov. 14th.

Purpose of this meeting is to make arrangements for opening of the new club house, which will be completed in the near future. All members are urged to attend this meeting.

Haley-Galley

Miss Dorothy Haley, daughter of Mr. and Mrs. Robt. Haley, of new Union and Virgil Gulley, son of Mr. and Mrs. Lloyd Gulley were quietly united in marriage last Friday afternoon at 2:30 p. m. at the home of the Rev. R. F. Depomsey, Walton. Warren Kirkpatrick, Burlington and Miss Norma Presser were attendants.

Virgil was a graduate of the New Haven high school last year and has since been employed at the W. L. McBee Service Station, Burlington.

The happy young couple are making their home with the bride's parents and have the best wishes of their many friends.

FOUR HUNDRED ATTEND REVUE

HELD AT BURLINGTON SCHOOL THURSDAY NIGHT—\$30.00 TO BE TURNED OVER TO BOONE COUNTY RED CROSS.

Readings, music, plays and a social hour furnished entertainment for 400 Homemakers and their friends last Thursday night at the Burlington School. The County Citizenship Chairman, Mrs. C. F. Blankenbaker, and her chairman from each local club sponsored the first Boone County Homemakers Revue.

Mrs. Blankenbaker reports that the entertainment netted \$30.00. This amount will be turned over to the Boone County Chapter of the American Red Cross.

Twelve of the local Homemakers clubs presented entertainment in the form of skits, special music, readings or pantomimes. Greetings from the Boone County Red Cross were presented by Rev. J. Russell Cross. Mrs. Blankenbaker expressed appreciation to the Boone County Recorder, Walton Advertiser, County School Board and the W. & W. Electric Shop for special assistance they gave the citizenship committee.

The social hour was given in the school cafeteria after the program. A committee of Homemakers served as hostesses.

Following is a list of the local citizenship chairmen who planned the program and sponsored the selling of tickets:

Shillitsville, Mrs. Alberts G. Stevens; Burlington, Mrs. Courtney Kelly; Constance, Mrs. Thos. Kenyon; Florence, Mrs. Sarah Markberry; Grant, Mrs. Fannie McNeely; Hebron, Mrs. Stella Nichols; New Haven, Mrs. W. R. Kinney; Petersburg, Mrs. O. S. Watts; Rabbit Hash, Mrs. Minnette Stephens; Taylorsport, Mrs. Wm. Fugate; Union, Mrs. Helen Stephens; Verona, Mrs. Lena Harris and Walton, Mrs. Louise Rouse.

BEARCATS TRIM BURLINGTON FIVE

SATURDAY BY SCORE OF 50-30—NEW HAVEN TROUCE FLORENCE—HEBRON TURNS BACK COLD SPRINGS.

Burlington suffered defeat Saturday night at the hands of the Walton Bearcats by a score of 50 to 30. Walton took an early lead and held the top position throughout the game. Both teams played a good brand of basketball and fought hard throughout the game. Pennington was high point man for the winners with 12, while Porter scored eleven for the losers.

The Walton reserves also won over the Burlington reserves by a 37 to 14 count.

The Burlington Independent team defeated the New Haven Independents by a score of 36 to 30. New Haven led at the half by a score of 17 to 16.

New Haven Chalks Win

New Haven's basketball team defeated the Florence Knights in a Boone County Conference game Friday on the Florence floor by a 35 to 15 count. The New Haven reserves also won by a score of 13-11.

In the conference game, Judd, New Haven forward, connected for eight field goals and a free throw for 17 points to lead the scorers.

Hebron Defeat Cold Spring

On Saturday night Hebron won its first conference basketball game, defeating the Warsaw high quintet by a 21 to 16 score. The count was tied at 16-16 with but three minutes to play when Hossman sank a field goal and Hebron, by virtue of three foul goals, went on to win 21-16. The second team won by a score of 20 to 7.

Friday night Hebron won two games from Cold Springs. The first team winning by a score of 30 to 19, while the second team won by a count of 21-7. The opposition has scored only one field goal against the second team in the two games played.

Friday night, November 15th, Hebron plays Silver Grove at Hebron.

Fire Department To Give Social Program

The Florence Volunteer Fire Department will serve a bingo, lotto social at Zimmerman's Gardens (to-night) Thursday, November 14th, for the purpose of raising funds for new fire hose.

All funds derived from this event will be used for the purchase of new fire hose for the department. The public is invited to attend.

Large Crowds Attend Revival At Florence

Revival services at Florence Methodist Church continues with splendid interest. Large crowds came through rain last Sunday at both services to hear the King's Men quartet sing and the evangelist deliver his sermon. The meetings will continue through this week with services each evening at 7:30.

The King's Men quartet will be heard again next Saturday night and Sunday. The public is cordially invited to attend these meetings.

Utopians Hold Annual Initiations

Boone County Utopia Club members will hold their annual initiation and installation of new officers meeting at Burlington Thursday evening, November 14th at 7:00 p. m.

There has been a marked increase in enrollment the past year. Officers of the club compose a special program committee for the meeting. Hebron group will be in charge of the recreational program.

Revival Services Will Be Held At Hughes Chapel M. E. Church

A revival meeting will begin at Hughes Chapel Methodist Church Monday night, November 18th and will continue for two weeks, with Rev. E. L. Crilly of LaGrange, Ky., as the evangelist. Rev. S. B. Goddy as the pastor will be in charge of the services.

Services will be held each evening at 8:30 p. m. slow time. The public is cordially invited to attend.

Cab Driver Robbed Near Florence Wednesday Morning

James Walter, driver of a Yellow Cab of Cincinnati was robbed by two men near Florence early Wednesday morning. He was thrown out of his cab near the town, but apparently was not injured.

Shortly after Walters was robbed and thrown from his cab a report from Walton stated that a taxicab from Cincinnati was found wrecked near that city and that Walton police had a man under arrest in connection with the finding of the cab.

A 16-year-old Covington boy was arrested recently at Richwood by Patrolman Joseph Megeire and was charged with possessing a stolen automobile. When he was arraigned in Covington Police Court Tuesday the case was referred to the Juvenile Court.

\$650 OFFERED IN CASH PRIZES

BY COVINGTON RETAIL MERCHANTS IN PRE-CHRISTMAS DIVIDEND CLUB—ROBERT CLORE IS CHAIRMAN.

For the fourth year, retail merchants of the city of Covington are awarding Pre-Christmas Dividend Club coupons with purchases made at retail stores for \$1.00 or more. The total cash awards amounts to \$650.00. The first prize \$250.00; 2nd, \$100; 3rd, \$50; 4th \$25.00; 5th, \$15.00; fifteen \$10.00; twelve \$5.00 awards, making a total of 32 cash awards.

Francis Veit, president of the Covington Retail Merchants Ass'n. believes that this is another inducement for the people of Kentucky to shop in Covington together with the fact that the prices of quality merchandise are appreciably lower than elsewhere.

Robert Clore, chairman of the Covington Retail Merchants Ass'n. Pre-Christmas Dividend Club, is most enthusiastic over the reception this announcement will receive by the people of Kentucky and believes that this year will be the banner year of all.

This is how it works: A coupon will be given with each dollar spent in the stores participating in this Pre-Christmas Dividend Club. Therefore, the more purchases made by you in Covington, the more chances you will have of winning one or more of these cash awards to be distributed on Friday, December 13th at 8:00 p. m.

The committee advises you to begin collecting your coupons today, November 14th.

Remember, these tickets are valuable and may give you additional money for Christmas.

The Pre-Christmas Dividend Club committee consists of the following well-known Covington business men: Robert H. Clore, chairman, Lee Safdi, Jos. Kaplan, George Marsh, Francis Veit, Robert Ellerman and Wm. Macklin.

C. G. Lamb Admitted To Honor Fraternity

C. G. Lamb, former teacher in the Burlington school and a graduate of Murray State College, now principal of Fourth District School of Covington, was recently initiated into Phi Delta Kappa Fraternity of the University of Kentucky where he was a candidate for the master's degree.

The fraternity is an honorary society for men, a professional organization which stands for only the highest scholarship. Mr. Lamb's scholastic record in graduate work at the University of Kentucky was such that he was selected during the spring semester just closed as one of ten men who were invited to become members of the organization.

A press release from Lexington stated, "Mr. Lamb has made an enviable record in his school work."

Mrs. William Huey and Mr. and Mrs. Will Seabree of the East Bend Road spent Tuesday of this week shopping in Covington.

FREE TRAINING OFFERED YOUTHS

IN NATIONAL DEFENSE TRAINING PROGRAM FOR OUT-OF-SCHOOL RURAL YOUTHS—THREE COURSES AVAILABLE.

The federal government has made an appropriation sufficient to furnish training courses in defense occupations for all out-of-school youths between the age of 17 and 25. There will be no cost to the student as the government pays for both the equipment and the instruction.

The following courses are available:

1. Operation, care and repair of tractors, trucks, and automobiles, (including both gas and Diesel engines).

2. Metal work, including simple welding, tempering, drilling, shaping, and machine repair.

3. Woodworking, with emphasis on framing and form building.

4. Elementary electricity, including operation, care and repair of electrical equipment.

Instructors for these courses may be drawn from industry. Any one who is skilled in any of the above lines, will be rendered a valuable service by teaching your skill to some of the boys who are needed in the defense program.

Pay for the instructor will be on an hourly basis and will be equal to pay received in the particular industry in which he works.

This work will be under the direction of the county school system and the teaching staff will be under the supervision of the vocational agricultural teacher, Mr. Jas. R. Huey.

It has been requested that all boys who are interested in this work, and all men who would like to be considered for instructors, to meet at Burlington courthouse, Monday, November 18 at 7:00 p. m. (Central time).

BOONE FARMERS EARN \$59,000

IN COMPLYING WITH ACP—500 APPLICATIONS FORWARDED FOR PAYMENT THIS WEEK.

Five hundred 1940 signed applications for payment were forwarded from the County Office on Monday of this week, according to John E. Crigler, Secretary of the County Association. Six hundred twenty additional applications will be forwarded to Washington thru the State Office for payment as soon as they are signed by those farmers cooperating the past year.

Eleven hundred twenty Boone County farmers cooperated in the program during 1940. These farmers besides carrying out constructive work to build up their farms will earn a total of approximately \$59,000.00 in benefit payments.

Farmers who have not signed their applications yet are to attend their respective community tobacco referendum meetings. Farmers who failed to cooperate in the program the past year will lose \$6,751.41. Another \$27,224.00 will be lost by cooperating farmers thru failure to earn their full allotment of allowances or because of growing excess tobacco acreage.

A prominent citizen, whatever his bent, will at some time during his reign of fame, be called upon to speak publicly. We have heard many orations that have moved us and many others that left us cold. In each audience there will be some one to remark, "that's the best speech he ever made." With the thousands of speeches coming from our platforms, what man can challenge the greatness an impromptu address made from hurried notes, given at Gettysburg, November 19, 1863? The assembly that heard the immortal words of Lincoln had principally met to listen to an oration by another man. Lincoln had not been given top billing. In fact, so impressive was the first bit that the second one made by Lincoln was put on the second page of a number of the nation's newspapers. The later calls for copies of this speech caused Abraham Lincoln to take his notes in hand and make the Gettysburg Address for posterity.

Are we doing today as they did then, allowing such greatness to pass over our heads, and is there today such magnificence coming from statesmen and we are not farsighted enough to appreciate

its significance and possibilities for never-dying fame? There aren't many in Boone County who feel they are missing oratory that will live through the ages as has Lincoln's Gettysburg Address. We feel its worth in every word, every thought and sigh that it bestows in its wisdom upon the generations to come, from a humanitarian benevolent, kind, sympathetic. Time has not outmoded the Gettysburg Address, time has only deepened its meaning and proven its value.

WALK FOR HEALTH

All of those names drawn in the draft selection expect to undergo a program of military training and systemized living that will be a complete change from their former life as civilians. Many of them will be benefited and will gain something in character, building and military discipline. One thing they will do that will develop them, that would develop you and I if we did more of it, is walking! Folks outside of army camps need to practice and profit from this exercise which is billed as a fine body builder. Walking has almost disappeared with the tandem bicycle. Stop and watch how we hunt to find a parking place for our autos so that we "won't have to walk so far." European soldiers are capable of walking 30 miles a day. American soldiers of walking 15 miles a day. We know that we have been a nation fortunate in its luxuries but due to motor cars we have become soft. Let's walk more and be healthier.

TO A BOOKWORM

November 10-16 is observed as Book Week and few newspapers but will find space on their sheet for a word in observance. There is a growing appreciation for books and most of us in Boone County would like to have more time in which to read. A true lover of books uses every week in the year in appreciation for dull indeed would be a life without some cherished reading hours. "No matter how heavily cares press us how filled life with worry, be we poor or very rich, old or young, books are at hand to be a relief

and a joy. Every child should grow up with them—"Good Books-Good Friends." Pass into another world, a delving into mystery, poetry, love, beauty, art and science. Escape from your surroundings momentarily. Detail and observation gives the reader a truer appreciation for those facts that face him in his own world when he shuts the book and returns to it. So many kinds of reading matter to please all tastes, reading called "light" and other called "heavy," you keep up with present day affairs or religious topics, have at hand a book that is being discussed in every village in the land, interested in the shifting American scene through historical novels and biography. Those of us who appreciate the importance to living of books, through us we must instill in the child the pleasant and instructive gain to be had from the bookshelf. Books for friends.

IT SHOULD NOT BE

A recent item of the stabbing of a small child by a man who, at one time, had been adjudged insane and spent time in an institution for mental observation, reminds this desk of the many horrible crimes committed by mental defectives. Many cases deal with persons having been confined in asylums and released, other cases are persons reporting for treatment and consultation but in the interval are free to mingle in society. We know that all mental cases are not dangerous, but this attack we formerly mentioned was at the hands of man judged harmless, who had the mentality of a nine-year old child. There is nothing more pitiable than the person afflicted with a diseased mind. Any person in Boone County with a speck of humanity and kindness in his make-up, is compassionate. But any man who has respect for his brothers, cries aloud in protest when such terrible attacks on the innocent, occur.

FAVORABLE FRACTIONS

We have been warned of many things that our country is not, but we must not overlook a few of the fractions that our country is. With our present knowledge of what we have in this nation, few of us in Boone County would exchange our birthright. America has, through the past, by means of utilizing her resources, has accomplished her standing in the following: America, with only one-fifteenth of the world's autos; 1/2 of the world's population, has 1/4 of the world's telephones; 1/2 of the world's radio; one-third of the world's railroads, two-thirds of world's banking resources, one-fifth of world's sugar; 1/2 of world's silk; 1/2 of world's rubber and three-fifths of the world's petroleum.

HOSPITAL CAMPAIGN TO

CONTINUE THRU NOV. 17
Northern Kentucky men and women who have been rallied to support of St. Elizabeth Hospital's 80th anniversary campaign which will continue through Sunday, November 17. Renewed pledges of assistance have come from Protestant, Catholic and Jewish friends of the institution, James R. McGarry, general chairman reports.

A vigorous appeal for support of the hospital's \$78,000 campaign for expanded equipment was made by the Rev. Philip Wiggemman, pastor of St. Paul Evangelical Church, Covington who declared "This appeal transcends creeds and is a project worthy of help from us all."

Harry J. Humpert, Covington is serving as chairman of the Special Gifts Committee for the campaign. He is assisted by the Rev. Edward G. Klosterman, Frank M. Tracy, G. Edward Geise, William Terwort, Nicholas J. Gausephol, William M. Selmeier, Elmer F. Herzog, Harry Schneider, J. Wayne Rusk and Harry J. Rolles.

Most Rev. Francis W. Howard, Catholic bishop of Covington has urged pastors and members of all parishes in the area to support the drive which commemorates 80th anniversary of the Sisters of the Poor of St. Francis at the Covington hospital.

Friends of the hospital sponsoring the campaign have recalled that "the district served by St. Elizabeth Hospital comprises Kenton, Campbell, Pendleton, Grant, Bracken, Boone, Gallatin, Carroll and Mason counties."

"All proceeds of the hospital campaign will be used for expanded equipment to meet the demands placed upon it by the communities it serves," McGarry stated. Civic and religious services throughout the week have marked the celebration.

JESUS' CONCERN FOR LIFE AND HEALTH

LESSON TEXT—Luke 7:2-15.
GOLDEN TEXT—"I am come that they might have life, and that they might have it more abundantly."—John 10:10.

Physical life and bodily vigor are secondary importance to spiritual life and health. Most people do not believe that, but it is true. Nevertheless our physical well-being is of great importance, for it is evident that the spiritual and mental side of man can function in a physical world only through a physical body. That makes it a primary concern of man to keep his body alive and healthy, to keep it as well and strong as possible, an effective instrument for the service of God and man.

With his emphasis on the physical, man tends when sickness comes, to seek the help of man in overcoming the difficulty. Soon they find that only God is sufficient for their need, and He whom they have hitherto ignored is appealed to in prayer. Men and organizations quick to grasp an opportunity to set themselves forward appear as so-called "physicians." We need to stress the fact that men may come direct to Christ who is concerned about their bodies and their health and that they may come through a intermediary, simply by faith in Him.

1. The Outreach of Faith (vv. 2-4). Three things appear here and they each have value and importance.

1. Action (vv. 2-4). The centurion was a good man and he loved the Jews that he had built them a synagogue. (One wonders whether a Roman soldier of today would show such a spirit.) He was compassionate, and he was a man of faith. He had no idea what no man could meet. Where should he turn? Someone told him about Jesus. Blessed and fruitful testimony! He acted in faith and sent word to the Master. He acted on his knowledge. Let your faith also become active.

2. Humility (vv. 6, 7). Socially and officially the centurion was far above the Jews, but he was a slave. He had no idea what no man could meet. Where should he turn? Someone told him about Jesus. Blessed and fruitful testimony! He acted in faith and sent word to the Master. He acted on his knowledge. Let your faith also become active.

3. Confidence (vv. 7, 8). There is nothing like this assurance of faith anywhere; in fact, Jesus said He had not seen it in all Israel. Knowledge of God which is the basis of our faith was carried out within the realm of his authority and recognizing Jesus as the Son of God, the centurion, without hesitation, accepted His absolute power over sickness. "Thank God! the centurion was right about that. Sickness is absolutely subject to the word of Jesus and so also are demons, seas and wind, and death itself (Luke 4:35, 36, 38; Mark 4:39; John 11:43, 44) (Bradbury).

II. The Reward of Faith (vv. 9-15). First of all we note that it is in God brings not only the individual but those round about him a real

1. Blessing (v. 9). The faith of this man delighted the heart of Jesus with a great joy. He commented on it and commended it to those round about. The story of it has come down through the centuries to stir us and stimulate us to belief in Christ. Faith in Him brings blessing not only to the immediate beneficiary and at the moment, but lives on in blessing to others. Do we have that kind of faith? We also note that it resulted in:

2. Healing (v. 10). Faith gets results because it releases the omnipotence of God. The young man was healed at the word of Jesus, in response to the centurion's faith. In the closing verses of our lesson we see also the:

3. Raising of the Dead (vv. 11-15). The mighty and compassionate Son of man met a poor widow from whom death had taken her only stay and comfort—a young man. She was apparently too deeply stricken to even call on Jesus for help, but one can almost feel her faith leap to His words, "Weep not." His divine voice then reached into the next world and called the young man back to life. The day that had started as the saddest and darkest in her life closed as the most blessed and joyful in her experience, because she had met Jesus.

Reader, have you met the tender, loving, omnipotent Jesus? He wants to be your Saviour, Lord, and ever-present friend. Will you let Him into your heart? Now?

A Wise Evaluation
What things were gain to me, those I counted loss for Christ. Yea doubtless, and I count all things but loss for the excellency of the knowledge of Christ Jesus my Lord; for whom I have suffered the loss of all things, and do count them but dung, that I may win Christ.—Phil. 3:7, 8.

CORNS—Such troubles are serious, but sometimes the most common things plague us most. Take corns for instance, the only good thing about corns is that they take your mind off all your other troubles.

Corns are cornlike masses of dead tissue piled up by friction and pressure. On the tops of the toes they are called hard corns and they develop as your foot saws back and forth in short or pointed-toe shoes.

Between the toes we call them soft corns and they are caused by the grinding action of the little toe against the next toe. The moisture present between the toes keeps them soft, hence the name. Corns can be removed. One method is to sit down and cross one leg over the other and hack away at the corn with an old razor blade. We call this "bathroom surgery" and it is dangerous because your feet provide darkness, warmth and moisture—a perfect breeding place for bacteria. Your feet are more susceptible to infection than any other part of your body, so don't cut corns.

Another popular way to remove corns is to use some powerful corn remedy to make the corn fall out by the roots. However, the thing which is strong enough to do this, is also strong enough to cause an acid burn. Your feet are apt to find that the corn returns larger and more painful.

If you must seek relief at home you can safely remove some of the corn by using a corn file or fine sandpaper while your feet are dry. A bit of lamb's wool used to separate the smaller toes will help relieve the soft corn.

But remember this about corns, you can get them off, but keeping them off is something else again. That requires shoes that eliminate the friction and pressure.—Adv.

CONSTANCE HOMEMAERS

The regular monthly meeting of the Constance Homemakers' Club was held Wednesday, November 6 at the home of Mrs. Hazel Kennedy. There were fifteen members and one visitor present. Our Home Demonstration Agent, Miss Gillaspie was with us for a few minutes, but had to leave due to important business. She was missed by all.

The morning was devoted to the business session. At noon a delicious lunch was served and enjoyed by all.

The afternoon was spent in pattern making. Our leathercraft leaders, Mrs. Margaret Prable and Mrs. Freda Kottmyer showed us what they had made, and several members ordered material. Our next meeting will be held Wednesday, December 4th at Mrs. Elmer Kennedy. Roll call will be answered with "What was my most useful Christmas gift." After a very busy and enjoyable day the meeting was adjourned.

NEW HAVEN P-T. A. MEETS

The Parent-Teachers' Association of New Haven school meet for its usual monthly session on Tuesday evening, Nov. 5th at 8:30. The main feature of the evening was the Parents' Dinner with Marie Johnson, her mother and father as honor guests.

A very short business was held. The program was group singing led by Miss Johnson with her accordion accompaniment. Songs selected by Miss Johnson were "God Bless America," "Star Spangled Banner," "Old Folks at Home," "My Old Kentucky Home," "Old Black Joe," and "Carry Me Back to Old Virginia." As the closing feature Miss Johnson very charmingly gave two numbers with piano accompaniment, after which we were adjourned to the school dining room.

A most bountiful and delicious covered dish dinner was served with Alva Dickerson supervising. Here parents and teachers were able to meet as parents and teachers seldom meet. They were friends together, partaking of and enjoying that social atmosphere which can only be had at the dinner table. Such meetings tend to bring the parent and teacher into a closer understanding. They are brought to the same viewpoint concerning both the pupil and the school.

W. M. S. MEETS

The Bellevue W. M. S. met at the Church Wednesday afternoon for the monthly meeting. A number of visitors were in attendance, one of whom was our group leader, Mrs. Carnes and also her mother, Mrs. Carnes gave a very interesting talk.

Bro. Welch, who is holding our meeting, also gave some helpful thoughts.

Good reports were given from the meetings of both the Sunbeam Band and G. A. S. We are anxious to go forward in our work with these young people. Interesting reports were also given from the district meeting and a State meeting of which we had representatives.—Reporter.

TECHNOLOGY IS—

The first paragraph of the report on Technology on the Farm, just issued by the U. S. Department of Agriculture, makes an effort to tell what technology is and what the book is about. It is not offered as a definition but rather as an aid to understanding: "Technology," it says, "is science, art, and invention. It is tractors, combines, corn pickers. It is the testing and breeding of animals and the conquest of diseases. It is hybrid corn, new kinds of wheat, soybeans, kudzu and lespedeza. It is ways to feed cows, plants, and men. It is road building and rural electrification. It is contour plowing, conservation of soil, management of forests, protection of wildlife. It is marketing and distribution. It is a race between insect pests and ways to kill them. Technology is in the workshop, in the laboratory, barn, grove, field, and home. It is a social and economic force that challenges thought and ability to plan, because its many-sided nature combines the intricate influences of getting and spending, savings and debt, employed leisure and unemployed relief."

BULLITTVILLE

Mr. and Mrs. Haynes Bruce spent Sunday with Mr. and Mrs. George Wernz and family, of Pt. Pleasant.

Mr. and Mrs. Clyde Akin were Sunday guests of Mr. and Mrs. Lloyd Akin and family, of Union.

Mrs. H. M. Holliday visited Mrs. Lottie Graddy, Friday.

Mr. and Mrs. Chas. Mahorney entertained Paul and Henry Mahorney of Florence over the week-end.

Mr. and Mrs. Chas. Engle and daughter and Harry Papet, visited friends and relatives in Hazard.

1113 FARMERS GROW BURLEY

IN BOONE COUNTY—URGED TO
VOTE FOR QUOTAS IN ORDER
TO PROTECT THEIR OWN
MARKET.

Boone County has 1113 farmers
growing burley tobacco. Most of
these farmers have been growing
burley tobacco for many years, and
virtually all of them have large
investments in barns and other
expensive equipment for growing
and curing the crop. These in-
vestments range from a few hun-
dred to several thousand dollars
for each farmer, and whether
prices are high or low these farm-
ers must continue to grow burley
tobacco or scrap their equipment.

Recognizing their vital interest
in keeping supplies of burley to-
bacco in line with demand, amount
used each year, Boone County to-
bacco growers, along with those in
other counties of Kentucky and in
the fourteen other states which
produce burley, reduced their acre-
ages of tobacco under the first
AAA control plan.

At the time this reduction was
made, the acreage of burley to-
bacco was approximately 35 per
cent larger than necessary to sup-
ply the amount of tobacco needed
each year. Supplies of burley had
been piling up since 1912 and in
1933 reached an all-time high of
1,097,800,000 pounds.

Under the acreage reduction
plan, the amount of burley tobacco
produced each year dropped below
the amount consumed in 1934,
1935 and 1936 as shown in the fol-
lowing table:

Year	Prod. (Lbs.)	Disap. (Lbs.)
1934	234,200,000	284,700,000
1935	220,900,000	309,100,000
1936	219,600,000	329,500,000

The average price paid for bur-
ley tobacco during this period rose
gradually from 10.5 cents a pound
in 1933 to 16.9 cents a pound in
1934, 19.1 cents a pound in 1935
and 35.7 cents a pound in 1936.

But in 1937, while most of the
old growers of burley tobacco con-
tinued voluntary reductions in
their acreage, the total acreage in
the United States increased from 302,300
to 443,900 largely because farmers
who had never grown burley before
began to grow the weed. Production
of burley shot up to 402,400,000
pounds, more than 88,000,000 lbs.
greater than the amount used that
year.

To discourage this spread in the
production of burley tobacco,
farmers voted a marketing quota
on the 1938 crop. Acreage that
year was reduced to 407,300,000 but
production was still about 33,000-
000 pounds larger than disap-
pearance. For the 1939 crop Ken-
tucky farmers again voted 73.2 per
cent in favor of marketing quotas,
but a heavy vote against the quota
in other burley producing States
reduced the percentage of Agricul-
ture growers in favor of the program
to 60.4, which is below the two-
thirds majority required to make
quotas effective. With no quota in
effect last year, there was another
large increase in the number of
new growers, and the acreage went
up to 432,200. Production, too,
rose to 394,800,000 pounds, or 66-
000,000 pounds more than the
amount of burley tobacco used
during the past year.

Last November burley growers
voted a quota on 1940 marketings
by a vote of more than 8 to 1. The
burley acreage has been reduced
this year to 380,800 and it now ap-
pears that production will be
around 312,000,000 pounds accord-
ing to Department of Agriculture
reports. While this production
probably will be below the amount
used during the present year, the
total supply is estimated at 1,601-
800,000 pounds—only a little less
than last year's supply of 1,078,800-
000 pounds. Thus with the supply
of burley still very large because of
last year's surplus, the prospect of
a big crop in 1941 might have a
disastrous effect on prices for the
1940 crop.

What can growers do about this
situation to protect their invest-
ments in equipment and to protect
the market?

Farmers who have been growing
burley tobacco for a number of
years recognize the need for keep-
ing their crops about the same
size as the amount of tobacco that
is used each year, but what is to
be done about those who in-
crease their acreage and take ad-
vantage of these growers' acreage
reductions? And what protection
have old growers against the
spread of production into new
areas?

For each two farmers who were
growing burley tobacco in 1935, one
new grower has entered the field
since that time. The total num-
ber of burley growers in the fifteen
states producing this type of to-
bacco increased from 205,000 in
1935 to 310,000 in 1940. In Ken-
tucky alone the number of burley
growers increased in those five
years from 117,000 to 160,000.

And most of those increases
came in 1937 and 1939 when no
marketing quotas were in effect.
Although these 105,000 new
growers are producing only 12 per
cent of the total burley crop, they
are taking advantage of market

strengthened by acreage reduction
of old growers.

Under the marketing quota this
year, new and old growers alike
have taken acreage reductions.
Their market should be protected
and not thrown open to other
farmers who may be attracted to
it by the low production and pos-
sible better prices this year. In
order to protect their investments
in equipment, burley growers in
Boone County, in other counties of
Kentucky and in other States of
the burley area, urge it to them-
selves to control the spread of bur-
ley production by supporting the
three-year marketing quota plan
on which they will vote November
23rd.

50% INCREASE IN WEED GROWERS

PLANTINGS OF NEW BURLEY GROWERS IN YEARS WITHOUT QUOTAS OFFSET ACREAGE REDUCTIONS.

A 50 percent increase during the past five years in the number of farmers producing burley tobacco is cited by Mark Cook, Chairman of Boone County Agricultural Conservation Association, as one of the principal reasons Kentucky farmers asked to vote on a three year marketing quota plan in the referendum on November 23.

Most of the new growers began producing burley tobacco in 1937 and 1939 when no marketing quotas were in effect, Mr. Cook says. Twelve per cent of the total burley crop is now being produced by the 105,000 new growers who have begun production of burley tobacco since 1935.

Mr. Cook points out that of every three growers producing burley tobacco in 1940, two are old growers who produced burley tobacco before 1935 and one is a new grower who has begun since that time. In Kentucky alone the number of farms producing burley has increased from 117,000 to 160,000, a total increase for the five years of 43,000. The great bulk of these new farms began producing burley in 1937 and 1939 when marketing quotas were not in effect.

With the possibility of a continued spread of the number of growers producing this type of tobacco, present growers certainly should be interested in marketing quotas as a means of protecting and stabilizing the burley industry, Mr. Cook asserts. Adequate protection, he says, cannot be had under in-and-out control, with quotas one year and no control the next.

In 1937, when no quotas were in effect, the acreage of burley tobacco jumped from 302,000 to 444,000 acres, the largest acreage since 1933. Production that year was 402,000,000 pounds, the largest on record since 1931.

In 1938, with quotas in effect, acreage was reduced to 407,000 and production dropped to 339,000,000 pounds, only 23,000,000 pounds above disappearance that year.

But in 1939 after 40 per cent of the burley growers had rejected quotas in the referendum, no quotas were in effect since a two-thirds favorable vote is required by law to make them effective. That year the acreage of burley increased to 432,000 and production jumped to 385,000,000 pounds, or approximately 66,000,000 pounds more than the amount used during the year.

This year, with marketing quotas again in effect, the acreage has been reduced to 381,000. This reduction in acreage together with the effects of the drought indicates that production this year probably will be below disappearance for the first time since 1936.

This reduction should bring better prices this year, Mr. Cook believes, but he points out that the total supply of burley tobacco this year is almost as high as the supply a year ago. This is because of the increased carry-over from the 1939 crop, he says. The supply on October 1, 1939, was 1,079,000,000 pounds (750,000,000 pounds carried over from previous years plus 312,000,000 pounds in the 1940 crop.)

These figures show, Mr. Cook says, that growers can assure themselves of receiving full benefit from their acreage reductions only by continuing control for several years. Voting marketing quotas for three years on November 23 would hold the market for those growers who have made acreage reductions and would rigidly limit the spread of burley production into new areas, he states.

HOMEMAKERS' REVUE

Dear Rug-Cutters:

It's all over now, even the shouting and there was plenty to shout about too. One wouldn't know there was so much talent hidden away in these here Boone County hills, vales, creeks and gulches. The Homemakers' Revue was the success that every one of us hoped that it would be and the Red Cross fund is some seventy-five dollars better off.

For those three or four of you who couldn't get the jumpy start due to the frost and missed the show; a piano duet that made you

think you were young again, taking lessons from Miss Susie, was first. How those girls did play. Sitting there straight as pokers, and their hands just flew. They changed horses in the second piece something about a garden, and Burlington's five minutes were spent.

New Haven women must be older than I suspected, from their conception of courting days. If Ruth Baker uses the same technique when G. W. Jr. starts making goo goo eyes at the girls, it will be love's labor lost—Jane Sleet sure needed a shave.

The little lady from Verona Club told about what they do at her home when Ma's having company, which reminds me that I should use some of her suggestions on what to do with my father-in-law when I have club.

Constance gave us the girl in green and she gave us Foster's "Beautiful Dreamer." She tried to tell me after her number that she couldn't get started, but it sounded good to me.

I must have missed something good when Taylorsport went on. I was trying to find a way to get on the stage so Union club could be ready. I got all mixed up and found myself at the cookie table. The dear janitor, bless his soul, ran me out. When I did get to the stage, I saw someone bringing out a cat which continued to meow for the rest of the evening.

Nancy Campbell, our Berea alumnus wrote her piece about the fiddle which was well received. She was followed by Guy Butler, Jr., of the Union club, who only ten years old, has quite a knowledge of the piano.

Mrs. Pope of the Grant club rested heavy on her stitches and most high put out the eye of the lady in the bustle dress. I do hope

the sweet old lady was able to ditch the other lady who insisted on going to Samantha's with her, because two is a crowd when it comes to dividing up a baked chicken dinner.

The only number that was called back for an encore was none other than the Williams sisters. And were they good. Radio will get them before long.

Rabbit Hash knows how to season things up and Ethel had one awful time turning her organ. This was quite original even though one of the girls did get her hand most pulled off.

Some one down at Petersburg can sing alto, and good, too. Not often does one hear our "America" sung in harmony. I wonder what the Goddess of Liberty thought when the flag went right on down the pole.

Mr. Cross was most thankful for the efforts of everyone and Miss Lowry the Red Cross Nurse was too. Mrs. Goodridge had one terrible time getting the audience to sing the last song, since everyone knew that there was a barrel of cider and a barrel of cookies in the basement. Hope Mr. Engle enjoyed the cake he bought. I sure had a time making it. The plate was nice though.

Try and come over to New Haven next Saturday the 16th.

Ciderly yours,
ROSEY BERRY.

TRAPPERS ADVISED ON NEW LAWS BY DEPT.

Frankfort, Ky., Nov. 12—In response to many inquiries from sportsmen interested in the open season on fur-bearing animals, the Division of Game and Fish, in a statement for publication today, pointed out that the open season on Mink, Opposum, Raccoon, Skunk and Muskrat begins Nov. 24 and closes on January 9, and that the open season on the red fox begins Dec. 1 and ends December 31.

Persons writing in to the Division office here in Frankfort point out that the synopsis on the back of their hunting and trapping licenses gives the fur-bearing season as Nov. 1-Dec. 31, but that season was changed by the Kentucky Legislature at its 1940 session after the 1940 hunting and trapping licenses had already been received by the county clerks and had been put on sale. This change and others which have been made by the Legislature were passed after the 1940 hunting and fishing licenses had been sent to the county clerks and said changes will be

printed on the back of the 1941 licenses.

In trapping for the mink, opossum, raccoon, skunk and muskrat, no person shall set any trap on the land of another without having first procured the owner's or lessee's written permission when running the trap line and must be exhibited to any one lawfully demanding to examine the same. The law also states that any trap set on land of another shall be marked with a metal tag giving the owner's name and place of residence.

The 1940 Legislature also passed the Anti-Steel Trap law, which prohibits the use of steel traps in the state of Kentucky.

For the water animals, Muskrat and Mink—the Bridgell Rubber-jawed trap, size 1, shall be used along the shores of streams, lakes or ponds where drowning sets may be made in water at least 22 inches deep, so that the animal will be quickly drowned. No trap shall be set without a drowning device. These prevent not only trap-thieving, but also wring-offs and injuries to fur.

For the land animals, the new chain-loop legholds which take without injury shall be used. For the larger animals, such as fox, wildcat and raccoon, the improved Verbal Chain-loop is to be used, and for smaller short-legged animals, such as skunk, weasel and opossum, the Epp Chain-loop trap is to be used.

All furbearers may also be taken in home-made box or cage traps, or with the old-fashioned deadfall, or with instant-killers set far back in holes or burrows.

Every trap set shall be visited every 24 hours after setting, and any animal found therein killed instantly, or liberated unharmed.

Any person operating a trap during the trapping season on land other than his or her own, must possess a trapping license. Resident trapping license costs \$1 and non-resident \$10.50.

RABBIT HASH

Services were held at the Baptist Church here Sunday.

Those on the sick list are somewhat improved at this writing. Several friends called on J. E. Hodges the past week. He is quite ill.

Less Voshell and family, Holbert Rue and family and Margie Berkshire visited Sunday, with their grandparents, Mr. and Mrs. Cadie Berkshire, who has been ill. Robt. H. Wilson, who has been

ill was consulted a physician in Rising Sunday, Tuesday.

Sorry to hear of the illness of Mrs. Fannie McNeely, of Waterloo. The Homemakers' Club served lunch here election day. They also presented a play at Burlington last Tuesday evening, which was enjoyed very much.

A large crowd attended the play at Hamilton Friday evening. Kathryn Acra was the Thursday night guest of her cousin, Mrs. Johnnie Woods and family.

SHEEP RAISERS TO MEET NOVEMBER 22

Producers of the world-famous Kentucky lambs have scheduled their annual fall meeting at the livestock pavilion at the Agricultural Experiment Station at Lexington, November 22.

Discussions will center around parasite control, prevention of pre-lambing illness, and feeding.

Dr. Benjamin Schwartz, head of the zoology division of the United States Department of Agriculture, has been invited to lead the discussion. Other speakers will include farmers, and Richard C. Miller and others members of the faculty of the College of Agriculture.

Various feeds will be exhibited at the meeting, including roughages and concentrates, so farmers can see different combinations recommended for ewes.

Kentucky produces 1,250,000 to 1,500,000 lambs a year. Profits come not only from this great number of high-quality lambs but also from about 8,000,000 pounds of wool. The price of wool has advanced in the past year, and is now near 50 cents, a figure exceeded only four times in the past 30 years in 1917, 1918, 1919 and 1928.

Goat Breeders to Meet

Numerous inquiries about milk goats received at the College of Agriculture have resulted in arrangements for a meeting of goat producers in the livestock pavilion November 20. Mr. Miller is endeavoring to compile a list of all persons raising goats. Interested persons are invited to write to him, and also to attend the meeting.

HYBRID CORN GIVES FAVORABLE RETURNS

Farmers in Adair county, Kentucky, are reporting favorable results in growing hybrid corn this year. L. G. Keltner announces that a yellow hybrid tested on his farm yielded 49 bushels more per acre than the local yellow variety.

A white hybrid produced 21 bushels more than common white corn.

A. S. Allison shucked 26 bushels to the acre more from a field of yellow hybrid than from local yellow varieties, while white hybrids on his farm outyielded local whites by 16 bushels. Adair county farmers grew about 1,000 acres of hybrid corn this year, including two of the best yellow and two of the best white varieties, according to County Agent R. B. Rankin.

TURKEYS SHOULD BE "RIPE" WHEN SOLD

Turkeys should be "ripe" when sold, the same as a watermelon, Dr. A. T. Ringrose of the Kentucky College of Agriculture points out to producers. They "ripen" at the age of 6 to 6½ months. Both producers and consumers may know that a turkey is ripe if the breast bone and drumsticks are fully fleshed, and the skin yellow and free from pin feathers. Buyers of dressed birds should examine the skin on the body under a wing at the hip joint to see if it is yellow. Also the inside of the feather tracks should be yellow. There are few pin feathers on a finished bird.

KENTUCKY FARM NEWS

The acreage of hardy winter barley in Bourbon county has spread over 150 families to almost 7,000 this year. Barley will be used in place of some of the corn which has been imported in large quantities.

Casey county farmers burned several hundred acres of alfalfa and clover in the past week. They also have made use of superphosphate with excellent results to crops. More phosphate will be used 'in 1940 than ever, a survey reveals.

Roy Hellsley, Todd county, Kentucky, reports an income of \$14,000 from lambs and wool from 10 ewes. Fifteen lambs brought \$132 and wool added 28. An inventory loss of \$13 was charged against the flock.

In Lawrence county, the cover crop program is as follows: 15 pounds of vetch to a bushel of rye. Hundreds of farmers have seeded grass extensively on this basis. County Agent Carl B. Day believes this year's cover crops triple previous year's seedings.

Several dozen farm leaders in Greenup county have launched a campaign to make productive hundreds of acres of idle land. They say all that is required is drainage, which can be obtained easily and cheaply.

In Henderson county, the Farm Bureau cooperative dragline now is operating in Zion community, where for year 30 farmers have waited to use it. It will be used to dig ponds for stock water, etc. Terracing also will be done later.

FARM LEADER IS RE-ELECTED AS FCA DIRECTOR

W. E. Stough, Mansfield, Ohio, farmer, has been re-elected to serve a three-year term on the board of directors of the Farm Credit Administration of Louisville. It is announced by E. Rice, General Agent. Stough was re-elected by the 43 production credit associations in Ohio, Indiana, Kentucky, and Tennessee, and as a member of the seven-man farm credit board will represent nearly 40,000 members of production credit associations in the four states.

A successful farmer and a lead-

er in farmers' cooperative movements, Stough will start serving his second term on January 1, 1941. He is president of the Ashland Production Credit Association, president of the Ohio Farm Bureau Cooperative Association, and a director of the Ohio Farm Bureau Association, United Farm Bureau Cooperative, and other Farm Bureau service organizations. As a member of the board of the Farm Credit Administration he will also serve as a director of the Federal Land Bank, the Federal Intermediate Credit Bank, the Bank for Cooperatives, and the Production Credit Corporation.

As a part of the farm credit system local cooperative production credit associations make short-term loans to finance all kinds of sound crop and livestock production.

TO EXHIBIT STOCK AT INTERNATIONAL

A flock of 27 sheep and a herd of four steers are being fitted at the Kentucky Experiment Station at Lexington for exhibition at the International Live Stock Exposition in Chicago. The flock includes Southdown, Hampshire and Cheviot lambs.

The University of Kentucky has won many high awards at the International show. Last year's winners included a championship, a reserve championship, five first prizes and a large number of lesser awards.

POTASH FERTILIZER IMPROVES TOBACCO

Studies made at the Kentucky Agricultural Experiment Station and on farms in the State show that the soil of many tobacco fields does not contain enough available potash to produce maximum yields nor leaf of good quality, particularly where a large amount of nitrogen has been applied. Land of high natural productivity that has been in pasture for several years or has been well manured, is likely to furnish sufficient potash for tobacco. However, if the land has been quite intensively cropped, the liberal use of fertilizer very likely will increase yield and improve quality. It is recommended, as a result of these studies, that on soil where the available potash may be deficient, the fertilizer contain 10 percent of potash.

ALARM CLOCKS

When busy doing housework and you have food cooking on the stove or in the oven, set an alarm clock for the time you want to remove the food from the stove. The small rubber erasers that you buy to slip over the top of pencils may be used to advantage on the legs of an alarm clock. They will prevent it from scratching a table top and will also deaden the sound of the clock's ticking.

Gayety Theater News

TONIGHT AND FRIDAY (Double Feature)

An expose of the methods so-called wildcat organizations use in competing with the licensed bus lines of the country forms the basis of "Wildcat Bus," with Fay Wray, Charles Lang and Paul Guilfoyle, heading the cast. The story deals with the rivalry between wildcat operators and an honest bus company, and introduces a romance between a happy-go-lucky playboy who is a wildcat driver and the daughter of the bus line owner.

Second Feature

Jean Hersholt is confronted with a new type of villain in RKO Radio's "Dr. Christian Meets the Women"—a radical, injurious reducing treatment followed by almost every woman in the town.

Brought to River's End by a designing flesh reducing specialist, the fad catches on widely and effectively, despite Christian's warning against rapid weight-shedding. In Hersholt's support, Frank Albertson and Marilyn Merrick, a beautiful newcomer, divide the spotlight. Rod LaRoque makes an auspicious return as the reducing specialist, mixing both comedy and villainy in his portrayal.

SATURDAY

If you want to treat yourself to a laugh a minute, see Judy Canova in "Scatterbrain," at the Gayety

It's a wow! Don't miss it.

SUNDAY AND MONDAY

Comedy intermingled with romantic intrigue is the highlight of Universal's "Hired Wife," which co-stars Rosalind Russell, Brian Aherne and Virginia Bruce.

Especially designed for the three stars, this picture is crammed with unusual and unconventional situations.

The story deals with a girl who marries her boss, with whom she is in love, merely to get him out of a business jam. And the comedy rises out of the situations she creates by trying to keep him from the girl he loves.

TUESDAY

Due to many requests of our patrons we have booked "Man About Town" starring Jack Benny, Dorothy Lamour and Edward Arnold for a return engagement, showing Tuesday only. Don't miss this big picture. A 1940 hit!

WEEK'S BEST RECIPE

Pralines: 2 cups granulated sugar, 1 tablespoon white corn syrup, ¼ cup brown sugar, ½ cup water, 1 teaspoon vanilla. Combine sugars, syrup, water and salt in pan until sugar dissolves, stirring over low flame. Cook to 238 degrees, or a soft ball stage. Remove from heat, add vanilla and 2 cups pecans, let cool to 170 degrees. Stir about one minute, drop on greased pan in cakes about 2½ in. large. Yields about one dozen pralines.

New Traps and How to Get Them

Farm boys are inquiring how to get the new traps named in the Trapping Regulations as permitted under the new law. Here is the way:

Bridgett Cush-in Rubber-jaw, to be used only for water animals, Muskrat and Mink, in drowning sets. This trap takes without bone-breakage or gnawing-off, is not expensive, and is sold by all dealers, who get it through leading jobbers.

Improved Verbal Chain-loop Leghold, for larger land animals, Fox, Wildcat, Raccoon. Takes and holds without injury, saving much fur. No getaways. To reduce price it is sold only through a State Agent, Mr. A. Burton, Route 2, Box 183, Louisville, Ky. Write to him for price.

Epp Chain-loop Leghold, for smaller land animals, Skunk, Oppossum, and Muskrat on land.

YOUTH FACES RAPE CHARGE

HEARING WEDNESDAY MORNING BEFORE JUDGE RIDGELL. CHARGES DENIED BY ACCUSED.

A 19-year-old youth was arrested Monday by Sheriff F. M. Walton on a charge of rape of a three-year-old girl, giving her name as Barbara Ella Rayl. The warrant was signed by the girl's father, Pete D. Rayl, who resides in the Woolper neighborhood.

The youth when arrested, gave his name as Estel Fugate and stated that he resided on the old Ben Aldin farm near Milldam. He denied the charges and was brought to Burlington for a hearing Wednesday morning.

It was alleged that the crime was committed in the early part of November in the town of Petersburg.

Charged With Assault

Jas. Ralph Mosley, of Crescent Springs, Kenton county was arrested last week by Kenton county authorities and turned over to local officials here Monday, on a charge of assaulting his mother-in-law, Mrs. W. B. Burnett, of Kenton.

The complaint filed by Mrs. Burnett stated that Mosley used abusive and profane language and was seeking to make an assault.

It was learned later that Mosley is also wanted by Indiana authorities on a charge of grand larceny. He is being held in Burlington jail at present.

Pearly Rice Arrested

Pearly Rice, of Grant was arrested and brought to Burlington jail Tuesday, charged with stealing a ham from Elbert Louden, of Grant. Upon being questioned by officials, Rice admitted his guilt.

REA Extension

Applications Should

Be Made Immediately

All farmers not served by electricity and who desire R. E. A. service should investigate possibilities of being included on an extension of the line, according to H. R. Forkner County Agent. A number of extensions will be developed in the near future.

Chester Roland, Owenton, manager of the R. E. A. states that he is anxious to learn of all desired extensions in the near future. Feasible extensions are those which average at least three customers per mile to the main line where contact will be made.

SCHOOLS RECEIVE

CHRISTMAS SEALS

Will take active part in sale, according to R. V. Lents, chairman of Boone County Campaign.

Tuberculosis Christmas Seals

have been distributed to every school in the county, according to R. V. Lents, Chairman of the Seal Sale Campaign and will go on sale after Thanksgiving. Each and every person is urged to purchase as many of these little bright colored stamps as your means will permit. We now have a county nurse, and let's keep her. The county's percent of the proceeds of the sale will help us to keep the nurse.

Mr. Lents stated that many individuals had been mailed 100 or more of the seals, and sincerely hopes that each will mail him one cent for each seal. It was also stated that the schools are having a contest, and if you wish that any certain pupil of any school have credit for the sale of your seals, so state when you remit to Mr. Lents.

If anyone should not have the opportunity to purchase any seals, just write R. V. Lents, R. 2, Ludlow, Ky., and he will mail you as many as you wish.

BRIDE AND GROOM

CONVEYED HERE BY HORSE AND BUGGY

Burlington citizens had their eyes glued on the Burlington-Florence Road Saturday afternoon after word had been circulated that J. Moore had a telephone call to be ready to marry Mr. Joseph Bell Preston and his fiancée Virginia Botley Seant, both from Cincinnati. They were to arrive in a horse and buggy outfit.

The young couple had trouble catching that spotted pony at Limsburg, where Mr. Preston keeps his horses. However, after much work the task was accomplished and the young couple came into town in a two-seater, accompanied by Mr. Seant's sister and her husband, Mr. and Mrs. Maurice Trey.

After a quiet ceremony at the home of the officiating minister, they departed in the same vehicle headed for a specially prepared chicken dinner at Tanner's.

WALTON LEADS

CONFERENCE

IN GAMES WON - HAMILTON, BURLINGTON, NEW HAVEN AND HEBRON CHALK UP VICTORIES.

Walton, the leading team of the Boone County Basketball Conference chalked up another victory Friday night when they defeated the Florence boys by a score of 37 to 23 on the Florence hardwood.

The Walton reserves also won by a count of 41 to 16. This week Walton will travel to Hebron, where they will play Friday night.

Burlington trounced the Cold Spring team here last Friday night by a score of 35 to 17. Jarrell, Burlington forward, was high point man for the winners with 14 points while Shaeffer was high point man for the losers with five.

The Burlington reserves defeated the visitors by a count of 16-8. Wednesday night the Burlington quintets will travel to Warsaw for two games.

Two victories were captured by the basketball teams of Hamilton, when they met the teams of Williamstown at Williamstown, Nov. 15, for the opening games of the season. The score of second team was 20 to 11; the first team 29 to 16.

Although Hamilton lost three of its players by graduation, the team, under the capable direction of the new coach, Steve Gabbard, began its year with the same determination to win.

Russell Miller, Jr., the high point man of last year, made 18 of the 29 points. John Kite made 14 of the 20 points for the second team.

The Hebron Cardinals won two games from Silver Grove at Hebron Friday night. The Cardinals defeated the visitors in an overtime period by a score of 33-31. The Hebron reserves score 27 while their opponents chalked up 16.

Saturday night the Hebron Cardinals visited Alexandria and were handed a defeat by a count of 33 to 21. The second string, however, emerged victors by a close margin of 27-26.

New Haven won their second conference basketball game of the season and their third in four starts last Friday night, when they defeated Warsaw 24-21. The Tigers piled up a 17 to 6 lead at the half, but were hard pressed in the final half when the Gallatin countians outscored them 15 to 7.

The New Haven reserves also won over the Warsaw second stringers. The score was 17 to 14.

Many Corrections

In Health Being Made

Among School Children

Through the cooperation of physicians, hospitals, parents and Red Cross, the Boone County Red Cross Nurse is getting corrections made among school children throughout the county. The inspection which has been done in all schools shows a great many defects to be corrected. This also shows that more interest is needed in the proper nutrition of the boys and girls.

Many badly decayed teeth would be avoided if every child had an appeal to Americans for Americans—Join the Red Cross!

THE THANKSGIVING GIFT

For our bounties we join in prayerful thanksgiving. For courage, liberty and happiness, we sing a song of gratitude in recompense. In appreciation of favors received we bow our head in earnest supplication.

Each of us in Boone County, though in his own private world suffers from sadness and worry, strike a renewed note at Thanksgiving time, the theme of gratitude for our individual blessings.

We "give thanks unto the Lord, and call upon His name," as is fitting, for whence cometh our benevolence? We must also give praise to our fellowmen who, directly and indirectly, have taken part in contributing to our benefactions. However poorer may be this other world which adds to yours and to mine, that world, though under-privileged and hard-pressed, will feel that their lot is better than that of thousands of others.

No matter how much we own, how small our possessions, the important point is how much do we enjoy what we have and do we appraise our gifts with gratitude. We must remember that gratitude has the great power of enlarging small pleasures and shrinking profound miseries.

We hear little of a modern pilgrim, for that name indicative of courage and fortitude, seems to have disappeared with the first celebration of Thanksgiving, when fifty stalwart souls poured out their prayer of praise. The skeptic, who in his discontent, derides our state as sentimental and idealistic, fails to see that being thankful is simply using good common sense. This nation was founded on gratitude by a tried people living to create a present and not daring to look into the future, but striving to found a nation daily, through being happy for those necessities which they enjoyed as they hued the wood, hunted the game, raised the grain, struggled and sacrificed for a stronghold that was to endure as a great nation of a great people.

We share one deep blessing with those Pilgrim Fathers, the understanding of the Lord's goodness, the knowledge of His hand in our lives and that, through Him, the pilgrims of today can find good cause to rejoice.

9,182.3 TONS OF LIMESTONE USED

BY BOONE COUNTY FARMERS—GOAL IS EXCEEDED IN BOTH LIMESTONE AND PHOSPHATE PROGRAM.

Boone County farmers went over the top with their lime and phosphate goals set last spring, according to H. R. Forkner, County Agent. The goals were exceeded by more than 50 percent according to Agricultural Conservation Program records.

The 1940 goal set by County Agricultural leaders was 300 farmers to use 6,000 tons of Agricultural limestone. A. C. P. records show that 413 farmers used 9,182.3 tons of limestone which is an all-time record for the county.

The phosphate goal was set at 20 carloads or 1,015,950 pounds. Five hundred seventy-seven farmers used 22 carloads of phosphate, totaling 1,232,252 pounds on soil building crops. Additional commercial phosphate was used on soil depleting crops. This is an all-time record. The phosphate used was divided as follows:

425 farmers used 788,820 pounds of 47 percent super phosphate; 141 farmers used 487,032 pounds of 20 percent and 5 farmers used 8,400 pounds of commercial phosphate on grass and legume crops. Approximately 100,000 pounds of additional 47 percent phosphate was used for demonstration work.

The Boone County soil improvement program has brought more soil, pasture and hay crops improvement to the county than any other previous period in history. The effective use of the Agricultural Conservation Program plus well organized plan worked out by committeemen and local leaders has advanced our farm program along lines of sound improvement.

A large crowd of relatives and friends. Burial was in the local cemetery.

Chambers and Grubbs were in charge of funeral arrangements.

HUNTING BANNED HERE SUNDAY

WILL BE RIGIDLY ENFORCED BY BOONE COUNTY OFFICERS—VIOLATORS ARE SUBJECT TO HEAVY FINE.

Due to the fact that the hunting season opens on Sunday, November 24th, Boone County officials have issued a warning to all hunters to remain at home on this day, as there is a law against hunting on Sunday, which will be rigidly enforced on this county.

As a rule this law has not been enforced as there are very few hunters who take to the field in this section on Sunday. However, the first day of the hunting season usually brings out a large crowd, and due to this fact, county officials have issued the above warning. Officials stated that if hunters were allowed to take to the field on Sunday that many church services would be disturbed by the firing of many guns and therefore would disturb the peace of practically every community in the county.

The above ruling is not a new law, having been in force many years, and probably would never have been mentioned this year had not the opening of the season fell on Sunday.

Anyone convicted of violating the Sunday hunting law is subject to a fine of not less than five dollars or more than fifty dollars.

No official announcement has been made regarding Sunday hunting in the future, but it is generally believed by local sportsmen that the ban will not apply after the opening day.

All hunters are urged to secure their licenses early in order to avoid any last-minute rush on the county clerk.

The hunter's attention is called to the daily bag limit on quail which is 12 and the possession limit is not more than two days' bag limit (24). The daily bag limit on rabbits is 8 with possession limit of not more than two days' bag limit (16).

Foot Badly Lacerated When Struck By Saw

Roscoe Alkin, Burlington suffered a badly lacerated right foot Saturday while sawing wood at the home of his parents on the Burlington-Idelwild Road.

The accident occurred when Alkin attempted to kick some sawdust from under the cut-off saw, which he was operating. His right foot was struck by the saw, cutting three of his toes, and breaking another. He was rushed to the hospital in Cincinnati, where the wound was treated by Dr. Langdale.

Last reports from the hospital indicated that he is convalescing nicely and will be able to return home within the next few days.

NOTICE

The Burlington P. T. A. has furniture polish now on sale for 35c per bottle. Anyone desiring a bottle may obtain same from Mrs. Grover Jarrell.

One hundred fifty-nine boys and fifteen girls completed 191 Four-H agricultural projects with an approximate value of \$11,050.00, according to H. B. Drake, Assistant County Agent.

Sixty-eight members completed the tobacco project and are eligible to show their product at the 4-H tobacco show and sale to be held at the Kenton Loose Leaf Warehouse early in January. Club members will complete in cash prizes at that time and all will sell their tobacco while it is on the floor.

Other projects completed include: Poultry 38; Home Gardens, 31; Dairy 16; Calf 9; Swine 9; Potato 8; Corn 7; Rabbit 4 and Sheep 1.

While the combines cash income for these projects is rather large, it represents only a small part of the value to club members. The experience gained by conducting this work should prove very valuable in the future to all those who successfully completed their work.

THIRTY YOUTHS SHOW INTEREST

IN NATIONAL DEFENSE TRAINING PROGRAM TO GET UNDERWAY BY DECEMBER 1ST—GOVERNMENT PROJECT.

Approximately thirty boys between the ages of 17 and 25 were present Monday for the organization of the free training courses for out-of-school youths, made available through the federal government.

The following courses are available:

1. Operation, care and repair of tractors, trucks, and automobiles, including both gas and Diesel engines.

2. Metal work, including simple welding, tempering, drilling, shaping, and machine repair.

3. Woodworking, with emphasis on framing and form building.

4. Elementary electricity, including operation, care and repair of electrical equipment.

Instructors for these courses may be drawn from industry. Anyone who is skilled in any of the above lines, will be rendering a valuable service by teaching your skill to some of the boys who are needed in the defense program. Pay for the instructor will be on an hourly basis and will be equal to pay received in the particular industry in which he works.

This work will be under the direction of the county school system and the teaching staff will be under the supervision of the vocational agricultural teacher, Mr. Jas. R. Huey.

These courses are made available to any eligible student free of charge, and afford a wonderful opportunity for all boys between the ages of 17 and 25 to receive training in some skilled trade. The requirements for eligibility are (1) You must not be enrolled in any public school. (2) You must be between 17 and 25 years of age.

County and district lines are disregarded and any boy from any county or district may receive this training if he so desires.

The courses will probably be conducted in the old Burlington school building from 6 to 9 p. m., five days per week for eight consecutive weeks.

More boys can be taken for these courses, and anyone desiring to enroll may do so by contacting D. H. Norris, Burlington or James R. Huey, Hebron. Anyone who desires to offer their service as an instructor may likewise contact the above men.

FOUR-H PROJECTS VALUED \$11,050

COMPLETE BY CLUB MEMBERS—EXPERIENCE GAINED BY WORK WILL PROVE VERY VALUABLE.

GASBURG

Mrs. Harry Bayer, Mrs. Stanley Bonta and son spent Friday afternoon with Mrs. Hugh Baker. Glad that Mrs. Charles White is very much improved.

Mr. and Mrs. Shelton Stephens and daughter, of Norwood, spent the week-end with Mrs. Louisa Aylor and family.

Mr. and Mrs. Hugh Arnold spent Sunday with Mrs. Elizabeth Keim of Petersburg.

W. O. Rector and daughter called on Mr. and Mrs. Wesley Bradley and Mr. and Mrs. Charlie Shinkle Sunday.

Mr. and Mrs. Allen Rogers and daughter called on Mr. and Mrs. Hugh Arnold one evening last week.

The storm Monday did considerable damage to the telephone line and to the shade trees in this neighborhood.

Mrs. Hugh Baker called on Mrs. Herbert Brant and children Saturday afternoon.

It looks as though Gasburg will soon have electric, as three truck loads of poles were delivered here Saturday.

Mr. and Mrs. Stanley Smith spent Sunday with Mr. and Mrs. Hugh Baker.

George Setters purchased a car from Southern Motor Co. recently. Steve, the youngest son of Mr. and Mrs. Bill McDaniel was severely injured Wednesday, when he fell against the stove.

POINT PLEASANT
The Boone-Kenton Lumber Co., of Erlanger delivered a large load of lumber for Adam Werns' new house, last Friday.

Geo. Werns and John Bell were the first to butcher hogs last week.

Mr. and Mrs. J. S. Eggleston and Miss Fannie Utz attended the Sunday School and Church services at Florence Sunday. After services they called on Mr. and Mrs. Robt. Brown at the home of their granddaughter, Geraldine Herrington.

We were visited by our first snow last Thursday.

The farmers are all very busy stripping their tobacco and getting ready for the opening sales.

RABBIT HASH HOMEMAKERS
The Rabbit Hash Homemakers' Club met Tuesday, Nov. 12th at the cream station. Nine members answered the roll call with "What are you going to make in our major project this year?"

The morning session was devoted to the "Live at Home" reports.

Mrs. Ida Mae Ryle gave the lesson on "Home Storage," explaining the newest method and equipment used in mound, barrel and cellar storage.

Mrs. Jesse Brooks, engineer, of the University of Kentucky, discussed this lesson with the "Live at Home" leaders and showed miniature models of storage mounds at a training class in Burlington, October 15th.

Mrs. Mary Wilson gave a report on the Home Batching and Canning demonstration held at the home of Lloyd Sleekman in Hebron, October 31. Mr. Grady Sellards, meat specialist of U. of K., showed the proper way to cut and cure meat, and Miss Mary Hood Gillespie, H. D. A. gave a correct canning demonstration. These instructions were helpful to both farmer and housewife.

After lunch, our secretary read the rules and regulations of the Boone County Homemakers' Association. Mrs. Minnette Stephens gave a report on our trip to the Homemakers' Review at Burlington Nov. 7th and announced that ninety dollars was turned over to the Boone County Chapter of the American Red Cross.

After the favorable results of the Homemakers' Review, in which our club participated, and the lunch at the Rabbit Hash creamery served to the public by our club, the membership is more enthusiastic over our small organization.

Thanks to everyone who made these two socials successful.

Our efficient leader, Mrs. Opal Kelly gave the lesson "Color in Rug Making," showing the color combinations that were best to use in rugs.

A special meeting will be held at the cream station Saturday afternoon, Nov. 30th. Instructions in "Leathercraft" will be given by Mrs. Opal Kelly and Miss Mary Hood Gillespie.

Mrs. Mary Wilson has invited the Homemakers to her home for our Christmas party, which will be held on our regular meeting date Tuesday, Dec. 10th. Our program committee will have something interesting planned for the occasion so every member is urged to be present. Visitors always welcome.

HISTORY—Mrs. G. E. M. suffered headaches and neckaches. Her neck ached so intensely at the base of the skull she could hardly see. Days at a time she could not get out of bed because of the severity of the pains. She read one of our ads, telling of the good work we are doing, and decided to see what we could do for her. After a very short time wearing surgical shoes, pain in the head and neck lessened till finally it disappeared entirely and she is well and happy. It is now possible for her to do her own work even when it is necessary for her to climb stepladders. Surgical shoes seemingly worked miracles for her.

COMMENT—Strain on ligaments and tendons naturally has a weakening effect upon muscles. Continued neglect of these conditions may be the cause of your aches and pains in the neck and back and you have been unable to get relief come in and let us see what we can do for you.

If your ankles are weak and you are constantly rolling them, surgical shoes are definitely the answer to your problems—Adv.

LESSON TEXT—Luke 8:4-15.
GOLDEN TEXT—Take heed therefore how ye hear.—Luke 8:18.

"He that hath ears to hear, let him hear," cried Jesus as He taught the parable of the sower. Thus He reveals the heart of the lesson—that it is the hearing of the Word of God, and the manner in which it is heard that determines the destiny of men.

One may hear and yet not hear at all. Some who imagine themselves deaf have perfect hearing, but are so preoccupied with their own thoughts that they do not grasp what they hear. To be in such a state as far as spiritual things are concerned is desperately serious. Jesus cries to you, "If you have ears, hear the Word of God."

A parable is an earthly story relating common things of life to illustrate and present heavenly truth regarding the spiritual life. Parables are simple, but profound. A parable does not need interpretation, but it does need application. The parable of the sower, or rather of the four kinds of soil, presents the seeders of God's Word as being like four different fields.

I. The Wayside (vv. 5 and 12).
Through the fields of Palestine ran well-beaten paths, so hard from many footsteps that no seed could find lodgment and grow. The hearts of men are like that, with the world rolling its heavy wheels over the roads of our thinking. Sin and worldly pleasure add to the bit, and the din and clutter of unwholesome or nonsensical radio programs cut their paths across our lives.

Little wonder that so much of the Word of God which we do hear is lost up by the devil's own birds and carried away. Let's break up the hard ground of our life's way.

II. The Rocky Ground (vv. 6 and 13).
Here we have the shallow soil on the rocky ledge, where seeds grow as if in a hothouse, but wither when the steady heat of the summer sun comes upon them.

Shallow hearers are those who receive the word with joy, are carried away with emotional enthusiasm, and seem to be most responsive to the promises of Christ until the real temptations and trials of life come, and then they are gone. They are like the soldier who enjoys wearing his uniform and marching in the parade past the reviewing stand with bands playing and flags flying, but who deserts his post when his company goes into battle. Surely how about you? Will you be to that kind of a hearer of God's Word?

III. The Thorny Ground (vv. 7 and 14).
The soil was good, the seed found its place to live and grow, but no one kept down the weeds, and they, as usual, got the best of the good seed.

Note carefully in verse 14 what are the destructive thorns and weeds in the spiritual garden. The very things people in our day most seek—riches and pleasure—are the things which choke spirituality. Watch them and root them out.

Observe also that the "cares" of this world are the weeds of the devil. How they do press upon us and how they choke our spiritual growth. I testified that while he had attended church for 20 years he had never heard a sermon because he was always thinking about his business.

IV. The Good Ground (vv. 8 and 15).
The harvest comes from the good soil, and how it does rejoice the husbandman as it brings forth even up to a hundred fold.

The hearers of the Word who are thus fruitful for God are "honest." They listen to really receive help and do something about what they hear. They have "good hearts"—a field plowed, prepared and weeded, ready to bring forth fruit. When they hear the Word they "hold it fast"—they are reverent, thoughtful and obedient to the Word. Then they have the "patience" to grow spiritually. It takes patient effort and devotion to do that, be sure of it (read Luke 21:19 in the R. V.).

In conclusion, we ask, "What then shall we do—sow only in the good ground? No, let us ask God to break up the beaten soil of the wayside with the plowshare of His Word. Let us deepen the shallow soil, fight the weeds and thorns by His Word until they give up. Then let us go right on sowing the seed "in season and out of season" (read II Tim. 4:1-5).

In all such labors your heart will sing with joy because here and there you will be privileged to minister to "an honest and a good heart" which will bring "forth fruit a hundredfold" to the glory of God and for the encouragement of His faithful seed-sower.

Do Not Guess
But let every man prove his own work.—Gal. 6:4.

Henry Deck, Jr., suffered a very painful injury, when he fell, sticking a corn stalk in his eye.

Louise Delph and brother visited at Doc Black's the 14th, it being Miss Louisa's birthday.

Less Sebree, Leroy Vice, Millard Sullivan and Jess Barnes sawed wood the past weekend.

Barbara, the little daughter of Mr. and Mrs. Ralie is ill at this writing.

Gene, the small son of Wilbur Snyder is on the sick list.

L. S. Snyder and wife visited at W. M. Sebree's Sunday.

Glad to hear that Mrs. Chas. White is improving rapidly.

Miss Hazel Akin, of Hebron, is visiting Mrs. Cord Cox and son.

We were sorry to hear that Roscoe Akin was injured when his foot was cut by a cut-off saw Saturday. We wish for him a speedy recovery.

Hog killing is progressing in this community.

CARD OF THANKS
We wish to extend thanks to our relatives, friends and neighbors for kindness and sympathy shown us during the illness and death of our beloved mother and grandmother, Amanda F. Lodge.

Especially do we thank Rev. H. M. Heiser, Dr. Nunnally, the choir, the donors of the beautiful flowers and Bullock and Catherman.

Nannie Lodge, Mr. and Mrs. Sterling Diekey

This Way OUT

The way OUT is clearly marked for the small minority of Kentucky beer retailers who refuse to operate their places of business in accord with the law and public decency. Thus far, five licenses have been revoked, four licenses suspended, two places padlocked—all brought about through the cooperation of this Committee with law-enforcement authorities. "Clean up or close up" is the watchword of the brewing industry and of this Committee. Unwholesome conditions surrounding the retail sale of beer will not be tolerated.

Again the hearts in this community have been saddened by the loss of one whose memory will be long cherished, Mrs. Amanda Lodge, who passed away recently.

SUBJECTS TO HEADACHES?

It is claimed that 85 percent of frequent headaches are caused by eye-strain, which also may cause nervousness, dizziness, squinting, frowning, wrinkles and crow's feet around the eyes, eye discomfort after reading, etc.

If you suspect eye-strain, or have poor vision, come to us for a thorough examination of your eyes.

She had been in failing health for several months and all that medical aid could do was done to stay the powerful hand of death. Her devoted daughter, Nannie Lodge and granddaughter Alberta Dickey and husband and son-in-law Edward Baker cared for her in her last hours. She united with the Hebron Church early in life, and was a most zealous worker and faithful member as long as she was able to attend. She loved her church and her pastor Rev. Hutter who visited her quite often while she was ill. Funeral services were held at the Hebron Church and the remains were laid to rest in the cemetery nearby. The large crowd that assembled and the many beautiful floral tributes tendered, showed the high esteem in which the deceased was held. Our sincere sympathy is extended to the bereaved family for although faith will to console, nothing can console or remove the aching void in the hearts of the loving mother who has gone to her eternal reward. But there is indeed something beautiful in the thoughts of one who lived a devoted life, a life full of sacrifices for those she loved—A Friend.

Who Owns This Bank?

You probably know the answer, yet it's one of those simple, obvious facts that are often lost sight of. The stockholders who own this bank are your neighbors and ours—average citizens who take part in the home, social and business life of this community.

They invested their money in our capital stock because they had faith in the community's future, and in the progressive-ness of their fellow men. Often the money they invested was part of their hard-earned life savings.

This confidence on the part of our stockholders who in turn enjoy the confidence and respect of many others, is a good-will-building force which we value highly.

3-Year Quotas To Protect Allotments Of Both Small And Large Burley Growers

There are 340 burley tobacco growers in Boone county whose allotments are one acre or less and if these small growers along with other growers in the burley area approve marketing quotas for the next three years in the referendum on November 23, there will be no reduction in these small allotments during the three-year period, Mark Cook, chairman of the Boone County Agricultural Conservation Association, said today.

Mr. Cook also pointed out that, if growers approve the three-year quota plan on November 23, no 1941 burley allotment for any farm in the county will be reduced below the 1940 allotment and that no allotment of more than one acre may be reduced more than 10 per cent below the 1940 allotment within the next three years.

(The only possible exceptions to these regulations, Mr. Cook said, would be farmers who might be penalized for attempting to evade or help others to evade the tax on marketings of excess tobacco under the marketing quota, which is now in effect for the 1940 marketing year.)

If a quota is voted for only one year, Mr. Cook said, some further reduction in 1941 allotments may be required.

Burley growers will vote on three questions on November 23. These questions are:

- (1) Are you in favor of quotas for three years?
- (2) Are you opposed to quotas for three years, but favor the quota for one year?
- (3) Are you opposed to quotas?

Three-year quotas will be adopted provided two-thirds of the voters approve them. A one-year quota will be adopted if the combined vote for three-year and one-year quotas amounts to a two-thirds majority. If more than one-third to the voters oppose quotas, they will be not operative.

The decision of the growers in the referendum will be final, Mr. Cook said.

One Man From Boone County To Report At Ft. Thomas, Nov. 26

Mrs. Dorothy Ryle, Clerk of the Local Board, announced Tuesday that only one man would be called from Boone County to report at Ft. Thomas for service on November 26. There are seven volunteers which were listed in this paper last week, and one of the seven will be called.

According to instructions from State headquarters in Louisville, only 20 percent of the questionnaires will be mailed before January 1, 1941.

Mrs. Ryle announced that a telephone had been installed in the local office, and anyone desiring information concerning their questionnaires, etc., are asked to call Burlington 246.

TOYS IN LONDON

Washington, D. C.—Bombing raids are not hindering the distribution of American Red Cross supplies in London, according to word received here.

When the American Red Cross Committee in London heard of the plight of 15 children who had been spending virtually all of their time in the cellars of an East End church, they sent two taxicabs filled with toys to keep up the children's morale. As the taxicabs reached the church the air raid sirens sounded. While bombs fell outside the workers distributed dolls, puzzles, and other toys purchased with American Junior Red Cross money.

The Ladies' Aid of Hopeful Church will meet next Tuesday, Nov. 26th with Mrs. Harvey Utz. All members are urged to attend.

Red Cross Wants More Male Nurses

Men nurses enrolled in the First Reserve of the Red Cross Nursing Service will be given the grade of technical sergeant in the Army if called to active duty, Miss Mary Beard, national director of the Nursing Service, notified Rev. J. Russell Cross, chairman of the local Red Cross chapter.

Miss Beard said the Army Medical corps had informed her that as far as possible those men nurses selected for military training who are enrolled in the Red Cross reserves will be utilized in their professional capacities.

Birthday Celebration

Mr. and Mrs. Harold Rogers, of Commissary entertained Sunday in honor of their son Morris Vaughn, it being his third birthday.

The day marked the celebration of four generations of birthdays: They were Mr. Tom Hankinson, who was 86; Mrs. Alice Aylor, 63; Miss Dorothy Jane Aylor, 17, and Morris Vaughn Rogers, 3.

The center of the table was beautifully adorned with a tiered cake, each tier having candles to represent the different birthdays. The cake was made by Miss Cora Aylor and Mrs. R. Aylor.

Those present to enjoy the occasion were: Mr. and Mrs. Bernard Rogers, Mr. and Mrs. Paul Aylor, and daughter Dorothy Jane, Mr. and Mrs. R. Aylor, Mrs. Alice Aylor, Tom Hankinson, Miss Cora Aylor and Mr. and Mrs. Franklin Clure, Mr. and Mrs. Aylor, Mr. and Mrs. Lory Moyer and son Lory Ray and Miss Pauline Aylor, of Cincinnati, O., Mr. and Mrs. Vernon Scott and sons Clifford, Edwin and Sebern and the host and hostess, Mr. and Mrs. Harold Rogers and sons Ethan and Morris Vaughn.

Farmers Urged To Sign ACP Applications

Farmers operating in the 1940 Agricultural Conservation Program are urged to sign their applications for payments at the earliest possible date, according to H. R. Forkner, County Agent. Several counties have already received their 1940 checks and payments cannot be made until the applications are signed.

Eleven hundred farmers are eligible for 1940 benefit payments on signing their 1940 applications, according to John E. Criger, secretary of the ACP Association. Six hundred and seventeen of these have already been signed and forwarded for payment. The remaining 433 should be signed at the earliest possible date.

Mrs. Hannah McGuirk

Mrs. Hannah McGuirk, age 68 years of 19 Center St., Erlanger, passed away Tuesday at an Anchorage, Ky., hospital after a short illness. The remains were removed to the Tallaferrero Funeral Home for preparation.

She is survived by her husband, Daniel McGuirk, retired Supervisor of the Southern Railroad, and one son Charles McGuirk and a daughter Margaret McGuirk.

The pallbearers were John and Irvin Doney, William Maloney, Eugene Crowley and Martin McGuirk.

Funeral was from the Tallaferrero Funeral Home Friday at 8:30 a. m., with requiem high mass at St. Henry's church, at 9:00 a. m., by the Rev. H. J. Egbring, interment following in St. Mary's cemetery.

Thanksgiving Service Will Be Held At Richwood Presbyterian Church

Special Thanksgiving Services will be held at the Richwood Presbyterian Church, Thanksgiving morning, November 21, at 10 a. m. Rev. J. Russell Cross will deliver the message—"The Thanksgiving Service." An offering will be taken for orphans.

The Psalmist of old said, "I was glad when they said unto me, Let us go into the house of the Lord." Isn't it a great thing that this Thanksgiving we, as Americans, have the right of free speech, free thought, and free worship! Attend services somewhere on this day and express to God your appreciation for such marvelous things.

Boone Shoppers Showing Interest In Pre-Xmas Dividend Club

Much interest is being manifested by Boone County shoppers in the inaugural of the fourth Pre-Christmas Dividend Club by certain Covington merchants. Stores co-operating with the plan report it has given a great stimulus to early Christmas shopping—also to shopping in general.

The reason naturally is that \$650 will be awarded on Friday, December 13, at 2 p. m. The first prize is \$250; second, \$100, and 30 other cash prizes.

This issue of The Recorder carries the announcements of some of the Covington stores that are participating in the event. Shoppers are requested to mention The Recorder when asking for their Pre-Christmas Dividend Club coupons that are given with every \$1.00 purchase.

Men's Bible Class Of Erlanger Church Will Give Supper

Arrangements for the annual banquet of the Men's Bible Class of the Erlanger Baptist Church, to be held at the Church dining room Saturday night, December 7th, have been completed by the following committee: Rev. R. D. Martin, leader; Milton Gschwind, Olin Keeney, Dick Connert, Jule Appel and W. N. Carnes. This has been designated as "Ladies' Night." Each member of the class is to bring his wife or girl friend. The banquet will be prepared by the men, under the direction and leadership of chief clerk, Jule Appel, and served by the members of the Young Men's Baraca class under the supervision of Prof. Herbert Smith.

LIMESTONE IS NOW AVAILABLE

ON SAME BASIS THAT PHOSPHATE HAS BEEN SUPPLIED FARMERS PAST FOUR YEARS BY GRANT OF AID.

Agricultural limestone is now available to Boone County farmers cooperating in the Agricultural Conservation Program, according to H. R. Forkner, County Agent. Limestone is available on the same basis that phosphate has been supplied farmers the past four years.

Farmers desiring limestone as grant of aid or in lieu of cash benefit payments will apply at the county office in Burlington. These orders will be approved by the County ACP committee and turned over to one of seven local dealers who have AAA contracts. The dealer in turn will deliver the desired number of tons to the farm with the farmer putting up no cash payment by having the cost deducted out of the 1941 ACP check. Local dealers having AAA contracts are Sam Ryle, Burlington; Stevens Bros., Florence; Charles Kraft, Box 54, Ludlow; S. M. Graves and J. W. Moore, Hebron; W. J. Craig, Burlington; McBee Bros., Elliston; and Dance Bros., Crittenden.

The deduction in payments for limestone delivered to the farm is \$2.00 per ton or \$1.50 per ton at the dealers' supply station. This is the same rate being paid by farmers the past two years. The grant of aid requiring no cash outlay should increase use of limestone by 50 percent over the record year of 1940.

Limestone is now available for immediate delivery. Due to the expected spring rush, farmers should file their orders now to insure the supply when needed. Those desiring further information should contact the County Office. This past year local farmers used over \$18,000.00 worth of limestone.

In Carter county, 1,000 early-hatched pullets are being prepared by a dozen poultrymen for early fall egg production. The pullets are well started in production now, and are in good flesh for heavy production during the high-price egg season.

THE BOONE COUNTY RECORDER

ESTABLISHED 1875

VOLUME 65

BURLINGTON, KENTUCKY THURSDAY, NOVEMBER 28, 1940

NUMBER 26

COUNTY'S OLDEST CITIZEN PASSES

AT AGE OF 96—WAS BORN AND REARED IN BURLINGTON—HAD SERVED FOR 75 YEARS AS LOCAL BANK DIRECTOR.

Robert Silas Cowen, 96, Boone County's oldest citizen passed away at his home in Burlington Monday afternoon, after an extended illness.

Mr. Cowen was born and reared in Burlington, having resided here his entire life. The greater part of his life was devoted to farming, retiring from active work several years ago.

For the past 75 years he has served as a director of the Peoples Deposit Bank, and had attended practically every meeting during that time. He has been a member of the Burlington Baptist Church for the past 75 years, having served as deacon and trustee, and has acted as a messenger to the North Bend Baptist Association for the past fifty years.

He was united in marriage to Maria Smith, who died in 1893. He later married Lucy A. Rice in 1899.

Mr. Cowen had been active in church and civic affairs throughout his entire life, and no doubt was instrumental in the growth and progress made by the County seat of Boone County. His great pleasure was in giving to others and has made many happy, who were less fortunate than himself by his generous gifts. He was truly a wonderful character, and one that will be greatly missed.

He was a brother-in-law of Jas. A. Riddell, who preceded him to the grave a few months ago at the age of 97 years and 10 days. At Mr. Cowen's death he was 96 years and 10 days, being only a year's difference in their ages at death. Mr. Cowen and Mr. Riddell having married sisters.

He is survived by his wife, Lucy A. Rice, age 81, two daughters, Lella Kile and Mrs. Earl Smith, two half-sisters, Mrs. Laura Martin and Miss Pink; two grandchildren, Robert Clore and Katherine Myers, and three great-grandchildren.

Funeral services were conducted Wednesday afternoon at 2:30 p. m. at the Burlington Baptist Church, with R. F. Demosky officiating, assisted by Rev. Campbell, in the presence of a concourse of sorrowing relatives and friends. Burial was in I. O. O. F. cemetery.

Funeral directors were Earl Smith, Tom Rice, W. L. Cropper, W. T. Carpenter, J. W. Kelly, and Elmer Kirkpatrick.

Chambers and Grubbs, Walton funeral directors were in charge of arrangements.

PROMINENT MAN SUCCUMBS AT 66

FOLLOWING BRIEF ILLNESS— WAS OWNER OF EASTERDALE FARM NEAR FLORENCE—SERVICES HELD FRIDAY.

Ambrose Easton, prominent Boone County farmer, passed away Wednesday of last week at St. Elizabeth Hospital, following a brief illness.

Mr. Easton owned and operated Easterdale farm on the Price Pike, Florence. He was one of the county's most prominent farmers, and was well known throughout Northern Kentucky. He was a member of the Hopeful Lutheran Church.

He is survived by his widow, Mrs. Lennie Easton; three sons, Thomas, Kenneth and Arnold Easton, and four daughters, Mrs. Naomi England, Mrs. Sallie Pratt, Mrs. Lula Tanner and Mrs. Mildred Snow.

Funeral services were held Friday afternoon at 2 p. m. at the Hopeful Lutheran Church, with Rev. H. M. Hauer, officiating. Burial was in the Hopeful cemetery.

Philip Tallaferro, Erlanger funeral director was in charge of arrangements.

W. R. Terrill To Act As Surveyor

W. R. Terrill, of Elsmere will act as surveyor in the absence of Noel Walton, county surveyor, who left Saturday morning for Bakersfield, Calif., where he will spend several weeks.

Mr. Walton stated that anyone desiring to have land surveyed during his absence to call or see Mr. Terrill.

Aliens Must Register By December 26, 1940

Alien registration will end on December 26 and all non-citizens who have not yet registered are warned that severe penalties will follow failure to comply with this Federal law.

All aliens, 14 years of age and older, must register in person and be fingerprinted.

Alien children, under 14, must be registered by their parents or guardians.

A registration takes place at the post offices.

There is no charge of any kind connected with alien registration. The Department of Justice warns aliens to beware of racketeers.

The Post Office Department and the Department of Justice will willingly assist the alien in every possible way.

Earl G. Harrison, Director of the Department, suggests that those aliens who have not yet registered do so as soon as possible and avoid the Christmas rush at the post offices.

All aliens are also warned that, having registered, they are required to report any change in their permanent residence address within five days to the Immigration and Naturalization Service of the Department of Justice in Washington. Forms for this purpose are obtainable at all post offices.

No alien need be unprepared for the questions he will be asked. Sample registration forms which show him exactly what information he will need at registration are available in all post offices.

BURLINGTON TAKES WARSAW

BY SCORE 23-18 WEDNESDAY NITE—WALTON TRIMS HIGHLANDS FIVE—HEBRON AND FLORENCE DEFEATED.

The Burlington Eagles outclassed the Warsaw five Wednesday night of last week in a hotly contested game by a score of 23 to 18.

At the close of the first quarter, Warsaw was leading the local boys by a 5-3 count. However, Burlington took the lead in the half and held that position throughout the remainder of the game.

Ruey, Burlington forward, was high point man with 13.

The local reserves lost their game to Warsaw by a 21-18 score. Burlington Independent team was victorious over the Warsaw Independents by a score of 25 to 10.

In the first game of the season for Dixie Heights, they defeated the Hebron basketball team on the Dixie Heights floor by a score of 47 to 23 Wednesday night of last week.

Hensley, pivot man, for the winners chalked up 23 points, while Aylor was high point man for Hebron with 12.

Hebron's reserves took the Dixie second stringers into camp by a score of 27 to 17.

The Beechwood High School basketball team was praised by a score of 28 to 23 on the Hamilton hardwood. Williamson was high point man for Hamilton with 11 points. The Silver Grove reserves won over the Hamilton second stringers by a score of 16 to 13.

At the Hamilton basketball game, they defeated the Simon Kenton five by a 42-31 count. The New Haven boys took an early lead and maintained that position throughout the game. Shields and Johnson were high point men for the winners with 13 each, while Simpson led the attack of Simon Kenton with ten.

Simon Kenton reserves defeated the New Haven reserves by a score of 24-21.

In a hotly contested game at Hebron last Friday night, the Walton Bearcats defeated the Hebron Cardinals by a score of 28 to 26.

Walton led at half by a score of 19 to 13 and 21 to 20 at the end of the third quarter. During the last quarter Hebron went ahead, but was unable to hold that lead.

Basketball fans claim that this was one of the best conference basketball games of the season.

Aylor was high point man for the losers with 15, while Coyle was high for the winners with 13.

The Walton second team defeated the Hebron reserves in a close game by a score of 18 to 14. Hebron meets Lloyd High at Erlanger Friday night of this week.

KENTUCKY LISTED AS HYBRID CORN STATE

The United States Department of Agriculture lists Kentucky as one of the states in which rapid development is being made in growing hybrid corn. It is estimated that about 25 million acres of hybrid corn was grown in the United States this year. The Kentucky acreage is put at about 500,000.

According to the College of Agriculture, at Lexington, hybrid corn in this State outyields common kinds 10 to 15 percent. It also is better resistant to drought and damage by storms. This is due to its big root system and sturdy stalks.

It is thought that a million acres of hybrid corn will be planted in Kentucky next spring.

Mr. and Mrs. Van Velsel and children Ruth and Edward spent the holidays with their aunt in Covington.

Union Man Injured In Automobile Wreck Monday

"Buddy" Stephenson, 51, Union, Ky., suffered six broken ribs, shock and bruises when the automobile in which he was riding was struck by a car bearing Ohio license plates at Union Monday morning.

According to reports, Mr. Stephenson was crossing U. S. 42 at the Big Bone-Union road when the car in which he was riding was struck by the Ohio car traveling South. Stephenson's car was turned around, crashing against a parked truck nearby. He was thrown out of the driver's seat and was hanging out the door on the opposite side, it was reported.

After being examined by a physician he was found to have six broken ribs. Reports received Tuesday night were that he is convalescing nicely.

FLASH GORDON—ON PLANET MONGO

A living example of the widely accepted theory of heredity is Gladys George, who, with Akim Tamiroff, William Henry and Muriel Allen is featured in the Paramount drama, "The Way of All Flesh." Although her birthplace was Paton, Me., she was actually born while on tour with her parents.

Her father was knighted for valor by King Edward VIII, but she dropped the title when he became a Shakespearean actor. Her mother was the daughter of a prominent Boston family and a talented actress. For many years during her early childhood she played with her parents in the repertory company with which they were affiliated. As has been the case in countless theatrical families, Miss George unquestionably inherited her histrionic ability.

"The Way of All Flesh," is a gripping human document which shows how one man's entire scheme of life was shattered because of one moment of weakness. Louis King directed with masterly touch and feeling that makes for realism. The screenplay was written by Lenore Coffee, and was based on a story by Lajos Biro and Jules Furthman.

BOONE FARMERS FAVOR QUOTAS

FOR THREE YEARS—MORE THAN TWO-THIRDS MAJORITY RECEIVED IN ENTIRE BURLEY BELT.

Results of the tobacco referendum held in eleven communities in Boone County on Saturday, November 23, show that growers were in favor of three years Marketing Quotas by a 77.2 per cent vote. Marketing quotas for one year received a 5.3 per cent vote; while those opposing marketing quotas only registered as 22.5 per cent vote.

Marketing quotas for 1941, 1942, and 1943 have carried by approximately 76.4 per cent in the whole burley belt. While some of the states did not give the referendum a two-thirds majority, yet marketing quotas for three years will be in effect as more than a two-thirds majority was received in the entire burley belt.

Erlanger Girl Wounded By .22 Caliber Bullet

Miss Jean Collins, 17, of 416 Lytle avenue, Elsmere was shot accidentally by a .22 caliber target rifle bullet Thursday. She was treated at St. Elizabeth Hospital, Covington for a wound in her right side.

Edward Burdge, 146 Park avenue Erlanger, who was shooting at a target in the rear of his home, fired the shot, Marshal Virgil Wood reported.

Marshal Wood said that five bullets fired by Burdge crossed two streets and lodged in a house.

After treatment and X-ray examination Miss Collins was returned to her home. Her injury was not believed to be serious.

Campbell County Men Given Minimum Fine For Sunday Hunting

Joe Barton and brother, of Bellevue, Campbell County, were fined Sunday by acting judge, Carroll Cropper, charged with hunting on Sunday.

The brothers were arrested by Sheriff F. M. Walton and deputy J. T. Williams following complaint of several landowners in the Hebron neighborhood, upon whose farms the men were hunting.

Both men were given the minimum fine of \$5.00 each.

CAPITAL STOCK OF FEDERAL LAND BANK NOW FARMER OWNED

Through their local cooperative national farm loan associations farmers in Boone and other counties in Ohio, Indiana, Kentucky and Tennessee now own all the capital stock of the Federal Land Bank of Louisville, it was reported by A. B. Renaker, secretary-treasurer of the Boone County National Farm Loan Association.

Announcement of this fact was made at a group meeting of secretary-treasurers and directors of national farm loan associations in this area held Tuesday of last week at Lexington. Local people attending the conference included Secretary-treasurer A. B. Renaker, E. A. Martin, B. E. Aylor, Karl Rouse and Thos. Hensley, directors of the association.

Originally capitalized by Congress, the Federal Land Bank of Louisville was established in 1917 to provide farmers in Ohio, Indiana, Kentucky, and Tennessee with a source of long-term, amortized, low-cost farm mortgage loans made through local national farm loan associations. With management of the cooperative credit system coupled with farmer members' favorable repayment record made it possible to retire the capital stock invested in the Federal Land Bank of Louisville by the Federal Treasury, Mr. Renaker explained.

This marks the second time that national farm loan associations have owned all the capital stock of the Federal Land Bank of Louisville. The first was in 1924. To enable the bank to meet emergency refinancing demands in the early 1930s, the capital stock of the bank was increased by Treasury subscriptions.

A growing appreciation on the part of farmers of the advantages offered by bank loans is indicated by the fact that the volume of land bank and Commissioner loans made by national farm loan associations in the Louisville district showed an increase of 50 percent during the third quarter of this year over the same period of 1939. Mr. Renaker continued. He indicated that the members of the Boone County National Farm Loan Association will hold their annual meeting shortly after the first of the year. It is at the annual meeting that association members elect directors from their group and review the progress of the organization during the past year.

BURLINGTON BOY ENTERS SERVICE

OF U. S. ARMY AT FT. THOMAS TUESDAY MORNING—ONLY ONE MAN CALLED FROM COUNTY.

For the first time in the peaceful history of our Nation, Kentucky sends forth her sons to strengthen a great American Army and Navy in order to insure the protection of this Government of the people.

Among those registering at Ft. Thomas by R. C. Eastman, where of the state was Francis Keene Souther, 24, Burlington, who volunteered his services, showing his patriotic wholehearted willingness to serve in the armed forces of the Nation.

Mr. Souther reported Tuesday morning to Draft Board 9, Burlington and was accompanied to Ft. Thomas by R. C. Eastman, where he was enrolled by army officials. In the event that Mr. Souther does not pass the army examination, he is selected as an alternate.

Although there were no bands playing and crowds cheering upon the departure of Boone County's first Selectee, the people of our county are very grateful for the fine spirit of patriotism shown by this young man, and will welcome him home following his year's training, with open arms.

Mr. Souther is a son of W. Keene Souther of near Burlington, and is well known in this section of the county. Following the enrollment of all men between the ages of 21 and 35, he was among the first to volunteer his services, and was selected by the local draft board.

MARKET CARDS TO BE DELIVERED

AT SERIES OF MEETINGS THROUGHOUT COUNTY—WILL BE NEEDED BY ALL TOBACCO GROWERS IN MARKETING CROP.

A series of meetings have been planned to deliver the tobacco marketing cards which will be needed by every tobacco grower to market his 1940 crop whether the allotment has been exceeded or not.

The marketing cards can not be mailed, but must be received by the landlord or someone designated by him.

The 1940 applications for payment and the farm plans for 1941 participation in the Agricultural Conservation Program will also be signed at these meetings for those who have not signed to date.

The schedule of the meetings are all on central standard time, and are as follows:

Grant, Bank, Thursday, November 28, (8 a. m. to 12:00 noon). Florence Bank, Thursday, November 28, (12:00 noon to 2:30 p. m.).

Hamilton School, Thursday, Nov. 28, (1:00 p. m. to 3:30 p. m.). Union Bank, Friday, Nov. 29th, (8:00 a. m. to 12:00 noon).

Hebron Bank, Friday, Nov. 29th, (8:00 a. m. to 12:00 noon). Seavey's Store, Friday, Nov. 29th, (1:00 p. m. to 3:30 p. m.). Petersburg Bank, Friday, Nov. 29, (1:00 p. m. to 3:30 p. m.).

Walton Town Hall, Saturday, Nov. 30, (8:00 a. m. to 12:00 noon). Burlington County Agent's Office, Saturday, November 30, (8:00 a. m. to 12:00 noon).

Verona Bank, Saturday, November 30, (1:00 p. m. to 3:30 p. m.). If the marketing card is not received at the community delivery, it may be received at the County Agent's Office any time after that date.

The High Cost of Getting Well

Within recent years much has been said about the high cost of getting well. After giving this problem a great deal of study, we have devised a simple plan whereby the patient may get the best health service at a very nominal cost, without sacrificing any laboratory tests or x-rays which may be necessary in his particular case. We shall be glad to explain this plan in detail if you will call at this office.

Most men can find the most time to read when their wives are trying to tell them something.

When feet are permitted to protrude inwardly, the bony structure of the foot goes down, shutting off the nerve and blood supply in the bottom of the foot. When you cramp or choke the blood stream and slow up circulation, there is a lack of bone repair; chemical deposits, or waste matter form at the joints. Next inflammation sets in at these joints causing pain. That inflammation is often mistaken for rheumatism, arthritis and many other ailments. Also when you cramp the blood supply you shut off the food supply to the nerves.

When nerves are impoverished Muscle tone is impaired because sensory nerves indirectly control motor nerves which in turn control the muscles. When muscles in the feet have lost their tonicity due to impoverishment of the nerves, feet are no longer subconsciously held in normal position.

Surgical shoes give support to the vital arches in the feet releasing cramped nerves and blood vessels to promote better circulation. Gradually as circulation improves, muscles grow strong and regain their tonicity.

With foot health improved the person feels better all over. Research has shown that no less than eighty-seven diseases are indirectly caused by bad feet.

Don't take chances with your health, happiness and peace of mind. With foot comfort you'll live longer and feel better.—Adv.

SCOUTS READY TO HELP IN ANY MANNER NEEDED

Members of the Boy Scouts of America pride themselves that "there are no softies in Scouting." Citing their record as aides to rescue workers, first-aid men, and message bearers in time of disaster, they are equally proud that they are prepared to serve their community in hundreds of less spectacular ways.

The day-to-day program, Scouts insist, keeps them ready and eager to help in any manner that is needed.

Some idea of the service rendered in the past 30 years is available to the Scouts of the National Council of the Boy Scouts of America. A quick survey shows that the khaki-clad youngsters sold Liberty Bonds worth \$147,000,000, have saved many lives, delivered half a million Thanksgiving baskets to needy families, participated in hundreds of searches for lost persons, guarded school crossings, fought fires, cleaned up unsightly vacant lots, acted as color guards, assisted in controlling traffic, ushered at public and private ceremonies, aided in bringing out the voters campaign—even helped to rescue a parachute jumper caught in a tree. Scouts do not, however, solicit money for anyone.

Between good turns, Scouts keep fit by practice and competition in first in signaling and hiking engineering, by extensive climbing and camping, and by constant adherence to the fundamentals of Americanism.

Typical of the spectacular side of Scout work is the record of the 1939 New England hurricane. Almost without exception, every damaged community praised the work of the khaki-clad youngsters. They helped clear streets, carried messages for the police and fire departments, rescued half a dozen marooned persons, collected clothes for those left homeless, and when unable to complete rescues themselves, guided better-equipped adults to the scene.

Similar stories have been told repeatedly from every part of the country. Tornadoes in the South, floods in the Mississippi Valley, blizzards in the mountain states, and forest fires in the West have been the occasion for brilliant rescue work by Boy Scouts, whose long training had prepared them for emergency service.

Far less dangerous, but no less useful, was the work done by Scout Troops in collecting clothes, furniture, food and supplies for needy families during the depression. The job was begun in 1934 in response to a suggestion from President Roosevelt, and it continued for several years.

FRUIT GROWERS TO MEET AT PADUCAH

An apple and nut show will be a feature of the annual winter meeting of the Kentucky Horticultural Society at Paducah Dec. 4-5. Native pecans, black walnuts and hickory nuts and several varieties of apples will be exhibited. The College of Agriculture at Lexington will cooperate in the meeting.

Kentucky had a normal apple crop this season, with better-than-average production of Grimes Golden, Red Delicious, Stayman, Paducah and Black Twig varieties. Many growers found a market for their crop early in the season.

CURRENT LIVESTOCK SITUATION

Hogs—Livestock producers throughout Cincinnati market area have marketed a larger volume of livestock, especially hogs and cattle, this fall than for several years. Hog numbers continue ample and marketings this fall were approximately one-third larger than for the past five-year average on the 65 public stock yards of the country. So far this year nearly one-fourth more hogs have been marketed than last year. Hog prices continue in a rather weak position in relation to cattle and lamb markets.

From a seasonal standpoint, hog producers may not expect much stronger prices through November unless receipts materially lessen. The tremendous advance in the industrial situation, the preparedness and defense programs, coupled with more favorable conditions for pork consumption because of increased payrolls and cooler weather does not yet seem to reflect in higher hog prices.

In studying the hog market situation, the Producers Cooperative Commission Ass'n. on the Cincinnati market anticipate improved marketing conditions at least 30 days earlier than normal for the heavier fall run of hogs. Where values are often weak in December and into January, this Cooperative Association believes there will be increased prices and relatively higher values. Current values will have a tendency to be checked because of the wild game season and a relatively larger amount of poultry, especially turkeys. Coupled with lessened supplies, meat packers should soon be showing increased demand for storage stocks. There is also to be expected a stronger country demand for lighter weight hogs and feeder pigs. All of this should reflect in higher market values earlier than normal.

Beef Cattle—The beef cattle market looks to continue in a rather strong position for the better grades of cattle with the medium and lower grades holding mostly steady throughout November. Planer grades will most likely show material advance as we get into the December market. The present value of planer grades of grass cattle compared with the good to choice grades of dry-fed finished cattle, is tremendously wide. It is difficult to realize that the better grades of finished live cattle are selling for more than twice as much as the better grades of finished hogs. This spread between species of livestock is extremely wide and the possible decrease in numbers of hogs should narrow this spread considerably from 60 to 90 days hence.

Feeder cattle are costing from 50c to \$1.00 or more per hundred weight than last year, yet are not as high relatively speaking because of the higher prices of finished cattle. This higher price situation, coupled with the drought situation and short feed supplies, has caused western species to enter feed lots in the Cincinnati market area than is usually the case. About the usual numbers of weighter cattle are being fed but much less numbers of lighter weight cattle have been sold in the Eastern Corn Belt.

Lamb Market—The lamb market through the years has been in a strong position with few exceptions. Finished desirable weight lambs from 80 to 90 pounds are in broad demand. Indications point to continued good market with

higher values for finished feed lambs after the turn of the year. Pellet values throughout the year have helped live lamb values. The increased use of wool in the defense program and the requirements for clothing and blankets for the Army looks to keep wool at rather high price levels. As conditions look at the present it seems most encouraging for those having native lambs to finish them for market and for the feeder of Western lambs to do a good job of feeding this winter even though feed prices are much higher than last year.

Utilizing volume constructively in your sales program is of tremendous importance to you and to the livestock industry as a whole. Your Association appreciates that you have consigned your stock through it for sale. It is helping to build a sounder marketing program. Build with volume. Get results.

Savings and Refunds

Annually your Cincinnati Producers have made savings and in turn refunded savings to members. Volume of business has permitted saving again in 1940. Your directors desire that every one consigning livestock to the Cincinnati Producers qualify for their portion of these savings. To do so each patron must be a member. Membership in your County Farm Bureau, your Grange, your Cooperative Milk Association or other related cooperative groups qualifies every bona-fide livestock producer doing business with the Cincinnati Producers for membership when certified by your local organization. It is necessary that this be cared for before the close of business December 31st. Individuals may also sign membership cards directly with the Cincinnati Producers and participate in savings should amount of same permit.

CONCERNING APPLES

Apple sauce, sweetened, mixed with crushed pineapple and lightly spiced, makes a delicious top for hot biscuits, baked in sheet form.

Apple balls, cut about 1 inch in size, can be cooked in a sugar syrup, colored red or green, and tender. Use them for garnishing turkey or chicken or even your vegetable dishes.

BALANCE YOUR GRAIN

LOTS OF EGGS

Folks around here with grain to feed to their layers will find that it pays to balance this home-grown grain with Purina Lay Chow. That's because Lay Chow is built to give grain what it needs to be a real egg-maker.

We have lots of customers now feeding Purina Lay Chow with their grain. Stop in—we'll be glad to show you the records of many poultry raisers who are getting extra eggs the Lay Chow way.

DEMONSTRATIONS TO HELP FARMERS HAVE BETTER PORK SUPPLY

As a part of its state-wide "live-at-home" program, the Kentucky College of Agriculture announces a series of pork-cutting demonstrations. Kentucky farmers still produce and process at home most of their pork supply, and considerable beef and lamb. Last year, it was estimated that 600,000 hogs were butchered on the farms of the state. According to a survey made by Grady Sellards, who conducts the pork-cutting demonstrations for the college, farm families butcher more than one hog per member. For instance, he canvassed 11 families with 42 members and found that they butchered 45 hogs last year.

Pork lends itself to home processing, Mr. Sellards pointed out, and its flavor is of universal appeal. Lard is the shortest of all shortenings, he said, and is a third more shortening than some of the vegetable products on the market.

We say we dislike flattery but there are a lot of us in Boone County who don't mind listening to it.

If you don't think time flies, buy something on the installment plan.

Lutheran Church. He possessed many sterling characteristics. He was always ready to help those in need and loved his neighbors. Surviving him are his wife, three sons, Thomas, Kenneth and Arnold Easton, four daughters, Mrs. Namol England, Mrs. Sallie Prather, Mrs. Lula Tanner and Mrs. Millard Snow one sister and seven brothers and a number of grandchildren. Last rites were impressively conducted at the Hopeful Church Friday afternoon in the presence of a vast assemblage, by his pastor, Rev. H. M. Hamter, with burial in the "Hopeful cemetery."

"So live that when thy summons come to join that innumerable throng which moves to that mysterious realm where each shall take his chamber in the silent halls of death, that we may be sustained and comforted by an unfaltering trust and approach the grave as one who wraps the drapery of his couch about him and lies down to pleasant dreams."

Our heartfelt sympathy goes out to the bereaved ones in their sorrow. 'Twas hard to part with one so dear But God who knows best, Held wide his loving arms and said, "Come unto me and rest."

PETERSBURG HOMEMAKERS

On November 14th the Homemakers' Club met at 10 o'clock at the school house for their all-day session, with 20 members and five visitors present.

Mrs. Mathews, the vice chairman called the meeting to order after the business meeting, roll call and treasurer's report. The secretary read a letter from the county secretary, thanking the club for their help with the home-makers Revue. Mrs. Watts gave a talk on the Red Cross work and asked for help to make dresses. The motion was made and carried that the club take membership with the Red Cross.

Miss Mary Rector gave a good talk on "Landscaping" and reviewed the last lesson with the members answering the questions.

Miss Gladys Kloppe gave a very interesting talk on "Home Storage and Home Canning of Meats."

A delicious lunch was served at the noon hour. At 1:30 the meeting called to order and turned over to the leaders, Mrs. Ralph Montgomery and Miss Johnnie Mae Terrill, who showed some beautiful work done with leather.

The Petersburg and Bullittsville clubs will meet at the school house in Petersburg on Nov. 26th at 1 o'clock for some leathercraft work.

The leaders gave the lesson on dyed leather and transferring patterns on mats to be hooked.

The next meeting will be Dec. 12 at the home of Miss Jo Anna Gordon. There will be a Christmas program put on by Mrs. J. B. Berkshire, the program conductor.

Secretary.

Each member worked out their design and colors and are ready to start hooking at our next meeting Dec. 18th, at home of Mrs. Owen Sprague. Our Christmas party will also be held that day.

A DECLINE HERE

And so the movies aren't feeling so good! There was a severe headache when they added up the attendance for this last year and found they were 15 million souls short. When such a figure causes concern in an industry where millions of the words colossal, gigantic, stupendous are tossed about lightly, then this matter amounts to something.

One leading producer says it is the double feature which has hurt, another remarked that the prices and gifts and banks that are offered too freely at many movie houses causes the running of poor grade pictures in order to meet the expense. The complaint that the drop was due to weak productions could not hold true with the number of splendid attractions offered the public. Could it be that the cost of seeing many movies has a bit to do with the falling off? Not knowing the finer points of the business we offer this as a suggestion that need not be taken seriously. We were wondering if it wasn't possible to cut down on the lavishness of the sets, the tremendous cost of costumes and all those heavily expensive features in movie-making, of not paying so much for the "backdrops" but still using strong stories and splendid talent and still coming out ahead. It is that the public demands extravagant displays costing in the millions to produce, rather than have a lower entrance fee and see good portrayal of an interesting story without quite so much of the "extras." Perhaps we should go back to our type-setting and let the producer figure it out, for after all he is going to work it out the best for the public for the public is his corn-beef and caviar.

THEY'RE PERKING UP

This isn't meant to be impolite when we repeat the very old wheeze of "every dog has his day." The folks who are in the business of hair-dressing, manouevring, massaging and selling cosmetics, tell us that during this next year "the competition for men will be something fierce." There is expected to be a 300 percent increase in cosmetics and hair-does than last year. It seems that with Uncle Sam calling a number of the eligibles from the field, the ladies are going to have to extra dolling up to attract those whose numbers haven't come up. This is probably good news to the trade from a business

stand point, and is no doubt equally interesting to some of the chaps in Boone County who are in line for the feminine onslaught.

HOME-MADE

We expect to see more "Made in America" toys this year at Christmas than never before. This creates added employment for adults and more Americanized toys for children.

American toys have always been more sturdy in construction than the Japanese and German made toys. A buyer in children's things hinted of the very attractive toys we shall see this gift-tide. She said that to her every American teddy bear had the same expression and that the majority of dolls were not as delicate in appearance as the dolls cherished by the English children. A number of the English refugee children are helping to design dolls and bears and soldiers for the Christmas trade and the results are very pleasing and different.

LONGER LIFE

Perhaps we haven't considered it, feeling secure in our knowledge that medicine and science has been advancing yearly in controlling the epidemics of illness that visit young and old. But have those older residents of Boone County stopped to realize the fewer contagious disease signs that make their unhappy way to house fronts? Signs of diphtheria, scarlet fever, measles, which warned that too many children were not growing up. The mortality rate of children between the ages of one to fourteen has been cut in two so that it is only one-fifth of what it was 30 years ago. The aforementioned diseases have been principally the ones reduced. Influenza and pneumonia have come in for their share of medical attention and discovery. If we could make living conditions as favorable in proportion we can really make for longer lives for our young.

HAS 15-YEAR RECORD IN USING LIMESTONE

Fifteen years ago, at the suggestion of County Agent John E. McClure, Frank Bertke, a Daviess county farmer, used his first wagonload of limestone on his 90-acre farm near Owensboro. Results were so satisfactory that he has continued to use limestone each year, until his whole farm has been covered and he is starting to lime it again. He also used considerable amounts of phosphate. A practice regularly followed is to apply superphosphate in the fall and then sow red clover in the spring.

GARDENS HELPED NEGRO FAMILIES

Checking up on the year's "live-at-home" program among Negro families in Christian county, Kentucky, Runyon Story, the Negro farm agent, says that "everywhere we went we saw pantries filled with colorful jars of fruit, vegetables and jellies." One family had 425 quarts of canned foods, and another 345 quarts. Many families grew all the white and sweet potatoes they will need.

Lawrence Owens, a 4-H club boy, took over the family garden when his mother became ill. In a space 50 by 100 feet he grew vegetables for the family for the summer and 106 quarts to can. Two rows of pole beans furnished 15 gallons for table use and 15 gallons to can.

NUMBER 27

RAPE CHARGE IS DISMISSED

AGAINST ESTEL FUGATE WHEN PROSECUTING WITNESS FAILS TO APPEAR AT EXAMINING TRIAL

Estel Fugate, 19, of the Woolper neighborhood, Boone County, was dismissed Wednesday, at an examining trial held in Judge Riddell's court. Fugate was charged with rape of a three-year-old girl. When arraigned in Judge Riddell's court, Fugate pleaded not guilty, and upon failure of the prosecuting witness to appear against him, the case was dismissed.

Fugate was arrested Monday, December 18th by Sheriff F. M. Walton after a warrant had been signed by Pete D. Ray, father of the alleged victim, who also resides in the Woolper neighborhood.

According to reports the crime was alleged to have been committed the early part of November in the town of Petersburg.

The youth was also charged with giving the victim gonorrhea. However, after being examined by Dr. M. A. Yelton, of Burlington and Dr. McKim, Cincinnati specialist, both doctors reported that the youth was free from any venereal disease.

Two Wills Probated In County Court Mon.

The will of R. S. Cowen, Burlington, was probated in County Court Monday, Dec. 2nd and Robt. Clore qualified as administrator of the estate.

The will of Ambros Easton, Florence, was also probated in court Monday, Dec. 2nd, and his wife, Lennie qualified as administratrix.

Supper Planned By Local M. E. Church

A supper will be given Saturday night of this week at the Woodmen Hall, Burlington for members of the local Methodist Sunday School. Mr. Norris' class will be host to the remainder of the Sunday school, the result of a contest recently held. Supper will be served at 6:00 p. m. and all members of the Sunday School are invited.

BIG BONE BAPTIST Y. W. A.

The Y. W. A. of the Big Bone Baptist Church held its regular monthly meeting at the home of Miss Anna Jean Love Thursday night, Nov. 28.

Plans were made to present a program at each of the homes of the aged members of the church at Christmas time.

The next meeting will be held at the home of Miss Gypsy Clifton, Thursday night, Dec. 26, 1940. All members are requested to be present as new officers will be elected.

817 APPLICATIONS ARE COMPLETED

FOR 1940 CONSERVATION PAYMENTS—1084 APPLICATIONS WILL BE FILED IN THIS COUNTY UNDER 1940 PROGRAM.

Applications of 817 Boone County farmers for payments earned under the 1940 Agricultural Conservation Program have been completed, leaving only 267 yet to be completed. Mr. Mark Cook, chairman of the County Agricultural Conservation Association, announced today.

Most of the applications which have not been completed lack only the signatures of farm owners and tenants, he said.

According to reports from the State AAA office in Lexington, more than 49,000 of the 1940 payment applications have already been audited and forwarded to Washington where they are certified for payment. Eight county offices had received some of the 1940 checks for distribution to farmers up to October 19, Mr. Cook said. No applications had been forwarded to Washington at this time last year, and only 22,000 had been received by the State office on October 19, 1939, as compared with more than 58,000 on that date this year.

It is estimated that approximately 1084 applications will be filed in the County under the 1940 program.

Union Man Named Chairman For Boy Scout Camp Committee

Ben Tanner, Union, was appointed chairman of the Camp Committee for Northern-Kentucky Council of the Boy Scouts of America, it was announced last week by Scout officials.

Mr. Tanner has been active in Scout work in this section for many years, and is therefore well qualified for this position.

Other members appointed were Henry Fahlbusch, A. S. Brauch, Irvin Bauer and Robt. Pfahler. This new Camp Committee will serve as a subcommittee for campaign activities of the Council.

Mrs. Lou Early

Mrs. Lou Early passed away at her home in Petersburg Sunday evening, following an illness of diabetes and heart trouble.

She is survived by one son John Early, of Indiana and a number of other relatives.

Mrs. Early was well known in the Petersburg neighborhood and her passing will be mourned by the entire community.

Funeral services were conducted from the Petersburg Christian Church Tuesday afternoon at 2 p. m. by Rev. Edgar C. Riley. Burial was in Bullittsburg cemetery.

Chambers and Grubbs were in charge of funeral arrangements.

LARGE RETURNS IN CROP YIELDS

SHOWN FROM USE OF LIME AND PHOSPHATE ON TWENTY-SIX BOONE COUNTY FARMS THIS YEAR.

Applications of lime and phosphate have given large returns this year on twenty-six Boone County farms with T. V. A. demonstrations according to H. B. Drake, Assistant County Agent.

One hundred and nineteen demonstrations on these twenty-six farms were checked for yields received. The hay yields were as follows:

Average Yield in Pounds Per Acre

	Untreated	Treated
Alfalfa, untreated, 2,625; lime, 3,814; phosphate, 3,590; lime and phosphate, 4,337.		
Redtop and timothy, untreated, 1,625; lime, 2,012; phosphate, 2,117; lime and phosphate, 2,348.		
Grass and legume hay, untreated, 1,671; lime, 2,088; phosphate, 2,288; lime and phosphate, 2,635.		
The importance of using these two fertilizing elements together is again stressed by a comparison of the above figures.		
Many of the farms having T. V. A. demonstrations have been using the demonstrations areas for pasture. Operators were asked to estimate the acres of untreated pastures required to carry one cow during the summer months and the acres required after treatment has been given. The following figures were established for each of the farms listed:		

	Untreated	Treated
J. J. Kloppe	2.7	1.65
T. C. Bonar	2.7	1.6
W. G. Kite	3.5	2.0

Rev. Hensley Heard At Bellevue Baptist Church Wednesday

Rev. H. B. Hensley, of Ft. Worth, Texas spoke at the Bellevue Baptist Church Wednesday night, December 4 at 7 p. m. Quite a large crowd was in attendance at this service.

Immediately following the service a business meeting was held by church members.

INSURANCE CO. ELECT OFFICERS

HUBERT CONNER NAMED PRESIDENT—IS ONE OF LARGEST MUTUAL COMPANIES IN KENTUCKY.

At a meeting of the Farmers' Mutual Fire Insurance Co. of Boone County, held at their office Monday, new officers for the ensuing year were named. Hubert Conner was named president; Hugh Stephens, vice president; F. H. Rouse, secretary; L. R. Barlow Agent, and H. L. McGlasson, Hugh Stephens, and J. W. Conley were named as the executive committee.

The Farmers' Mutual Fire Insurance Company operates only in Boone county, but is said to be one of the largest of its kind in the State, and is twice as large as other companies in adjoining counties, who take in as many as five counties.

At the present time the company boasts \$5,146,700.00 of insurance in force.

During the past several years the company has shown steady growth, and no doubt has saved many dollars in insurance premiums to farmers and property owners throughout the entire county.

Additional Aid Is Rushed China

A supplementary shipment of large quantities of gauze, cotton, aspirin tablets and sheeting for relief in free China is now enroute to Rangoon, the American Red Cross announced last week.

Previous shipments in the past month sent by the Red Cross included 500 tons of foodstuffs and medical supplies. Aboard the S. S. Express, which has cleared New York, is 650,000 aspirin tablets, 1,000,000 yards of surgical gauze, and 500,000 yards of cotton sheeting and drill. Supplies are being distributed by three Red Cross representatives recently arrived in China.

On The Sick List

Judge N. E. Riddell has been spending the past few days in Christ hospital, being treated for a cold. He is reported much improved.

Wilton Stephens, County Tax Assessor suffered injuries to his back and foot, Sunday morning, when he fell from the top of his barn on his farm near Burlington. He is reported to be improving at this time.

Harold Congleton, son of Mr. and Mrs. Lamar Congleton, is able to be about, with aid of crutches from the hospital Thursday afternoon and is reported to be recovering rapidly.

Roscoe Akin, patient at Christ hospital, is reported to be improving nicely and is expected to be returned home in the near future. His foot was badly injured when he kicked into a cutoff saw at the farm of his parents several weeks ago.

Governor Johnson Endorses Bible Sunday

Frankfort, Ky., December 4—Governor Keen Johnson endorses the observance of Universal Bible Sunday in the churches of Kentucky on next Sunday, December 8.

Since the Bible is the one international book, having been translated in its entirety into 183 different languages and some part of it into a total of over 1,000 tongues, the American Bible Society has chosen for the theme for Universal Bible Sunday this year, the timely and appropriate phrase from the Bible, "For the Healing of the Nations." Tens of thousands of pastors will observe the occasion in their pulpits and parishes, calling particular attention to the grave responsibility which

Dairy Feeding School Set For December 11th

Boone County dairymen will hold a one-day dairy feeding school at Burlington Wednesday, December 11th, between the hours of 9:30 a. m. and 3:00 p. m., according to H. R. Forkner, County Agent. George Harris, Dairy Field Agent of the College of Agriculture, will be the principal speaker on the program.

Feeding is one of the most important factors in profitable milk production. Feed prices and feed quality are always changing factors that require careful study by the leading dairymen. The school, coming just at the beginning of the winter feeding period makes it doubly important for all dairymen to attend.

Forty-Eighth Birthday Celebrated Sunday

Sunday, December 1st being Mrs. John Aylor's birthday, several relatives and friends gathered at her home while she was attending to her duties to render her a surprise. Each brought plenty to eat and the desire to have a pleasant day together. At the noon hour the table was loaded with the goodies and a beautiful birthday cake.

The afternoon was enjoyed by singing beautiful old hymns and talking.

As everyone departed for their respective homes, they expressed the desire to be together again in the near future.

Those enjoying the occasion were: Mr. and Mrs. Melvin Moore and son Junior, Mr. and Mrs. John L. Jones, Jr., and son Lloyd, Miss Norma Powers, Mr. and Mrs. Harry F. Jones, Miss Lena Binder, James and Mary Lou Jones, Mrs. Helen Herring, Mrs. Anna Townsend and son Duane, Mrs. Katherine Newhouse and daughter Joan, Mrs. W. D. Cook, James Cleveland, Dr. and Mrs. Ludwig Benke, Mr. and Mrs. Jim Aylor, Mr. and Mrs. K. W. Aylor, Mr. and Mrs. Joe Aylor, Mr. and Mrs. R. L. Aylor and daughter Betty, Mr. and Mrs. Wm. V. 1940 Wheat Loans Total \$377,485

Wheat loans totalling \$377,485 have been made to Kentucky farmers on the 1940 crop up to November 12 by the Commodity Credit Corporation, the State AAA offices announced. A total of 1,273 loans have been made.

Farmers of the State stored 494,470 bushels of their 1940 wheat crop as collateral for the loans. This wheat is stored in 17 State warehouses which are approved by the corporation.

The deadline for making loans on the 1940 crop is December 31, 1940.

KNIGHTS WIN IN OVERTIME PERIOD

DEFEATING BURLINGTON BY SCORE OF 42-40—HAMILTON TAKES MEASURE OF NEW HAVEN FIVE.

One of the best basketball games of the season was witnessed by fans Friday night at the Burlington gym, when Florence Knights defeated the Burlington five by a score of 42 to 40.

At the close of the first quarter, Burlington was leading the visitors 8-7 and at the half was still leading 20 to 19. However, at the close of the third quarter Burlington was trailing by a 30-28 score and at the close of the game the score stood 40 all. In an overtime period the Knights tossed a field goal to win the game.

Florence was high point man for the Burlington team with 19, while Sullivan led the attack for the Knights with 15.

In the reserve game Florence defeated the locals 19 to 18, this game also going into an overtime period.

Friday night Burlington will play Beechwood at Beechwood and Saturday night will meet Dixie Heights at Dixie.

Friday night the Burlington Independents defeated the Florence Independents five 35-25.

New Haven went down in defeat Friday night at the hands of the Hamilton Farmers on the Hamilton hardwood by a score of 35 to 25. Williams was high point man for the winners with 15, and Shields was high point man for the losers with 10.

The Hamilton reserves also won their game by a score of 27 to 25.

Last Friday night Lloyd defeated Hebron on the Lytle floor by a score of 37 to 10. The Lloyd reserves defeated the Hebron lads by a 21-13 count.

This week Hebron will play Ludlow at Hebron Friday night and travel to New Haven for a conference game Saturday night.

Silver Grove trounced the Burlington hoopers Wednesday night of last week on the winner's floor by a 36-19 count. Brown was high point man for Silver Grove with 23 and Shields was high for Burlington with nine.

The Silver Grove reserves also defeated the locals by a 25 to 16 count.

Walton Beards defeated the Warsaw Basket ball team Tuesday night of last week by a score of 25 to 20 on the Walton hardwood. The Walton boys led all the way. Simpson, Walton guard, led the attack for the winners with 11 points.

Walton's reserves won easily over the Warsaw second stringers by a 25-11 score.

Saturday night, the Florence Knights visited Dixie Heights, to go down to defeat at the hand of Coach Boyd Mahan's quintet by a 63 to 12 score. The Dixie team took an early lead which the local boys were never able to check.

False Reports Are Circulated Regarding Residence Of Lents

It has been reported that R. V. Lents, Chairman of the sale of Tuberculosis Christmas Seals in Boone County is a resident of Kenton County and the sales in this county will help Kenton. Mr. Lents is the principal of Constance school and resides 44 Constance Boone County, but receives his mail on Route 2, Ludlow, Ky.

All seal sale money sent to Mr. Lents is for the benefit of Boone County. Help stamp out tuberculosis by buying these little seals. This is the only means of aiding this cause, as no dinners, dances, etc., aid this organization, like some other organizations receive aid.

FOUR-H TOBACCO SHOW PLANNED

SIXTY-EIGHT TOBACCO CLUB MEMBERS TO PARTICIPATE IN SHOW AND SALE JANUARY 13 OR 20 AT COVINGTON.

Sixty-eight Boone County 4-H tobacco club members are looking forward to the annual tobacco show and sale to be held at the Kenton Loose Leaf Warehouse, January 13 or 20, according to H. B. Drake, Assistant County Agent. The show will be held on Sunday with the sale on Monday. All tobacco project members in the county are eligible to show their crop at this event.

Members are being urged to strip and sort their crops very carefully. All tobacco is to be stick sorted before it is loaded for delivery to the warehouse as the warehouse managers will not accept unsorted tobacco. Each member will be allowed four toy six baskets for placing his crop on the floor. Additional information concerning this show may be obtained from the County Agent's Office.

If You Should Lose Your Clothes In An Air Raid

Thus is a story headed, in the Birmingham, England "Gazette," of which a clipping has been received by the Lexington headquarters of the American Red Cross and transmitted to the local Boone County Chapter. "If you lose your clothes in an air raid you may be supplied with some of American manufacture and design," the story states. "I understand a large quantity of American clothes has recently arrived in this country, and is being distributed to rest shelters in different parts of England and Wales. The clothes are the gift of the American War Relief Fund and the American Red Cross. They have been sent to replace any that are lost in raids."

Some of these clothes were made by the women of Boone County, according to a statement made by Mrs. Marvin L. Dyer, War Production Chairman of the local Red Cross Chapter. To date, Boone County has prepared and shipped women's dresses, young ladies' dresses, children's dresses, boys' shirts, shawls, and operating gowns.

247 ARE MAILED QUESTIONNAIRES

BY LOCAL DRAFT BOARD—BOONE COUNTY TO HAVE 15 READY FOR SERVICE BY JANUARY 1ST.

The local Draft Board announced this week that the first 20 percent of the questionnaires have been mailed to young men of Boone County who come under the Selective Service Act, and that 247 out of 1187 men registered should have their questionnaires.

The Draft Board met Tuesday night, December 3 for the purpose of classifying the questionnaires already received and report that 30 persons have been classified and have notice of their classification.

In an effort to have fifteen men ready for service from Boone County by January 1st, all young men who volunteered for service have been ordered to appear for physical examination the latter part of this week. It has been recommended by Washington officials that each Draft Board have 6 percent of all 100 men registered ready for call by January 1st. This County will have approximately 15 men ready by that date.

Francis Souther, Burlington, is the only Boone County boy who has been sent for service. However, it is expected that more will be called in the near future. Souther was one of the first men to volunteer for service in this county.

Kaelin-McEvoy

Miss Margaret Kaelin, Danville, Ky., and Mr. Wm. E. McEvoy, Florence, were quietly united in marriage at Danville, November 23.

Miss Kaelin is the daughter of Mr. and Mrs. Frank Kaelin, of Danville, and received her education in Louisville and New York. Mr. Kaelin operates a meat packing plant in Danville.

Mr. McEvoy is well known throughout the county and has been assistant cashier of the Florence Deposit Bank for some time. He has taken an active part in social and political activities of the County and has been secretary of the Young Men's Democratic Club for the past year.

Rev. Plandus of the St. Peter and St. Paul Churches, Danville, performed the ceremony, after which the young pair left for a short trip through the South.

The newlyweds are making their home in Agnes Acres' apartments Dixie Highway, Florence, and have the very best wishes of their many friends in Boone County.

COVINGTON MART OPENED TUESDAY

WITH 175,000 POUNDS OF TOBACCO ON FLOOR—AVERAGE BELOW OPENING SALES LAST YEAR.

Covington's burley tobacco market opened Tuesday at 9 o'clock at the Kenton Loose Leaf Tobacco Warehouse, Second Street and Scott Boulevard.

R. G. Kinman, official auctioneer of the Kenton Loose Leaf Warehouse started his chant at nine o'clock selling 123,911 pounds during the day for an average of \$15.33 a hundred. Quality of offerings was said to be very poor.

Warehouse officials expressed belief that the market this year would be stronger than last, although the volume of tobacco is expected to be less. On opening day last year, December 12, 197,320 pounds of tobacco were sold for an average of \$10.98 a hundred. Lexington tobacco market opening Monday with the sale of 1,417,200 pounds, selling an average of \$19.98 a hundred pounds, an increase of \$2.43 over the \$17.55 on opening day last year.

The volume was less than half the 3,658,236 pounds of the inaugural sale last year, but exceeded that of the previous year when 358,868 pounds moved at an average of \$21.95.

The high basket on the Lexington market opening day brought a fraction more than \$23, and the lowest \$4.00.

RATIONING IN REALITY

Before Germany undertook to change the economic set-up of Denmark, the Danish people were able to carry on trade in a free and profitable way. They were proficient in raising enough food for their consumption, of producing enough to supply the national hunger and that outside their country. Since the introduction of the Nazi policy, the Danes have altered their way of living and principally of eating. People of the former illustrious state of Denmark are killing one million of their pigs, which is one-third of the total number, because they have nothing to feed the pigs. The former wise system of Danish housekeeping has undergone a change in papering and carpeting.

The fishing industry of Norway is crushed due to the need of oil and gasoline by Hitler's war machine. No fish to supply a hungry people because they can't run fishing boats. Poultry is scarce, eggs are a rarity and there is little flour remaining.

In the land of the Swiss, where milk, butter and cheese gave the Swiss a name famous in dairy products and its herds, the influence of the Nazi hand is felt. Where there was much to spare in the

country of the yodel for themselves and neighbors the Swiss now must ration their milk, butter and cream. A family of three will have one pound of butter a month and cream cannot be sold. And it goes on and on. Just bear this in mind as you sit down to your dinner table.

BILL OF RIGHTS

A mid-western university has established a course, open to the interested public, as well as for the student body of the school, in Americanism by enlightening the citizenry on subjects of the Constitution, amendments, Monroe Doctrine, governmental functions and so on. They start out the course with an interpretation of the Bill of Rights.

December marks the 151st anniversary of the adoption of the Bill of Rights. As you already know, the Constitution had no amendments when it was accepted, but later when the need for such arose, there were 10 amendments added that became a part of the Constitution legally and were known as the Bill of Rights.

The Constitution is the very body of our government, but it is remarked that the Bill of Rights is the soul of our government. They are what their name states. These amendments give the body its life, its blood, its heart-beat. After living under it for 151 years the Bill of Rights has withstood the storm and served the staunch support of every American.

DECEMBER

Back when the Emperor Julian formed a calendar for computing time, December was the tenth month of his year, as its name implies. Since that time the calendar itself has been changed, but the name of December remained although it became the twelfth month of the year. The winding up of another 52 weeks. We usually feel the importance of January because it is starting us out on another voyage, but December is more important as it is a time of reckoning of what we have left undone, what we have accomplished in the past year. Then is when

we should review our accounts and take inventory. December is so full of holiday festivity in Boone County that we are so busy shopping and preparing for Christmas that in keeping the festive spirit alive we are closing the last page in our life's year book.

NO NOBEL PRIZE

An important date is December 10, which is the birthday of Alfred Nobel, a Swedish chemist who, through his invention of dynamite, collected a fortune that was bequeathed to mankind, upon his death in 1896. His estate of about \$9,000,000 was established as a fund in the interest of science, literature and peace. Each year the Nobel awards are made to those persons who have contributed the most in these lines in the past year. For the edification of mankind they are known as the Nobel Prizes and administered by Sweden through a board of Swedish directors and residents of Stockholm. The prizes approximate \$40,000 in money and untold worth in distinguished service to humanity. Sweden is now the prisoner of Hitler, and knowing his effective way of making the most of a situation, we are wondering who will get the awards.

THE PECAN CROP

Come the new crop of pecan meats to a tasty public, a market with an appetite for goodies. With this crop comes the news that it will be the second largest one in our history.

As in other lines the machine has replaced a great deal of the hand labor that used to shell these pecans and if the worker was quick he might shell 12 pounds of nuts in a 10-hour day. In one plant where machinery is used 145 pounds can be shelled in 8 hours. It used to cost 18 cents a pound for the entire operation when the shelling was done by hand, while today it can be done by machine for five cents. As elsewhere, there is always hardship and unhappiness where the machine replaces labor, but the pecan grower is alive to the problem and is working out the issue in a most helpful way. With this increase in the pecan crop many a home will have a delicacy for pies and pralines that they have not had too frequently in the thinner years.

STRENGTH IN UNITY

Whoever was elected to the important post of our country's president, those same stars that shine will continue to do so, be the administration Democratic or Republican. The brightness of those stars are no brighter for the victor than for the vanquished. The sun is no warmer unless it shines on a unified people. Being American before we are pledged to party, we will now put our strength into helping right the good right—whether. Whoever wins election knows that he wasn't the choice of all of the people, only of the majority. May, through wisdom, tolerance and justice, the various sides join in holding the country intact from dissatisfaction, weakness and destruction. We stress the importance of the working-together of all Americans for not only the good of the country, but for their own personal happiness. This country has been faced with period before, that was what tempered and steeled the forebears to make us an America. Their strength came when they found unity within and this has not changed with the years.

OUR IMPORTANCE

When trying to dial a favorite radio program and the air is crowded with big talk and loud music that drowns out your station and twisting the dials only makes matters worse, then is when you complain that all a fellow needs these days to start a broadcasting station is a coffee pot and a length of wire!

But with all of the listed radio stations in the U. S. there are only 21 stations located in towns under 10,000 population. There are 3,084 counties in the land and of these 2,457 include no town of over 10,000 population. Subtract the 21 and you can figure on 2,466 counties that have only one way of imparting the local news to the weekly newspaper. When you realize that 58.6 percent of the total U. S. families live in small towns or rural areas, you can appreciate why the weekly newspaper feels important.

After a man spends a couple of hours trying to start the furnace fire, try and convince him that it's possible to start a forest fire with a cigarette.

IMPROVED
UNIFORM INTERNATIONAL
SUNDAY SCHOOL LessonBy HAROLD L. LUNDQUIST, D. D.

A GOOD NEIGHBOR

LESSON TEXT—Luke 10:25-37.
GOLDEN TEXT—Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind; and thy neighbor as thyself.—Luke 10:37.

What shall I do? These words fall from the lips of a Pharisee, the minds of millions of men and women each day.

Never does the question go more deeply than when it concerns man's soul. It is a question that does not have a lesson. Always the question indicates that man is not able to decide for himself, and needs the guidance of someone greater and wiser than he. It should lead us back to God for only He can fully answer it. The good neighbor story of our Lord tells us

I. What to Do to Have Eternal Life (vv. 25-28).

The lawyer (a student of the law of Moses and hence a theologian rather than an attorney) was posing a question to try to entrap Jesus. He was apparently not much concerned about eternal life and assumed that it could be obtained by doing something. We know that eternal life is a gift (John 1:12; Rom. 8:29), but if the man wanted to have it by doing, Jesus was ready to meet him. In response to Jesus' question (v. 26) the lawyer gave him what the Jews regarded as the summary of the whole law.

The man who can perfectly keep that law will have eternal life, declares Jesus. But note that you must do it, not just talk about it. And you must keep the whole law, "for whosoever shall keep the whole law, and yet stumble in one point, he is become guilty of all" (James 2:10, R. V.; see also Gal. 3:10). We see then

II. Why It Cannot Be Done by Man (v. 29).

The lawyer's effort to justify himself by diverting attention to the Pharisees' fault, which he felt needed definition, showed that he could not do the thing expected of him. The reason for man's failure lies primarily in his own weakness and inability to keep the law's requirements, but is also revealed in his pitiable and futile efforts to justify himself.

The one who seeing his sinfulness and his utter inability to keep God's law casts himself on the Lord and is ready to receive the gift of eternal life; but the one who tries to defend his position and justify himself has shut out God's grace and mercy (see Luke 18:9-14). Let us see

III. How Christ Does It for and in Man (vv. 30-37).

The parable of the Good Samaritan answers first and finally the question, "Who is my neighbor?" by making it clear that anyone who is in need, regardless of race, social position, condition or religion, is our neighbor. The priest and the Levite doubtless had plenty of excuses for not helping the wounded man, but let us remember that excuses, while they may count with men, mean only our condemnation in the presence of God.

It was the spirit of Christ that made the Samaritan show a compassionate and sacrificial interest in the needy man. Only Christ can make you and me like that; His love in the heart is the only "good neighbor" principle that will ever work.

But Christ not only enables man to be a good neighbor, He is in fact the true Good Neighbor Himself; He is the Good Samaritan. "Jerusalem is the city of God; Jericho represents the world. The traveler is the type of humanity. Man has fallen in the awful road which leads down; fallen among thieves and is naked, wounded, helpless and hopeless. The failure of the priest and the scribe to help illustrates the inability of the law and the old ordinances to save. The Good Samaritan is the Lord Jesus Christ. He came to the place where the lost are and He alone could have compassion on them. The wine typifies His precious blood He shed to save us. The oil is the type of the Holy Spirit, who applies the blood. He takes care of fallen man found by Christ. The inn is typical of the church, where the Lord through His Spirit cares for His own. The two pence are the typical of two sacraments, but speak of the reward which those receive who under the Holy Spirit care for souls. The promised coming again with a greater reward offered in the second coming of our Lord" (A. C. Gaebelein).

Two truths stand out in our lesson. There is such a thing as being a good neighbor by the grace and blessing of God, and if we are followers of Christ we should be real neighbors. Then there is the One who is Himself our Friend and Brother, the One of whom we sing: "He washed the bleeding sin wounds And poured in oil and wine; He whispered to assure me, 'I've found thee, thou art Mine.'"—(A. J. Gordon)

One thing about living in a light-house, you don't have to be so particular about the shade being blown down when you undress. You don't really need a recipe for hash, all you require is an accumulation.

DIESEL-ELECTRIC PASSENGER TRAINS

PURCHASED BY SOUTHERN
Washington—Announcement was made last week by Southern Railway System of the purchase of four Diesel-electric streamlined passenger locomotives of 2000 horsepower each, for use on "The Crescent," Southern Railway trains Nos. 37 and 38, between Washington and Atlanta, and on the "Ponce de Leon," trains Nos. 1 and 2, between Cincinnati and Chattanooga. The two locomotives for "The Crescent" have been ordered from Electro-Motive Corporation, and the two for the "Ponce de Leon" from the American Locomotive Company. Delivery of the engines is expected around the first of January.

Each locomotive will consist of two 2,000 h. p. units—coupled together, and the motive power in each unit consists of two 1,000 h. p. power plants consisting of Diesel engine and electric generator. Each unit is provided with four traction motors mounted on the trucks, making a total of eight motors furnishing the tractive power for each 4,000 h. p. locomotive.

The locomotives have a nominal weight of 300 tons, have a starting tractive effort of 100,000 pounds and can be operated at speeds of over 100 miles per hour. This equipment will have the most modern fixtures and appliances, including electric pneumatic brake equipment for operation with speed governors, insuring the smoothest braking action possible, and will be equipped with automatic train control. In addition to regular headlights, each lead locomotive will be provided with a Mera figure eight, oscillating signal light for road crossing warning.

"The Crescent" is one of the most popular all-Pullman trains in the country and has been in service between New York and New Orleans, first as the "New York and New Orleans Limited" and later as Nos. 37 and 38, for more than a half century, while the Ponce de Leon has operated all-year round between Cincinnati and Jacksonville almost as long. When the powerful and speedy Diesel locomotives are placed in service, it is anticipated that the schedules of these trains will be speeded up, thus shortening the running time between Washington and Atlanta and between Cincinnati, Chattanooga, Atlanta, and Jacksonville.

"These locomotives will be delivered and in service early in January," according to the announcement, "preceding The Southern and The Tennessee, Diesel-powered streamlined deluxe coach trains which Southern Railway Company have under construction and which are scheduled to go on between New York and New Orleans and Washington and Memphis in March, 1941."

BIG CROP ACREAGE FREED BY TRACTOR PRESENTS PROBLEM

How to handle big crop acreages released by the introduction of the tractor, truck and other mechanical equipment is one of the big problems of agriculture, points out L. A. Vennes of the markets department of the University of Kentucky College of Agriculture.

There are 3,600,000 tractors on farms in the United States. Their use, together with trucks, have displaced 10,000,000 horses and mules, says Vennes, and released from the production of corn, oats, hay, grass and other feeds, 30,000,000 acres of crop land and 15,000,000 acres of pasture and hay land, or an area twice the size of the farm land of Kentucky and five times the area of the harvested crops of Kentucky.

If farmers buy 50,000 more tractors, in the next 10 years, Vennes says they will replace another 1,500,000 head of work stock and release another 3,500,000 acres from the production of grain, 2,300,000 acres from the production of hay, and 2,400,000 acres of pasture.

At the same time that fewer horses and mules are reducing the need for grain, hay and grass, the introduction of higher yielding crops is aggravating the crop surplus situation, Vennes adds. When 80 percent of the corn acreage is planted to hybrid varieties, he estimates that total production of corn in the United States will be increased by 220,000,000 bushels.

"All these developments," Vennes continues, "are a step in the direction of greater efficiency and lower production costs per acre, but they raise a very great marketing problem. At the same time that improvements are increasing the productive capacity of our national agricultural plant, international developments have reduced our export outlets to a minimum. However, domestic demand is expected to be at a higher level during the next few years, and it seems farmers can rely upon the domestic market as a satisfactory outlet for much of their products. However, growers of dark tobacco, cotton and wheat will probably have to reduce their production to a level more nearly in line with domestic requirements by the substitution of the production of domestically consumed products."

About the only way a woman can get money out of some husbands without having to ask for it, is to divorce him.

FLORENCE HOMEMAKERS

New vegetables grown and canned this year, was the roll call answered by 21 Florence Homemakers, at their regular monthly meeting November 28th.

Color schemes and dyeing of rags for hooked rugs was the subject of the major project lesson, given by the leaders, Mrs. Gertie Fossett and Mrs. Adrienne Smith.

The club discussed plans for helping others at Christmas time, and the President, Mrs. Lorie Morlith, named the committees for the Christmas party, which will be held at the town hall on Friday evening, December 26th. Mrs. Francis Berkshire and Mrs. Geneva Arnold, refreshments; Miss Jane Scott, Mrs. Sarah Sayre and Mrs. Virginia Goodridge, entertainment; Miss Stella Loline and Mrs. Pearl Baker, decorations; Mrs. Mabel Sayre was named Parliamentarian.

The second leathercraft meeting was held Monday, December 27. Seven members took the lesson given by Mrs. George Kobman. She was assisted by Mrs. Vernon Pope from the Burlington club.

The next regular monthly meeting will be held Thursday, December 19, at the Town Hall.

BULLITTVILLE HOMEMAKERS

A very interesting meeting of the Bullittville Homemakers was held Wednesday, Nov. 27 at the home of Mrs. Ray Hill, with 17 members and two visitors present. Mrs. Chas. Engle presided at the business session.

Mrs. Sam Roberts gave some suggestions on Christmas decorations that can be made easily with small cost.

Mrs. Jonas Stevens, Mrs. A. B. Ligon and Mrs. Jeff Hornsby are aiding Mrs. Engle in collecting fruit, candy, etc., for the Christmas baskets that we plan to distribute to needy families of this community. Another way we plan to try to give Christmas cheer is by giving a "card shower" for an invalid.

A delicious lunch was served at the noon hour.

Mrs. J. R. Williams gave a report

on the "Meat Canning and Canning Demonstration," which was held recently at Lloyd Sleeman's. Mrs. Carl Campbell gave the lesson "Color in Rug Making," stressing important "do's and don'ts" in dyeing rug material. Mrs. Wm. Hill played several piano selections. Group singing led by Mrs. Ray Hill. At the next meeting, Dec. 16 at the home of Mrs. Huey Aylor, we will have our Christmas party.

Chas. A. Fowler, Mayor of Hebron fell at his home Tuesday, while thawing out a pump on the back porch. He was bruised and shaken up a bit, but no serious injuries were sustained. Mr. Fowler stated that he thought for a while he was going to fall out of the precinct.

WHAT DO I HAVE WHEN MY LAST PAYMENT IS MADE?
That portion of your monthly installment payment which is not interest is used to retire the principal of the amount you owe on your home. Even though the whole amount of the monthly payment may be equivalent to or less than the rent you have been paying, a natural question for you to ask is—What will I have when my last payment has been made?

You have the outright ownership of your home in fee simple. It has probably taken you from 10 to 25 years to complete payment and free it of all financial obligation. What has happened to the house during this period? How does its value now compare with its initial cost?

Assuming, of course, that you have taken reasonably good care of your home, and assuming that no unusual economic conditions exist at the time of sale, your house should have very nearly its original value if you have planned well.

If, on the other hand, it is worth only half as much as you paid for it, there is something wrong; and that something may have been present one month after the house was completed. Assuming that good workmanship has been employed and that your plan is a reasonably efficient one with a room arrangement which another family would be willing to use, the value of your house will probably be determined by the condition of the neighborhood at the time you finish paying for it, and the architectural style you selected in the first place.

The development and fate of a

neighborhood is largely in the hands of God; but there are indications which should give you a key as to what to expect. One of these indications is the original price of the lot. Very cheap land has some reason for being cheap. It has been made cheap to give it an attraction which it otherwise does not have. There is a good rule of thumb to remember in the buying of building sites. Do not pay more than 20 percent of the value of your completed property for a lot; and by the same token examine carefully any proposition which offers a lot which is less than 10 percent of the value of the completed property.

Be careful of the architectural style of the home, certain architectural styles have been good for 250 years and probably will remain good for at least 200 more. Other architectural types can last no longer than 10 years. Choose an enduring style. Physical deterioration of houses is slow and ordinary care can practically eliminate it.

There is little which can be done to remedy a house which is hopelessly old-fashioned because of its style. Some of the finest workmanship in America was done during the period from 1880-1900. We will probably never again see a better grade of good artisanship and fine materials so universally employed in home building at that time. But unfortunately, the penchant of our Victorian ancestors for fancy work, cupolas, "fussy" porches and over-ornamentation, has so reflected on houses built during this period that they are practically worthless, although sound, today.

Simple architecture has always been the best architecture and probably always will be. Flashy houses come and go, but a conservative style lives on forever. If you are interested in your investment, build conservatively.

The most reliable war news will be after the war is over and everybody has kissed and made up. Life's misfits is the fellow who is a pessimist, working to compile a seed catalogue.

Who Owns This Bank?

You probably know the answer, yet it's one of those simple, obvious facts that are often lost sight of. The stockholders who own this bank are your neighbors and our average citizens who take part in the home, social and business life of this community.

They invested their money in our capital stock because they had faith in the community's future, and in the progressiveness of their fellow men. Often the money they invested was part of their hard-earned life savings.

This confidence on the part of our stockholders who in turn enjoy the confidence and respect of many others, is a good-will-building force which we value highly.

Foot Health In Relation To Mental Health

N. TULCH

Foot Comfort Specialist at—
PEOPLE'S FOOT COMFORT
9th and Madison Covington

"A sound mind in a sound body" is one of the oldest health maxims, and just as applicable in this day of scientific discovery as in the time of the Greeks when it was originated. In those days the most commonly noted diseases were those of the mind, such as epilepsy, and with diseases of the mind were noticed corollary physical ailments. With the advance of the modern skill in science it is believed that the sick body caused a sick mind. At the present time our leading psychologists, physicians, and psychiatrists believe that the entire body, including the mind, functions as a unit.

Look into our experience and notice the many examples of this phenomenon. The man with gout is not a friendly, congenial individual, but rather a cranky egocentric tyrant, and naturally so. The child with the cut finger

whimpers and demands attention. The woman with aching corns and bunions is not as tender and loving as she might normally be. So we see such ailments as corns, bunions, and flat feet causing mental unrest and irritability in normally cheerful and pleasant individuals. The discomfort of chronic irritability such as a painful bunion can do much to distort the normal behavior of the individual.

Why should such a situation exist may be your first question. For the answer, we must look into the finely integrated make up of the human body.

The body is composed of various systems which are functioning in close relationship at all times. When you move a toe your nervous system activates the muscles; the muscles call on the blood, supply for energy; the blood calls upon the stomach for nutrition; the stomach calls upon the individual for food. In this closely knit system if any single element is not functioning properly the entire system is disrupted, making for a generalized loss of function.—Adv.

Service Charges

TO OUR CUSTOMERS:

Changed economic conditions call for new and higher standards of bank management. Banks in the past few years have been subjected to many new taxes, examinations and regulations which cost the banks additional expenses, that did not theretofore exist. Cost of insuring deposits is one outstanding example. Another is increased taxes including income, social security and unemployment tax, both Federal and State. One heavy loss of income to banks is the elimination of interest on daily balances formerly paid to country banks by their correspondent banks. A bank's income now depends entirely upon the net balances of customers available for lending purposes. To help offset these various new burdens and to enable the banks of Boone County to continue the same high class service that has been given in the past, and following the trend of practically all banks throughout the United States, the following service charges have been adopted by the undersigned banks effective January 1st, 1941. The first charge will be made in February for the previous month of January.

CHECKING ACCOUNTS:

There will be no service charge on accounts maintaining balances above \$50.00.

If any balance drops below \$50.00 at any time during the month a charge of five cents per check will be made for the number of checks paid on the account in that month. There will be no basic charge whatever. A customer may carry any balance below \$50.00 that is convenient. The number of checks paid on the account for the month is the basis of calculation of charges.

No charge will be made on dormant accounts or accounts against which no checks are drawn for the month.

No charges shall apply to accounts of public funds, churches, lodges, schools or other organizations not organized for profit.

Customers may avoid any service charge on their accounts by maintaining their balances above \$50.00.

CASHING FOREIGN ITEMS:

Non-customers shall be charged for cashing any check or draft on out of town banks as follows:

Ten cents for amounts of \$100.00 or under. Over \$100.00 ten cents per \$100.00 or fraction thereof.

MISCELLANEOUS CHARGES:

For issuing a Cashier's Check or Draft for non-customers, a charge of fifteen cents for each transaction.

A charge of twenty-five cents will be made for each notice mailed on all past due notes.

A charge of twenty-five cents will be made for each check returned on account of "insufficient funds," "post dated" or "payment stopped."

No customer should hesitate to ask any question or for any explanation of anything not clearly understood. Your bank will be glad to have you do so.

Gayety Theater News

TONIGHT AND FRIDAY

Carved out of the rugged background of a mighty nation, and considered one of the most stirring pieces of literature of the year, Elizabeth Page's "The Tree of Liberty" will be shown at the Gayety. "The Howard of Virginia," Cary Grant and Martha Scott are starred as "The Howards of Virginia," those two young Americans who fell so madly in love that they broke with all tradition; who believed in their destiny and the destiny of their country with such intensity that they willingly offered themselves and their future to share in America's struggle for freedom.

SATURDAY

Romance by Richard Denning and Jean Cagney, sister of the famous Jimmy, menace by the veteran J. Carroll Nash and the well-known humor of William Frawley go to make up a very pleasing bit of screen fare in "Golden Gloves." Taking its background from the increasingly popular three-ring circus of sportdom "Golden Gloves" tells the story of a young amateur boxer who, for the sheer love of the sport, battles his way to the heavyweight championship in the

face of opposition on the part of his sweetheart and the scheming of petty fight racketeers.

SUNDAY AND MONDAY

When Joan Blondell and Dick Powell get together in a comedy-drama which deals with one of those curious aftermaths of marriage—something called divorce—the result should be a motion picture full of laughs, comminatory clashes and tender makings-up, of course. And according to all reports, that's just what moviegoers are going to get in "I Want a Divorce."

The whole thing starts with Dick and Joan meeting up when Joan's sister, played by Gloria Dickson, gets a divorce from her husband, Conrad Nagel. Joan testifies for her sister, and Dick, who is studying to be a lawyer does a bit of the same thing. After a brief courtship Dick and Joan get married. Don't miss this big comedy drama. You'll laugh, you'll cry, and leave saying it's the best picture yet.

TUESDAY AND WEDNESDAY

Laughs furnish the keynote of the new program when Ann Sothern, Ian Hunter, Roland Young, Reginald Gardiner and Billie Burke turn through a whirlwind of comedy adventures in "Dulcy." Story of a madcap girl who tries to lend a "helping hand" to the affairs of her family and friends only to blunder up every

situation, the new comedy gives the popular Miss Sothern a chance to depart from her familiar "Maids role." It's a new Miss Sothern, this time, all dressed up in Adrian creations, but with the same capacity for making you forget your troubles in a hurricane of laughs.

McVILLE

Mr. and Mrs. E. E. Newman are proud parents of a fine baby girl born Friday. The little one has been named Sharon Kaye.

Mr. and Mrs. Robt. Williamson and children visited her parents, Mr. and Mrs. Charlie Craig at Rabbit Hash.

Mr. and Mrs. Cliff Sutton entertained Thursday, Mr. and Mrs. S. B. Scott, Mrs. Lizzie Smith and Mr. Lewis Smith.

Mr. and Mrs. Edward Rogers and sons entertained the visiting preacher, Bro. Guth at dinner Sunday.

Mr. and Mrs. Lillard Scott and daughter and Mr. and Mrs. S. B. Scott spent Sunday with Miss Anna Cason and Mrs. Mae Sandford.

Miss Dorothy Eckler, from Florence, Ind., is staying with Mrs. Stella Scott.

Mrs. Laura Rogers will entertain the W. M. S. on Thursday of this week. It will be the Little Moon Christmas program and annual election of officers.

Mr. and Mrs. Lillard Scott and daughter were among those who were entertained at Mr. and Mrs. Reuben Kirtley's in East Bend last Thursday.

Mr. and Mrs. Raymond High-tower visited her parents, Mr. and Mrs. J. L. Williamson Sunday.

CARD OF THANKS

Our most sincere appreciation is extended to all relatives, friends and neighbors for the kindness shown us in the loss of our beloved husband and father.

Ambrose Easton
We wish to thank Rev. Hauser and the Modern Woodmen for their comforting words; the donors of the beautiful floral offerings; Dr. O. E. Secor for his untiring efforts, and Mr. Philip Tal-lafiero for the efficient management of the funeral. 11-ch.

VETCH WIDELY SOWN

IN JOHNSON COUNTY
Vetch seed totaling 19,570 lbs. was distributed among farmers in Johnson county, Kentucky, thru grants of aid in the agricultural conservation program. No farmer received more than 100 pounds.

Each was asked to sow 25 to 30 pounds to the acre where seeded alone and not less than 15 pounds where used with rye grass or other grass. The county agent's office has a list of farmers receiving seed and will check results to determine the value of vetch and the best methods of using it as a cover crop.

There are several fellows in Boone County wearing mufflers around their necks when they need them more over their mouths.

THE BOONE COUNTY RECORDER

ESTABLISHED 1875

BURLINGTON, KENTUCKY THURSDAY, DECEMBER 12, 1940

VOLUME 65

NUMBER 28

COUNTY JUDGE REVOKES LICENSE

OF DRUNKEN DRIVER FOLLOWING ARREST MONDAY—HELD ON CONTEMPT OF COURT CHARGE.

County Judge N. E. Riddell handed down a very stiff verdict Monday morning, following the arrest of Raymond Miller, Florence, on a charge of operating a motor vehicle while under the influence of liquor.

Miller resides on the Hopeful road, near Florence. However, he had purchased his drivers license in Covington and had given his address as 210 Scott St., Covington.

He was arrested on the Florence pike after several complaints had been turned to State patrolmen that a drunken man was operating a car and had crowded them from the highway. Chas. Conrad, State patrolman was the arresting officer.

The officer stated that Miller started fighting with him while enroute to Burlington, and that he was forced to strike the man in the order to subdue him. Again in the courtroom, Miller started fighting with Sheriff F. M. Walton and officers again had to use force. He was fined \$100 and costs for driving while drunk and his drivers license revoked for one year.

Miller was then charged with contempt of court and was sentenced to serve six hours in jail on that charge.

He was then released to jailer Kirkpatrick and while on the way to jail again started using loud and profane language in the presence of many women and children and the jailer was obliged to strike Miller again before he could be quieted.

Miller was placed in jail Monday at noon and was to remain there until his fine was paid. He was still in jail Tuesday morning.

Special Court Sets Truck Order Aside

Frankfort, Dec. 9.—An order was issued today by the special three-judge federal court which heard the truckers' case and upheld the state's weight-limit law, setting aside its former order and reopening the case, allowing time for counsel for both the state and trucking interests to file briefs.

The court has set aside its decision two months ago. The truckers are to be allowed 15 days to file briefs; the state 30 days. The special court consisted of federal Judges Church Ford and Mac Swinford and Franklin Churchill.

PRIZES OFFERED LOCAL SCHOOLS

BY KENTUCKY TUBERCULOSIS ASSOCIATION IN SALE OF CHRISTMAS SEALS, R. V. LENTS ANNOUNCES.

The Kentucky Tuberculosis Association is offering a large school thermometer to the consolidated school that sells the most tuberculosis Christmas Seals in Boone County, and one to the smaller schools on the same basis, according to R. V. Lents, Chairman of the sales committee.

Mr. Lents stated that credit would be given to each school for the sale of all seals that he has sold in that community. So it doesn't make any difference where you buy your Christmas Seals, from Mr. Lents or the school children, your school will get the credit.

Help to wipe out tuberculosis by purchasing a hundred of the little bright colored seals. Decorate your wall with them, and by doing so you will be helping a worthy cause. Everything that this organization is doing to stamp out tuberculosis depends upon the amount of funds derived from sale of the seals. Fifty-two per cent of the proceeds of the Boone County sales will be kept here in the county and will be used toward keeping our county nurse.

William Cook, who is employed by the Procter & Gamble Co., of Cincinnati, spent Monday in Burlington, visiting friends and relatives.

Mrs. Hazel Papet

Mrs. Hazel Papet, age 54, passed away at her home in Bullittsville Saturday, December 7th, after a brief illness.

She is survived by her husband, Joe Papet; 3 sons, James, Harry and Eugene; two daughters Virginia Hallbauer and Louise Renold; four grandchildren, four sisters and two brothers.

Funeral services were conducted at the Petersburg cemetery Tuesday afternoon by Rev. Forest Taylor, with burial in the cemetery there.

Chambers and Grubbs, Walton Funeral Directors were in charge of arrangements.

Mrs. Louella O'Brien

Mrs. Louella O'Brien, 1527 Baymiller Street, Cincinnati, died last week at St. Elizabeth Hospital, having been confined in the hospital for the past 13 weeks with acute pancreatitis.

She was an aunt of Mrs. Robt. Eades, Florence, with whom she had lived for several months. She leaves her husband, Wm. O'Brien, four brothers and two sisters.

Funeral services were conducted from Tharp & Stith funeral home, Florence, Saturday afternoon at 3:00 p. m. Rev. Young, of the Erlanger Christian Church was in charge. Burial followed in Highland cemetery.

NO PAYMENT IS REQUIRED

TO OBTAIN LIME AS CONSERVATION MATERIAL—LIME TO BE USED IN 1941 AGRICULTURAL PROGRAM.

Boone County farmers may now order lime through the Boone County Agricultural Conservation Association, without making any advance payment. Mr. Cook, chairman of the county association, said today.

The lime is being supplied as a grant of aid material in Boone County this year by the Agricultural Conservation Program in the county, and the cost will be deducted from the farmers' soil-building allowances under the program used in the distribution of phosphate during the past three years. The deduction rate for the lime in Boone County is \$2.00 per ton, and each farmer may order enough lime to take up as much as 80 percent of his soil-building allowance.

Mr. Cook emphasized that orders for liming materials should be placed as early as possible since the 1941 program year closes on June 30, 1941.

Of the total of 1350 farms in the county, 413 used 9,182.3 tons of lime in the program last year, but lime is needed on virtually all of the farms in Boone County, and through cooperation in the Agricultural Conservation Program all farmers will be able to obtain the much-needed liming material this year.

Old Price Home Acquired By Erlanger Woman

One of the landmarks of Kenton county changed hands last week when Mrs. Lillian Walters acquired the Anna C. Price residence on Dixie Highway, Erlanger.

The property consists of an eight-room colonial brick dwelling and eight acres of ground. The Walters family, which at one time owned the land on which Erlanger is situated, built the house more than 60 years ago.

Mrs. Walters is with the Dixie Dry Goods Company, Erlanger. She intends to remodel the house and conduct a tourist home. R. C. Wayman, Covington, made the sale.

Mr. and Mrs. Wm. Finn Announce Arrival Of Seven Pound Girl

Mr. and Mrs. Wm. Finn of Washington, D. C. announced this week the arrival of a 7-pound baby girl. This is the second girl born to the Finns, and although the name of the new arrival was not mentioned, it was stated that both mother and daughter were doing well.

Mr. Finn is a former resident of Boone County, having graduated from the Burlington high school in 1917. He has held a high government position for several years and makes his home in Washington.

BURLEY QUOTA CARDS READY

FOR DISTRIBUTION. COUNTY CHAIRMAN ANNOUNCES—OPERATOR TO SIGN CARD AT TIME OF RECEIPT.

Marketing quota cards are now being distributed to Boone County farmers who grow burley to bacco this year and each farm operator should call at the Boone County Agricultural Conservation Association office for his card since they cannot be mailed. Mr. Cook, chairman of the county association, said today.

Quota regulations provide that each farm operator sign his card at the time of receipt and for the purpose of entering each sale of tobacco. Failure of the grower to account for disposition of his tobacco, according to the quota regulations, makes him liable for the 10c a pound penalty and makes his allotment subject to reduction in 1941.

It is important that each grower obtain his card and present it at each sale to comply fully with the regulations.

A "within quota" card will be issued to each farm operator whose harvested acreage of burley tobacco did not exceed his acreage allotment under the Agricultural Conservation program, and in such cases all the burley grown on the farm can be marketed without penalty.

Farm operators who harvested burley tobacco in excess of their acreage allotments will receive "excess" marketing cards, which will show the percentage of the tobacco on which a penalty is to be collected. The penalty is 10c a pound on that proportion of the tobacco which was produced on excess acreage, and the penalty will be collected at the market from a portion of each sale from the farms which are in excess.

Attempts to evade this penalty are violations of the marketing quota law, and reduction will be made in the 1941 allotments of all persons involved in these violations. This makes it important that each farmer allow only tobacco grown on his section to be sold under the marketing card issued for that farm.

Mr. Cook pointed out that an approximate number of pounds is entered on the marketing card for each farm so that representatives of the marketing quota section may compare this figure with the amount of tobacco marketed. This figure is for purposes of comparison only and does not limit the farmer's penalty-free marketing to the exact amount shown, since each grower who does not exceed his allotment may market all tobacco grown on his allotted acreage without penalty.

These precautions are taken to protect those growers who comply with the quota regulations, and all indicated violations of these regulations will be investigated.

The quota in effect on the market this year is that approved by the growers in the referendum on November 1, 1939.

Red Cross Nurse Makes Report For November

The nurse made health inspection of 76 school children, and previous to November 398 children had been examined. Physicians in various parts of the county, accompanied by the nurse have inspected children from a medical standpoint, making recommendations to corrections. Several have had tonsil operations, while others are making plans for both tonsils and eyes.

The nurse gave a talk before the Walton Parent-Teacher Association on the Hebron P-T-A. during November. She is now visiting parents as rapidly as possible in regard to school children.

Ladies Of Florence Christian Church To Give Bakery Sale

The ladies of the Florence Christian Church will give a Christmas bakery sale Tuesday, December 24 at 10:00 a. m. at Yealey's Lunch, Florence.

The ladies will have cakes, salads, dressed chickens, Boston brown bread and lots of other good things for your Christmas dinner.

The public is cordially invited to purchase their Christmas goodies from the ladies.

Former Walton Student Has High Ranking At Altob, Ill. School

Miss Nancy Sue White, daughter of Mr. and Mrs. Frank White, formerly of Walton, but now of East Alton, Illinois, was one of the 18 top ranking honor students of the sophomore class of that high school of 1500 for the first quarter ending November 12th. To receive high honor rating, a student must make at least four A's.

Mr. and Mrs. John Conner, Mr. and Mrs. Davis Gaines and Mr. John Lassing and daughter were Sunday guests of Mr. and Mrs. George Porter.

WEED PRICES SHOWS GAIN

SEVERAL MARKETS REPORT HIGHER AVERAGES FOR MONDAY SALES—HIGH BASKET ON COVINGTON MART IS \$33.90.

As 15 of Kentucky's 22 tobacco markets reported higher averages for their sales Monday, an average of \$16.45 a hundred pounds was recorded at the Kenton Loose Leaf Tobacco Warehouse in Covington.

The Covington figure was based on 98,362 pounds which sold for \$16,190.55. High was \$33 and low \$3 a hundred.

Officials of the Kentucky Agricultural Department listed the statewide average of \$17.85, which was 14 cents higher than the figure for the first week of sales ending Friday. A total of \$2,121,211 pounds brought \$1,466,243.49 in the statewide sales. Monday's sales brought the season's average to \$17.75.

Joe Huey, Union, farmer sold his crop of tobacco on the Covington market for an average of \$20.75.

Listed among gains in the statewide report was the Carrollton market, which showed an increase of \$1.34.

WALTON TRIMS HAMILTON FIVE

IN THIRD OVERTIME PERIOD—NEW HAVEN DEFEATS HEBRON—BURLINGTON FLORENCE SUFFER DEFEATS.

Three overtime periods were required to determine the winner of a basketball game between Walton and Hamilton Tuesday last week at the Hamilton gym. The final score was Walton 30, Hamilton 28. Williamson was high point man for the losers with 16, while Pennington collected 12 for the winners.

In the reserve contest, Walton suffered defeat by a score of 20 to 18.

Saturday night, the New Haven Tigers defeated the Hebron Cardinals by a score of 31-19 on the New Haven hardwood. New Haven got over to a good lead, having the visitors on the short end of an 18-4 count at the close of the half. Shields was high point man for the winners with 14, while Aylor led the attack for the losers with 10.

The Hebrons reserves won over New Haven reserves by a 20 to 5 count.

Saturday night New Haven will entertain Walton.

In a non-conference game Friday night Hebron upset the Ludlow Panthers by a 31-23 count on the Hebron hardwood. W. Reeves connected for 8 points for the winners, while Staendmaier led the losers with five points.

Burlington suffered defeat Friday night by the Beechwood Tigers by a 29-31 count on the Beechwood floor. Huey and Porter led the locals with 14 points between them, while Shipper, Edwards and Taglauer connected for 22 points for the winners.

Burlington's reserves won their game over the Beechwood five by a score of 21 to 8.

Burlington will play Hebron at Hebron Saturday night.

The Erlanger Jugernauts walked the Florence Knights on the Florence floor Friday night by a 27-17 count. High point man for the winners was Ammon with 13, while Shotwell and Sullivan divided scoring honors with 12 between them. Erlanger led throughout the game, although it was anybody's game until the final whistle.

TELEPHONE MGR. KILLS 80-LB. BEAR

ON SIX-DAY HUNTING TRIP THROUGH WEST VIRGINIA—DOGS PLAY IMPORTANT PART IN BEAR HUNTING.

E. G. Stephenson, manager of the Consolidated Telephone Company, Florence, returned home recently and reports a fine time hunting bear in the mountains of West Virginia.

Mr. Stephenson and his companion, Dan Corman, of Louisville, left November 18th for West Virginia and arrived at their destination the next day. The hunting camp was owned by Dr. Shepherd who makes a business of hunting bear.

According to Mr. Stephenson, everything is furnished the hunter except a gun. The dogs, which resemble our fox hounds, are trained to hunt bear only and are handled by the owner. This particular camp harbored 70 bear bounds that are run in shifts of 10 dogs each. A chase is likely to last several days.

On the first day out Steve wasthe fortunate hunter to get the first shot at a bear. He had been stationed at his post only about three hours before he killed a cub that weighed eighty pounds. Mr. Corman also reported a fine trip, but did not kill a bear.

The young bear was brought home, and according to reports the meat is very good. The skin is being tanned and will soon be made into a rug that will be evidence to back up Mr. Stephenson's story of "I killed a bear."

Fish And Game Club To Meet Thursday

The Boone County Fish and Game Protective Association will hold their regular meeting at the courthouse in Burlington tonight, (Thursday), at 7:30. All members are urged to attend.

Plans were made for the opening of the new club house at the last regular meeting. However, due to the fact that the club house has not yet been completed, this meeting will be held at the court house.

Burlington Boy Is Listed In "Who's Who"

Elmore, Ryle, of Burlington was chosen as one of five northern Kentucky college students for listing in "Who's Whom Among Students in American Universities and Colleges." It was announced by H. Pettus Randall, editor of the publication.

Mr. Ryle is a student at Eastern State Teachers College, Richmond, and has been an outstanding student while there.

Young Farmers Hold Meeting

A group of young farmers of the Hebron community met at the school house Monday night, Dec. 9th, to discuss the possibility of organizing a part time class. They decided to meet once each week for the next several weeks and hold discussions. The subjects of the discussions will be "feeding livestock."

If you are interested in farming and between the age of 16 and 25, and out of school, you are urged to attend these meetings.

Next meeting will be Monday night, Dec. 16th at 8 o'clock E. S. T.

Mr. and Mrs. Ed Studenberg, of Covington, spent Sunday with Mr. and Mrs. Elmo Rouse of this place.

Cincinnati Man Fined On Illegal Hunting Charge

Phil Kohler, 501 Kotter Ave., Cincinnati, was fined \$50.00 and costs yesterday on a charge of violating the Kentucky Fish and Game laws by Judge Wm. Ranshaw of Kenton County.

Kohler was arrested 3 miles east of Walton in Kenton County by Edwin Johnson, game warden, for hunting without proper license. He was not a resident of Kentucky, yet he had secured a resident hunting license. He should have secured a non-resident hunting license which sells for \$10.50.

Mrs. Georgia B. Myers

Mrs. Georgia B. Myers, age 69, passed away Tuesday night at 7:00 p. m. at St. Elizabeth Hospital, Covington, following a prolonged illness. She was confined at the hospital for four and one-half months prior to her death.

Mrs. Myers was born in Boone County January 19, 1871, and has lived here her entire life. She was the daughter of Mr. and Mrs. James Snyder and was outstanding in social and civic affairs of the community. She not only was a good mother, but a good neighbor as well and was loved by all who knew her. She was the widow of the late C. W. Myers, grocer and automobile dealer, who preceded her to the grave several years ago.

She is survived by one son, Winfield; one sister, Mrs. Sally Thompson, Florence; one brother, Harold Snyder, Florence, and two grandchildren.

Funeral services were conducted Friday afternoon at 2:30 at the Florence Baptist Church by Rev. Demosiey. Burial followed in the Florence cemetery.

Tharp and Stith, Florence were in charge of arrangements.

Rev. Roy Johnson, pastor of Big Bone Baptist Church, and a resident of Covington, called at this office Tuesday morning. Rev. Johnson is one of the county's most popular pastors.

FORMER BOONE COUNTESS DIES

IN CALIFORNIA—WAS SON OF ARTHUR AND SALLY BLYTHE SERVICES AND BURIAL IN CALIFORNIA.

Rev. David Blythe, a former resident of Boone County, died at his home in Pasadena, California, Thursday, December 5th.

Rev. Blythe was born in Burlington and was the son of Arthur and Sally Blythe. He was from a family of thirteen children and is the last of the immediate family. He graduated from Hanover College in Indiana, and later from the Presbyterian Theological Seminary. He has been an outstanding Presbyterian minister during his career.

After his marriage, he and his wife founded a school at Pikeville, Ky. where he taught for a number of years. While there, he became seriously ill with a severe attack of typhoid fever and was forced to leave school and return to the ministry. Later, falling health forced him to move to California, where he made his home until he died.

Surviving relatives here are, A. B. Rouse, Arthur P. Walton, Dudley Blythe, Jennie Blythe, of Colorado; Walton Demosiey, Erlanger; Riggs Demosiey, California; and many other nieces and nephews.

Funeral services were held at the Presbyterian Church, California. Burial also took place there.

Laibley-Barlow

Miss Winfred Laibley, daughter of Mr. and Mrs. N. W. Laibley, Union, and Mr. A. Surface Barlow, also of Union, were quietly united in marriage at Carrollton last Saturday night.

Mr. Barlow is the son of Mr. and Mrs. Les Barlow, Union, and is one of Boone County's most popular young men.

At present the young couple are making their home with Mr. and Mrs. Barlow. We wish them much happiness.

Utopia Club Plans Christmas Program

Boone County Utopia Club members will present a special Christmas program at the home of H. B. Drake, Hebron, on December 19th, at 7:30 p. m. All members are urged to be present.

The business part of the meeting will include a discussion of a club program for the six months' period starting at January and carrying through to July. Plans will also be announced for the District Conference to be held in January. Carl W. Jones, field agent in older boys and girls work will be a speaker on the program.

Mr. William Huey spent last Wednesday with Mr. and Mrs. Howard Huey, of Petersburg.

SHORT SESSION IS EXPECTED

FOR DECEMBER TERM OF COURT—ONLY FEW CASES ON DOCKET AT PRESENT—THREE GIVEN SENTENCES.

The December term of Boone Circuit court got underway Monday morning, and according to all expectations the docket will be completed by the latter part of the week.

Judge Ward Yager opened court in his usual efficient manner and emphasized the fact that all farmers were busy and that everything would be handled in such a manner as to finish with all business just as soon as possible.

The following men were designated as Petit Jury No. 1: Wilbur Rice, George Maden, T. C. Bonar, Lee Graddock, Andy Cook, John S. Ryle, Alan Darby, Wilford Slickman, J. P. Brothers, Ray Hill, C. S. Fennell and Barney Turner.

Petit Jury No. 2: B. E. Aylor, Kirtley McWehly, D. L. Roberts, Albert Rouse, Wm. E. Buckler, John Kilgour, Robt. Wood, C. W. Gray, Herbert Grant, Edgar Graves Harold Grigler and L. E. Barlow.

The grand jury consisted of Wm. Gray, Chas. Clow, W. B. Stamper, Chester Grant, J. D. McNeely, W. C. Arnold, Howard Ryle, W. W. King, George Wernz, Fred Slickman, S. P. Brady and Charles Hempling, Jr., who was named foreman.

Only a few cases have come before the court at this writing, all of which were minor. Eliza and Chas. Fogel each received two years on a chicken stealing charge and Chas. Richardson received 2 years for passing worthless checks. Russell Miller, charged with selling beer on Sunday was tried Tuesday morning, but no verdict had been reached at this writing.

Commissioners Appointed R. Z. Cason, Walter Rennecker and M. L. Crutcher were selected and appointed by the court to serve as Jury Commissioners for the coming year.

The three Commissioners appeared in Court Tuesday morning at 9:00 and were instructed by the court as to their duties. The instructions given the Commissioners were most enlightening, not only to them but to all persons present in the courtroom. The instructions went into detail about the caliber of men to be placed on the list of jurors that they they could not let politics, religion or personal feeling interfere in any way in the selection of names for the jury wheel. The instruction was concluded by emphasis being placed on the fact that jurors are the backbone of the court which upholds and enforces the laws of our land.

Judge Yager was commended by all present for the efficient and clear manner in which he presented the instructions.

DEMOCRATS ELECT McEVOY

PRESIDENT OF YOUNG DEMOCRATIC CLUB OF BOONE COUNTY—GAINES, LIGON AND LUCAS ALSO CHOSEN.

At a regular meeting of the Young Democratic Club of Boone County Monday night, W. P. (Bill) McEvoy, Florence, was elected president of the organization for the coming year of 1941.

Mr. McEvoy has been assistant cashier of the Florence Deposit Bank for some time and has been acting for the club since the resignation of president Haynes Bruce, a short time ago.

Ray Gaines, Burlington, was elected vice president; Malone Lig. J. D. Lucas, Florence, was selected as secretary. Malone Ligon was the only officer to be re-elected to office this year, however, all persons selected have taken an active part in the club for sometime.

Plans for the coming year were discussed. However, nothing definite came out of this meeting as to plans except for general discussion.

CHAS. KELLY ERRETS NEW RESIDENCE ON FARM Chas. Kelly of the East Bend Road has had a new residence erected on his farm, which was completed last week. J. G. Smith and Walter York were the carpenters. It was stated that the house was completed in nineteen days.

XMAS GREENS

Fir and spruce are the usual greens but shed their needles quicker than the pine. Cedar makes a lovely Christmas tree. For wreaths, garlands and package decoration use hemlock and juniper, ivy, boxwood, huckleberry and sumac. You can twine berries and fruits with them and produce a beautiful effect. Pick up pine cones and acorns and burs. You can leave them in their natural state or color them. To give them a glossy effect, heat them in your oven. To keep greens fresh have some humidity in your room.

Ten points should be deducted from the sick chap's pulse beat if the attending nurse is pretty.

LIVESTOCK OUTLOOK
GOOD FOR NEXT YEAR
SAYS DR. H. B. PRICE
 The market outlook for livestock and poultry in 1941 is good according to Dr. H. B. Price, head of the department of markets and rural

finance in the University of Kentucky College of Agriculture. He notes that the purchasing power of consumers is expected to be greater than in 1940, and supplies of meats and dairy and poultry products will be reasonable, in

view of the probable demand for them.
 The tempo of general business has been rising for several months and it is now at a high level; payrolls are correspondingly better; and the demand for livestock, poultry and their products is improving. The continuation of this improvement is of course contingent on many factors. It may, for example be accelerated or retarded by unforeseen changes in the national defense program or the world situation, two forces that have contributed in an important way to the present high rate of business activity. Nevertheless, the present best indications are that the purchasing power of American consumers will be greater in 1941 than in the year that is now closing.
 Supplies of these farm products will also probably be not excessive for normal marketing in view of the demand for them. The number of cattle, sheep and lambs to be slaughtered is expected to be approximately the same in 1941 as in 1940. Pork and egg production will be larger if there are normal pastures in 1941, but the larger volume is expected to be offset, at least in part, by larger exports of canned milk and by reduced imports of cheese.

A THIRD MORE CORN
FROM HYBRID SEED
 G. C. Herndon, Warren county, Kentucky, harvested 36 percent more corn where he planted hybrid seed and used 150 pounds of 20 percent superphosphate to the acre in the row. A field of 33 acres produced an average of 61 bushels to the acre. Mr. Herndon cooperated with County Agent John R. Watlington in a series of tests to determine the value of hybrid seed and fertilizer.

BARLEY GIVES NEW INCOME IN BOURBON

Winter barley is to provide a new income for farmers in Bourbon county, Kentucky, say County Agent P. R. Watlington. Nineteen farmers seeded 750 acres to winter barley in the fall of 1939. The yield totaled approximately 30,000 bushels, 10,000 bushels of which was fed to stock and 20,000 bushels sold for seed. About 8,000 acres were seeded to winter barley this fall.
 "If any average yield is obtained, this acreage should produce approximately 400,000 bushels of barley," says Watlington. "At the anticipated price of other grains, this amount of barley should be worth nearly \$300,000 to the 390 farmers growing this crop. This is largely a new source of income to Bourbon county farmers, since the barley is replacing very largely, acres that have been seeded to rye in the past years."

4-H CLUB CATTLE

SELL FOR \$70,547
 Members of 4-H and Utopia clubs in Kentucky sold 689 calves at the annual fat cattle show in Louisville for \$70,547. The 656 4-H club calves weighed an average of 817 pounds and brought an average of \$12.45 a hundred, and 33 Utopia club calves weighed an average of 912 pounds and brought \$12.71 a hundred.
 The grand champion calf of the entire show, owned by Catherine Rigby of the Garrard county 4-H club, brought \$1 a pound. Other 4-H and Utopia club prize calves sold as follows: Champion carload, Garrard county, \$15.50 a hundred; a champion Utopia club calf, Gilbert Wilson, Garrard county, \$25; champion in Angus breed, J. W. Seibam, Boyle county, \$16; champion Hereford, W. D. Dodson, Nelson county, \$15; champion Shorthorn, Walter Shaeffer, Union county, \$14.

MARINES SEEKING OFFICERS AMONG COLLEGE GRADUATES

College men who wish to become officers in the U. S. Marine Corps may take the first step in that direction by joining the Candidate Schools now being conducted at Quantico, Va. More officers are needed as the strength of the Marine Corps has been increased from 18,500 to 38,000 men.
 After candidates have completed three months of preliminary training, conducted on a competitive basis, selected men are promoted from the rank of private first class in the Marine Corps to that of second lieutenant in the Marine Corps Reserve.

During the first ninety days they are paid thirty dollars a month, plus food, uniforms, books and equipment. From the time they are on active duty in the Reserve, they receive the full pay and allowances of second lieutenants in the regular Marine Corps.

They will be given an opportunity to qualify for commissions in the regular Marine Corps following another three months of training, including instruction in the art of modern warfare, combat principles, tactics, discipline, leadership and teamwork.

Some 1,200 college men, a number of whom are already undergoing training, will attend the school in groups of 400 each. They must be between the ages of 20 and 25 years, native born and unmarried. In addition, they must present evidence of graduation from an accredited college or university as well as letters of recommendation. Young college graduates who are interested should apply at any Marine Corps recruiting station, or by letter to the Director, Marine Corps Reserve, Headquarters Marine Corps, Navy Department, Washington, D. C. Information regarding railway fares, subsistence, and other details will be furnished immediately.

31 YEARS AGO THE LEXINGTON MARKET OPENED OCTOBER 11

The Lexington tobacco market opened October 11, 1909, and sales continued until the following April 20, according to Kentucky Agricultural Experiment Station bulletin, "Seasonal Prices and Sales of Burley Tobacco." The 20,758,000 pounds sold at Lexington from the 1909 crop brought an average of \$14.19 a hundred.
 The following year of 1910 the total sales at Lexington reached 41,786,000 pounds, or more than double those of the previous year's crop, and the price was cut almost in two—\$7.92.

Prices then improved until 1914, when the average dropped to \$8.27 a hundred, at Lexington. Offerings at Lexington total 50,419,000 lbs. from the 1914 crop, compared to 40,139,000 pounds for the 1913 crop. The 1913 crop brought \$12.06. Prices were up but little the first

year of the World War, the average paid for the 1915 crop on the Lexington market being \$10.26. The Lexington market average for the 1916 crop was \$18.28, with a jump to \$28.61 in 1917, \$38.90 in 1918, and \$46.17 in 1919. For the 1920 crop, the Lexington price averaged \$13.26. The market did not open to sell the 1920 crop until January 17, 1921.

Total sales on the Lexington market dropped from 63,667,000 pounds for the 1919 crop year to \$2,619,000 pounds for the next year, and then to 10,635,000 pounds for the 1921 crop.

They say there is a remedy for almost everything, and if you don't believe it, look over the sympathy cards that are on the market.

Now is the time when many a youngster doesn't have to be told to wash his hands, pick up his clothes and brush his teeth.

**Just Let Me Tell You
A Few Facts About
Walking, So You'll
Realize Just How Much
It Can Do For You.**

N. TULCH
Foot Comfort Specialist at—
PEOPLES FOOT COMFORT
9th and Madison Covington

The normal heart, you know, beats about seventy-two times a minute and pumps about six ounces of blood with each beat. Now, in fast walking, or at the rate of four miles an hour—which is how fast you should walk to do you some good—you'll find the normal heart will INCREASE its beat ten times to the minute, pumping six ounces of blood at each beat, gives sixty ounces per minute or 3600 an hour, which is 225 pounds. You can easily see that 225 ADDITIONAL pounds of blood pumped DAILY through your veins means just that much more life to your whole body.

There's no use of my telling you to get out and walk if you are having trouble with your feet, because I know you won't do it, BUT if I tell you how to get rid of those aching, painful feet, first—then there's nothing to keep you from walking every day and benefiting your health by this wonderful exercise.

It has also been found that millions suffer without knowing the reason—why—those headaches, those leg pains, and even sleepless nights may be caused by the shoes you are wearing.—Adv.

F. F. A. NEWS

The F. F. A. held its monthly meeting on December 2 at the Hebron school house with President Lewis Hossman presiding. The meeting was opened with the opening ceremony.

Several reports were given about the Fall Festival. The report of the treasurer, Russell Conrad, revealed that the club had over \$75 in the Hebron Deposit Bank. We decided to buy vaccinating equipment and pruning tools. The reason for this is to give practice in vaccinating all at the cost of serum administered.

The meeting was closed with the closing ceremony.

Roof Coating made with Real Asbestos

CAREY Fibre Coating does more than cover the surface of a felt roof—it renews the life of the material. The light oils soak into the dried-out felt, thoroughly waterproofing it. The heavy oils fill up exposed cracks and form a new wearing surface. This new surface is reinforced with fibres of genuine asbestos, the wonderful mineral which is practically impervious to exposure.

Carey Fibre Coating is made for felt roofs, but it is also fine for badly worn metal roofs. One-gallon covers about 50 square feet—get our money-saving prices on any quantity.

Mr. and Mrs. Bascom Fenton, of Ohio, was the guest of Mr. Fenton's sister, Mrs. Edgar Berkshire one day last week.

Omer Porter entertained friends from Constance Sunday.

Ray Goodridge and Karl Rouse, delivered some tobacco to Covington Monday.

Little Nancy Jane Stephens is the proud owner of a little pup which her father presented to her one day last week.

XMAS WRAPPINGS

A subscriber suggests that you take last year's Xmas cards, but them into the desired size and use them as your "To-From" cards on your packages. Punch a hole on the upper corner with the ice pick. Tie your gifts with a red

rick-rack. Cut out stars or buy the packaged stars and stick them hit and miss over the white tissue. Buy tarlatan in white, cut it in strips, use it to tie the package and stick silver and gold stars on the bow. Fasten bells and Christmas tree balls on the ends of your package ribbons. Use attractive pieces of wallpaper as your "tissue."

ENROLLMENT RECORD FOR AGRICULTURE COLLEGE

Registered this year in the College of Agriculture of the University of Kentucky are 414 students in agriculture and 241 in home economics. This is an all-time high figure, representing a gain over all previous years.

The total for agriculture includes 131 freshmen, 94 sophomores, 102 juniors and 84 seniors, as well as two auditors and one special student. In home economics are 59 freshmen girls, 66 sophomores, 60 juniors, 56 seniors and one auditor.

Taking straight agriculture are three young women, Miss Billy Jackson of Jessamine county, Miss Ann McCowan of Woodford county, and Miss Elizabeth McDowell of Harrison county. The young women plan to use their training in a variety of ways, from managing the family farm to raising saddle horses to practicing veterinary medicine.

6½ TONS OF HAY FROM 1¼ ACRES
Chester Gosser, a Russell county farmer, cut six and a half tons of hay from an acre and a quarter of alfalfa this season. The land had been treated with five tons of limestone, 400 pounds of superphosphate and manure. Many Russell county men sowed one to 12 acres of alfalfa this year. County Agent Ralph D. Winchester established an honor roll for farmers who sowed cover crops on all their clean cultivated land.

CONSTANCE HOMEMAKERS

The regular monthly meeting of the Constance Homemakers was held at the home of Mrs. Elmer Penno on December 4th. The morning was devoted to the business session.

Our Citizenship chairman, Mrs. Alice Kenyon reported 32 tickets sold by our club for the Home-makers' Revue which was a great success. Roll call to be answered at our next meeting by "Why I am a member of the Homemakers' Club." Each member is to bring their design on burlap and material dyed.

The Leathercraft meeting will be held on Tuesday, January 14th at one o'clock fast time at the home of Mrs. Freda Kottmyer.

There will be a bake sale on Saturday, January 11th at the Constance Christian Church. Each club member will take orders for pies, cakes, bread, coffee cakes, doughnuts, cookies, cup cakes, and candy.

Miss Gillaspie gave a nice talk on making Christmas decorations and how to fireproof Christmas trees. Our next meeting will be held on January 7th at the home of Mrs. Dora Dolwick.

We had a very lovely Christmas dinner and after dinner had a Christmas party.

—Mrs. Ida Herbstreit.

CONSTANCE P.-T. A. TO MEET
The regular meeting of the Constance P.-T. A. will be held Wednesday, December 19th.

After the business meeting there will be a Christmas party, consisting of games, lunch and exchange of gifts. Everyone is asked to bring a ten-cent gift. Meeting will be called to order at 1:30 p. m. E. S. T.

If only folks in Boone County could see as far ahead as they can remember as far behind, life wouldn't be so difficult.

TO ICE CAKE

Angel food cake is difficult to cut after icing is added, so cut the cake into the number of pieces. Ice your cake with the iced icing as usual. The cuts will not show but when you remove each piece, the icing clings to the sides of each piece in an appetizing way. This is the easiest way to cut an iced angel food cake attractively.

Only very small crowds are attending court this term. The lack of interest is due to a small docket and farmers are very busy at this season of the year.

7 COWS GIVE MILK

FOR 25 FAMILIES
Seven registered Holsteins in the herd at the Kentucky Agricultural Experiment Station at Lexington produced enough milk during the past test-year to provide 25 families of four with four quarts of milk daily for the entire year. The average production per cow was 393 pounds of butterfat, made by the junior four-year-old Mutual Dora Lass. The testing was supervised by The Holstein-Friesian Association of America, in cooperation with the College of Agriculture of the University of Kentucky.

AMONG THE COUNTY AGENTS
Shelby county's sheep protective association has insured 7,200 sheep, paid off all losses, and piled up a surplus of \$1,400.

In Owensley county, 500 farmers grow one to 10 acres of hybrid corn with high yields, less damage from storms, etc.

Testing soil for acidity is going on at a rapid rate among Clark county farmers.

Mrs. M. S. Howard, Harlan county, has housed 200 pulets and hens for winter laying.

Mrs. Alice Downs, Grahm community, and Lonnie Wolf, Hike community, Carter county, have started tile drainage on their farms.

Who Owns This Bank?

You probably know the answer, yet it's one of those simple, obvious facts that are often lost sight of. The stockholders who own this bank are your neighbors and ours—average citizens who take part in the home, social and business life of this community.

They invested their money in our capital stock because they had faith in the community's future, and in the progressiveness of their fellow men. Often the money they invested was part of their hard-earned life savings.

This confidence on the part of our stockholders who in turn enjoy the confidence and respect of many others, is a good-building force which we value highly.

ISSUE OF DECEMBER 11, 1924

Local News

Atty. D. E. Castleman and Hon. H. G. Buckner, of Erlanger were in Burlington on Wednesday.

Bellevue

Mr. and Mrs. Wallace Clure spent Sunday with A. S. Burcham and family.

Mrs. Joe Brady, who has been quite ill with flu at the home of her mother, Mrs. Chas. Stephens is improving.

Clarence McCarty and family, of Cincinnati, spent Sunday with his

father, Dan McCarty.

Mrs. E. W. Rice, who is working in the city, spent Saturday night and Sunday at home.

Mrs. Stanley Clure and children were Saturday night and Sunday guests of Willie Huey and family.

Mr. and Mrs. Chas. Dolph spent Sunday and Monday with Mr. and Mrs. Walter Fritz, of Newtown, O.

Grant E. D. Mrs. Lena Wingate is on the sick list.

Bert Scott, J. H. Walton, J. E. Hodges and Ira Smith are attending court at Burlington this week, serving as jurors.

Mrs. Emma Ward returned to her home at Watford, O., this week, after making several weeks' visit with relatives here.

Mr. and Mrs. Colin Kelly entertained a number of young people Saturday night in honor of their son Orville and his bride. Quite a crowd was present and a number of nice presents were given the happy couple. Refreshments were served during the evening. On Sunday the older crowd and married folks enjoyed a dinner, celebrating the same happy occasion. Here's wishing them a happy life.

Emerson Smith and wife spent

Sunday with W. H. Smith and wife.

R. Newman and family spent last Sunday with Chas. Hodges and family.

Miss Mary Hodges, of Covington, spent the week-end at the guest of Chas. Hodges and family.

Rev. and Mrs. Barker and Mrs. J. J. Garrison were the guests of N. S. Bristow and family, Saturday.

Mrs. Edith Hodges spent several days last week with her mother, Mrs. R. Feldhaus, of Graves Ave., Erlanger.

The surprise party Saturday night in honor of Lucille Carpenter was a wonderful success. Lunch which consisted of cake, pickles and fruit was served at 11 o'clock to the large crowd. All left at a late hour wishing Lucille many happy birthdays. Lucille is a charming young maiden who has a fine position in Cincinnati.

East Bend Earl Hodges called on Jewell and Orville Scott Saturday and Sunday.

Miss Melvina Hodges spent Friday afternoon with Miss Anna Hamilton.

Bernard Long and Wilford Aylor called on their best girls last Sunday night.

E. L. Stephens entertained the young folks with a party Monday night.

Miss Marie Smith spent Saturday night with her sister, Mrs. James Hodges.

Miss Edna Osborn has been visiting her cousin, Miss Artie Long, the past week.

HINTS FOR GIFTS

With so many hands busy with knitting needles there isn't so much timidity in undertaking socks. Young girls love the soft wool anklets that are quickly made. A suggestion for a lovely gift and one that isn't so expensive, is to buy soft white wool anklets for a girl and pick up the stitches around the top of them with your needles. Knit a ribbing for a turn-back of angora and win the heart of some lass. This can be worked out with wrist-bands on mittens to match. Or buy mittens that are inexpensive and plain and embroider cross-stitch woolen patterns down the back of them.

WATERLOO

Jesse Loudon, John McNeely and Kite and Purdy killed hogs last week.

Mrs. Aline Newhall returned to her home in Florida, after a visit with her husband here, and attending the wedding of her brother in Cincinnati.

Mr. and Mrs. Harry Shinkle entertained his son and family Sunday.

Mr. and Mrs. Jack Purdy were shopping in the city Saturday.

Friends of Rosanna Williamson were surprised to learn of her marriage last week to Robt. Wells, of Cleves, Ohio. They spent Friday night with her parents here and left Saturday for Florida, where she has a position this winter.

Sunday callers at Hillfair were, Mrs. H. W. Schleuter and daughter Hazel of South Ft. Mitchell and W. G. Kite.

Mrs. Press West and son were visiting relatives in Indiana last week.

Little Russell Alverson Loudon has been ill the past week.

Walter Buckler and family entertained callers Sunday afternoon.

Mr. and Mrs. Kelton Kelly celebrated their twelfth wedding anniversary Sunday.

Mrs. Kelton Kelly and son called on Mrs. Grace Sandford Saturday afternoon.

BEAVER LICK

(Delayed)

Mr. and Mrs. Harry Huff and daughter Wilma, of Normansville, were Sunday guests of Mr. and Mrs. William Wilson.

Mrs. Fannie Howard spent several days last week visiting Mrs. Alice McCollough and Mrs. William Doug and family of Erlanger.

Mr. and Mrs. J. E. McCabe and Mrs. Emma Cleek will leave Thursday of this week for Florida, where they will spend the winter.

The revival at Hughes Chapel, conducted by Rev. S. B. Godby and Rev. E. L. Griffey, closed on Friday night. Much interest was manifested throughout the meeting. There was one addition to the church, Mrs. Eva Henry, by letter.

Mr. and Mrs. William Wilson visited Mr. and Mrs. Edward Hamilton Sunday.

Mrs. Albert Parker and daughter Miss Betty Jo spent Sunday with Mr. and Mrs. David Houston.

Mr. and Mrs. J. E. McCabe entertained last Sunday, Mrs. Emma Clements Conner, of Calif., Mrs. Emma Cleek, of Florence, N. E. Clements, Ivan and Nathan Clements, Ivan and Nathan Clements of Hathaway.

The regular monthly meeting of the New Haven Home-makers' Club was held at the Beagle Club House last Friday. The following members were present: Mrs. Jake Cleek, Mrs. Sam Sleet, Mrs. Stanley Ransom, Mrs. Mattie Griffith, Mrs. Raymond Snow, Mrs. Walter Pennington, Miss Wanda Pennington, Mrs. Cloyd Johnson, Mrs. Fannie Howard, Miss Mary Hood Gillaspie, and Mrs. Harry Moore.

GRANT HOMEMAKERS

The Grant Homemakers had their regular meeting November 29 at the home of Mrs. Edward Rogers. Seven members, two visitors and our H. D. A. Miss Gillaspie were present.

The meeting was called to order by the president, Mrs. Christina Kirtley. Lesson of the day was given by Mrs. Claradine Pressor, project leader on how to "Dye and Blend Colors for Mats and Rugs."

A committee was appointed to get some gifts and clothing together for Xmas for some needy families in the community.

After a delicious lunch Miss Gillaspie presented the club with a

Red Cross membership in appreciation to the club for helping toward the success of the show at Burlington.

Arrangements were made for a bake sale Saturday, Dec. 21. Each member is requested to bring cake, pie, cookies, candy. Let the Grant Homemakers do your Christmas baking. Public invited.

Each December we are reminded that about all some of us have saved during the past year, has been daylight.

Just because your wife doesn't flirt doesn't mean she doesn't want to. Perhaps she is only afraid to.

there could be instruction in courses of mechanics, of many phases of education including reading, history, English and geography. There is an opportunity to be offered by training camps as a number of colleges are offering courses in map making, navigation, war mathematics.

COURAGE WITH CAPITAL C

We are convinced that the ancestors of Boone County residents have been the standard bearers of courage in the holding and fighting for right to establish this land of ours. The hardy pioneer of those days, who with wife and child, blazed the trail to freedom through struggle and strife, stood for courage on every history page. America. It made its impression on the hearts of the generations to come. But courage has not disappeared with the pioneers. We head foremost into a month that winds up a year where such courage has been displayed to call forth the admiration and respect of every living man on this globe. The courage of the British! It isn't courage alone that has kept England alive, but it is power backed by courage that has given them the fight. There isn't enough that can be said in the news dispatch brings a lesson from Britain's struggle.

SOMETHING TO THIS

One thing that American manhood will learn in military service that will prove of value later on in civilian life, is how to make your bed in order to lie in it! A man bed-making is a sight for a cartoonist, the sight of a bed made by man is a picture for the comic section. Try sleeping in a bed made by a man and you will get the general idea. Husbands of Boone County listen well to the tips from American recruits. There is the knack of getting the center of the sheet in the middle of the bed, which sounds simple, but isn't! Start at the foot, work to the head, tuck the bottom sheet in first before you work on the top one. Calculate to have enough left over at the top to turn back under the chin. It takes a deal of plumping to puff up the pillow to entice slumber. If you are pretty clever and learn quickly maybe your wife will let you make your bed from now on!

IT MIGHT WORK

At a recent convention dealing with the farm program, at a forum discussing problems and policies of agriculture, an editor of a farm magazine suggested that it might be a good idea to put farmers in charge of world affairs for about 15 years when he feels that a better job would be done than accomplished in the past by politicians and statesmen. As he remarked, "when it comes to matters wholly within control of the farmers themselves, nearly every time one can point out indicates genuine progress." He may be right about the appreciation of soil, work with the hands, the sweat of honest endeavor, as essential in the building for supremacy. He doesn't mean the sort of farmer as picturing Mussolini standing on a hay wagon pitching hay while the cameras played on his brawny arms. He means a farmer with soil in his soul and not publicity in his soil.

So Hitler is an artist! Red seems to be the color he liketh best to use.

Why not offer a prize to the dentist who turns in the oldest magazine from his waiting room? Doctors invited to enter the contest, also.

The High Cost of Getting Well

Within recent years much has been said about the high cost of getting well. After giving this problem a great deal of study, we have devised a simple plan whereby the patient may get the best health service at a very nominal cost, without sacrificing any laboratory tests or x-rays which may be necessary in his particular case. We shall be glad to explain this plan in detail if you will call at this office.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

JESUS TEACHES HIS DISCIPLES TO PRAY

LESSON TEXT—Luke 11:1-13. GOLDEN TEXT—Ask, and it shall be given you; seek, and ye shall find; knock, and it shall be opened unto you.—Luke 11:9.

Teach us to pray! The request of the apostles was not that He should teach them how to pray, for He had already done that (see Matt. 6:5-7) in the Sermon on the Mount. What they needed, and what we need, is not so much to learn how to pray, but actually to pray. Prayer is more talked about than practiced. We discuss the doctrine of prayer, the time of prayer, the manner of prayer, posture in prayer; but how much do we really pray?

There is a very important and plain question which we must face personally, "Do I pray, or do I only talk about praying?" Let us not try to dodge it or excuse ourselves; let us face it honestly, do something about it, and know God richer and fuller blessing for our lives.

We have in our lesson, I. A Principle of Prayer (v. 9).

There is a right to call God his "Father" (v. 2) has a right to come and "ask" God for whatever he needs. God expects His children to ask, and many "have not because ye ask not" (James 4:2). Give God a chance to answer you by asking, but be sure to ask right, not for your own selfish purposes (James 4:3). The selfish asker is also a seaker; the one who asks and run away empty-handed—he persists. He not only "seeks," but he "knocks" at God's door. A knock is an evidence of faith, expectancy, and often persistence—essential in real prayer.

II. The Promise of Prayer (vv. 9-13).

Here is the promise of our Lord. We are quick to claim the promises of our friends, business associates, the government; why are we so slow in claiming the promises of God? Can it be that we have less confidence in Him than we have in our neighbor? Asking means receiving, seeking results in finding, knocking brings the opening of His blessing. Why not do it?

God is our Father. Even a man rightly bearing the beautiful title "father" is loving and considerate. Will the heavenly Father then give us every thing we ask? In the Holy Spirit Himself is ours in all His fullness, and in Him there is every other gift.

III. A Parable Concerning Prayer (vv. 5-8).

The point of this story is that we should be persistent in prayer. Importunity carries with it a sense of being troublesome, bothering someone until the desired result is attained. God encourages His children to a holy boldness which does not give up (see Luke 18:1-8; Matt. 15:21-28). If a man who is only a friend will at the impossible hour of midnight supply a need which should have been anticipated to feed one who is a stranger to him, will not our Father, who knows and loves us all, meet our deep spiritual need? Indeed He will, "exceeding abundantly above all that we ask or think" (Eph. 3:20).

IV. The Practice of Prayer (vv. 1-4).

There is no one who can teach us to pray better than Jesus, for He "practiced what He preached." He prayed. It was seeing Him pray that led the disciples to ask Him to teach them to pray. To profess is one thing, but it is far better to practice. The teacher who does not practice prayer will accomplish little in teaching this lesson, but the one who prays, though able to say but little, will cause many to say, "Teach me to pray."

For he practice of prayer, Jesus taught His disciples a model prayer. This does not mean that it is the only prayer to be offered, nor that it is the only form of prayer. As suggested, it is rather a model. This prayer opens with a recognition of God as Father, followed by a reverent petition that His name may be hallowed; that is, that He may have glory as His will is done and His kingdom established in the hearts of men. Those who have that spiritual life and attitude are ready to ask for the supply of daily needs, and above all forgiveness of sin and deliverance from temptation. Note that verse 4 is not the prayer of the unsaved for forgiveness and regeneration, for that is all of grace (Eph. 2:8). The man outside (of the kingdom) gets his forgiveness with no condition; but once he is in the kingdom of the Son of God's love, he lives within the laws of that kingdom. Then he does not get forgiveness unless he is ready to forgive, unless he has forgiven" (Morgan).

"Nothing more surely destroys communion than the unforgiving spirit" (Matt. 6:14, 15; Mark 11:25). The fact that we forgive others is not the ground on which God forgives us, but it is the condition of our enjoying God's forgiveness (Eph. 1:7; 4:32) (Bradbury).

Paul Reverie would have to think of a new signal. "There, if by air" would be modernizing it.

The big objection to steam heat, is that you can't sit and spit in the fire.

XMAS BAKING

Vary fruit cake this year by baking it a star-shaped mold. Buy a new tin, bake the cake, wrap it gay with tissue and tinsel for a Christmas gift. Or use it for decorating the center of your table and surround it with holly berries.

If you don't bake your own doughnuts, buy them at your bakery and make them festive by decorating them yourself with colored icings. To coat small cakes with frosting, stick a skewer into the cake and dip the cake into a deep bowl of coconut, chopped nuts or spiced sugars.

Many men have stopped worrying about the war and started worrying about how much coal they will use this winter.

Money isn't as hard to get as it is hard to keep here.

KENTUCKY JERSEY BULL LEADS BREED

The latest report of the United States Department of Agriculture on dairy herd improvement work gives a bull in the herd at the Agricultural Experiment Station at Lexington credit for having the highest butterfat production index for the Jersey breed in the United States. Five unselected daughters completed a year's test with an average production of 9,063 pounds of milk and 513 pounds of butterfat, compared to 7,424 pounds of milk and 366 pounds of fat produced by their dams. This means this sire brought an increased production of 1,639 pounds of milk and 147 pounds of butterfat. These records are for 10 months, twice-a-day milking.

Panama expects to break all its records in highway building this year.

Winter would be a lot prettier if there was some way of keeping the snow clean.

Mr. and Mrs. Tom Hamilton and daughter were pleasant callers at the home of Mr. and Mrs. Tom Huff Saturday evening.

The funeral of Arthur Pitcher of Lawrenceburg, Ind. was held at Big Bone Baptist Church Monday afternoon. Mr. Pitcher was formerly of this community. He was a brother of the late George L. Pitcher.

VEAL DISHES WILL PEP UP WINTER MENU

This time of the year is particularly appropriate to incorporate veal as a regular part of your menus. You'll find an abundant supply on the market right now, and upon investigating you may discover that the variety of veal cuts surpasses your expectations.

The cuts of veal suitable for roasting are the leg, the round, the rump, the loin, the pocket roast from the breast, the rib and

the crown roast and the shoulder roasts.

The True Roasting Method in roasting veal the constant low temperature method has been found most satisfactory. Because veal is inherently lacking in fat it is often desirable to "lard" a roast; that is, insert strips of fat throughout the lean or put a generous covering of bacon slices over the top of the roast.

Season the roast with salt and pepper. Place it on a rack in a shallow, open roasting pan. Insert a meat thermometer so that the bulb reaches center of the thickest muscle. Place the roast in an oven preheated to 300 degrees F. and cook at this temperature until the meat thermometer registers 170 degrees F.

Braise Smaller Cuts Braising is used as the method for cooking smaller cuts of veal such as veal steaks, sometimes called veal cutlets, or veal chops.

Veal steaks or cutlets are usually floured or they may be breaded. It is not necessary to pound or score the veal steaks. Brown the steaks well on both sides in a heavy frying-pan, then add a little liquid, cover and cook at a reduced temperature until tender.

Sour cream or tomato juice are excellent suggestions as the liquid to be used in braising veal; sour cream is especially good, since it adds both flavor and fat.

Veal birds are steaks, spread with dressing and rolled and tied into shape and braised. Here is a particular tasty recipe that combines the delicate flavor of veal with a savory bread stuffing and a mushroom sauce.

Veal Birds with Mushroom Sauce
2 pounds veal round
Bread stuffing
3 tablespoons flour
3 tablespoons lard
Salt and pepper
1 small can mushroom soup

Have veal round cut into one-half inch slices. Cut into pieces for individual servings as nearly two by four inches in size as possible. Place a spoonful of stuffing on each piece, roll and fasten edge with toothpicks. Dredge with flour and brown on all sides in hot lard.

Season. Pour mushroom soup over veal birds, cover and cook very slowly, until done, about forty-five minutes.

For variety, instead of using a bread stuffing, spread finely chopped onion over the meat, place a partially cooked carrot in the center roll and fasten.

The holiday season is made more glorious by the splendid musical programs we can get on radios.

Christmas hasn't been any better advertised than the Willkie campaign.

Chosen threatens to exclude all foreign motion pictures.

BURLINGTON R. 2

Mr. and Mrs. Vernon Scott and sons were in Covington Saturday.

Those to attend the Ladies' Aid at Mrs. Rod Ryles' were Mrs. Elmer Jarrell, Mrs. Alton Buckler and Mrs. Cam White.

Merritt Sullivan is spending a few days with Mr. and Mrs. Lou Williamson.

Mr. and Mrs. Paul Cook, of Dam 39 was the week-end guest of Mr. and Mrs. J. Cook.

George Cook, of Ghent was a guest of Mr. and Mrs. Lou Williamson.

Mr. and Mrs. Percy Ryle spent Saturday and Sunday with Mr. and Mrs. Cam White.

Sunday afternoon, Mr. and Mrs. Cam White, Mr. and Mrs. Percy Ryle called on Mr. and Mrs. S. B. Ryle and Mr. and Mrs. J. Cook.

Sorry to report "Hoppy" Ryle on the sick list again.

Glad to report Lillard Scott improved.

Mrs. Rena Presser spent Sunday with Mr. and Mrs. Bert Smith.

Miss Pearl West spent the week-end with Mr. and Mrs. Ott Rogers and son.

Mrs. Rena Presser spent Sunday with Mr. and Mrs. Willie Presser. Other guests were Mr. and Mrs. Jeff Eddins and two children.

Mr. and Mrs. Ivan Walston, of Aurora, Ind., spent the week-end with Mr. and Mrs. S. B. Ryle and family.

One recipe for curing pork calls for eight pounds of salt, two pounds of meat. A third of this mixture is rubbed into the meat every two days. Curing time is two days per pound for hams and shoulders and a day and a half a pound for bacon.

Improper feeding, irregular watering and exposure to severe weather are causes of pregnancy diseases in ewes. Sheep can go without feed longer than they can go without water. A sudden drop in temperature, a cold rain, or a snowstorm, may mean trouble for poorly fed ewes.

KENTUCKY ECONOMIST SAYS INCREASED FARM PRODUCTION IS RISKY

War continues to be a disturbing influence on the export trade in American farm products, according to the annual outlook report for Kentucky agriculture, issued by the Department of Markets and Rural Finance of the College of Agriculture at Lexington.

So great are the uncertainties of future changes in the world situation that farmers incur great risks in increasing production in 1941 in anticipation of booming prices for export products such as have frequently prevailed during great wars of the past, according to H. B. Price, head of the department.

The European war in particular is greatly curtailing the demand for such products as dark tobacco,

flue-cured tobacco, wheat, cotton and certain fruits. In peace time the continental countries and Great Britain were important buyers of these products. Now the continental countries especially are poor customers and the people of Great Britain find it expedient to buy more of these products elsewhere.

This situation is a marked contrast to that prevailing in World War I, but many conditions have changed since 1918. Agriculture has expanded greatly in Canada, Argentina, Australia, and other new parts of the world and as long as these sources of supply can be kept accessible to Europe, American farm products will encounter keen competition in world markets. There has been some increase in agricultural production in the belligerent countries in preparation for the war and a more rigorous policy of rationing the civil population than in past wars. Finally the warring nations have found it advisable, and possible under existing conditions, to conserve their American buying power to purchase more industrial products for the prosecution of war and fewer farm products.

Future events will doubtless modify this outlook for farm products. Changes in available merchant shipping, in the requirements of belligerent countries for foods, fibers and other farm products, in the purchasing power of warring nations, or in the scope and duration of the war itself may greatly modify the needs of and demand for American products.

FARM POPULATION GAINS FASTEST IN EASTERN KENTUCKY

Kentucky's farm population is continuing to gain most rapidly in the eastern counties, according to a study made by representatives of the State College of Agriculture of population changes last year. Most pronounced gains in farm population in 1939 occurred in eastern counties and in the Jackson Purchase area.

There were more births than deaths among farm people in all parts of Kentucky. The smallest difference was about one and a half births for each death in the area surrounding Louisville, and the largest difference was approximately four births for each death in 19 southeastern counties.

More people moved from cities to farms than from farms to cities last year, the report states. The cityward flow was slowest in those areas where natural increase was most rapid. In the Louisville area, not only were the migration rates in both directions high, but the number moving to farms from the city was actually larger than the number leaving farms for town.

The report says: "A general conclusion is that, with certain exceptions, notably the Inner Bluegrass region, gains in farm population continue to be largest in those areas least well suited to agricultural production on a commercial scale and with standards of living dependent upon subsistence farming, non-farm employment such as mining, and various forms of public assistance."

KITCHEN KINKS

Add mushrooms to a brown gravy to serve with your roast... Wash dried prunes, cover with cold water and let soak over night. Cook by simmering slowly for one hour. Dip them in a bowl containing 3 tablespoons butter mixed with 4 tablespoons boiling water, 1 cup sifted confectioner's sugar. Dry on waxed paper... Always butter sides and bottom of casserole before adding contents for baking. Soak the casserole, after using, in warm water for about ten minutes in order to wash it more easily.

SHARING THE SHEPHERD'S JOY (Christmas Lesson)

LESSON TEXT—Luke 2:8-20.
GOLDEN TEXT—Glory to God in the highest, and on earth peace, good will to men.—Luke 2:14.

Tinsel and toys, snow and sleigh bells, crowded department stores and rushing throngs, gifts and greeting cards, Christmas dinner and fellowship with family and friends—all these things are proper in their place—exciting and interesting—but they are not enough.

They have never been enough and certainly they will not do this year, with a world in chaos. We need not lose any of the thrilling enjoyment of Christmas by properly observing the day; in fact, we shall only enhance its meaning and bring out its real glory by keeping Christ at the heart of our Christmas.

The opening verses of Luke 2 tell us of the coming of Mary with Joseph to God's appointed place at His appointed time for the coming into the world of His Son to be made flesh and dwell among us (John 1:14). Our lesson tells us of

I. Good Tidings of Great Joy (vv. 8-14).
God had good news for the people of this world and He gave it to us. His custom, to those who were faithfully discharging their humble duties (cf. Judg. 6:11, 12; 1 Kings 19:19). God is still ready to reveal His glory and grace in the "office, kitchen, mill, barn school-room, and open field—places where people are at work on daily tasks" (Douglas). You need not be in the great city in a large city to meet Him on Christmas day. He will reveal Himself in all His beauty where he is, though you be in the humblest surroundings and the most menial task. Look for Him!

Jesus came as a Saviour. "The world did not want an adviser. The world had advised itself almost into hell. The world did not ask for a calculator. Everything that man could do had been done, and man sat in the darkness of their own wisdom. The world did not want a reformer, a man who could change his outward and transient relation to an engineer that would continually devote his time (for appropriate remuneration) to the readjustment of the wheels and the pulleys and the valves of mechanical forces of society. The world wanted a saviour" (Joseph Parker).

Note that the army of heaven came to declare peace, not war; but only to those "whom He is well pleased" (v. 14, R. V.). As long as men serve the devil and displease God, they will have no peace.

II. Great Faith and Consistent Action (vv. 15, 16).

The shepherds did not say, "Let us now go and see if this thing has come to pass," or "which we expect or hope will come to pass," but said, "which is come to pass." They went not to test God's word, but in the assurance that they would "see" what had come to pass. Blessed faith! Let us too believe God's word to us.

"Faith without works is dead" (James 2:17). The shepherds might have made many excuses for not going but "they came" and "found" the Saviour. Perhaps you who read these words have failed at that point; you have not come to Jesus as your Saviour. No more appropriate time could be found to come than right now. Believe, then act on your faith.

Some of us who are Christians need also to learn of the shepherds. We talk a great deal about our devotion to Christ. Especially at this Christmas season we render much "lip service" to Him. Let us make it real, and our lives vibrate and active for Him.

III. Good News for Meditation and Proclamation (vv. 17-20).
The gospel is literally "good news." What a blessed privilege it is to have such good news in a day of evil tidings, of darkness and despair.

There are two things we ought to do with the gospel of God's redeeming grace. We should make it known to the ends of the earth, but we should also do as Mary, "who kept all these things and pondered them in her heart." We know she had special reasons for doing so, but may we not suggest that you too make this Christmas a time when you will ponder in your own heart what God has done for you in Christ?

The shepherds also set us a Christmas example, for they "made known abroad" the coming of the Saviour. Will you tell someone else today? Will you, like the shepherds, be "glorifying and praising God" this Christmas? You will if you, like them, go to the manger and meet Jesus. If you go to this world's empty show of celebration, you will return empty (see v. 20).

May the blessed peace of Christ be yours this Christmas. That is my wish from the heart to you.

Haven't noticed any burning of mid-night oil in Boone County of folks sitting up working on their New Year's resolutions.

It wouldn't surprise some readers if, before he is through, Dies will be investigating Dies.

COTTON STOCKINGS FOR WOMEN OF U. S.

The United States Department of Agriculture says American women are going to wear cotton stockings, thereby helping out cotton growers. In tests over a period of several months, girls in the home economics department of the Kentucky College of Agriculture found that cotton stockings last twice as long as other kinds, and look just as well.

Kentucky has about 2,000 farmers who grow about 15,000 acres of cotton this year, and more than 3,000 farmers in the State are eligible to grow cotton in the agricultural adjustment program.

Farmers in Green county have spread 19,230 tons of manure this season. The led all counties last year, when they used 9,210 tons of manure. The cover crop acreage in Green county this year is estimated at double that of any previous year.

FARM, HOME CONVENTION LAST WEEK IN JANUARY

The dates of the 29th annual Farm and Home Convention at the University of Kentucky College of Agriculture are announced as January 28, 29, 30 and 31. There will be general sessions Tuesday and Friday, according to the preliminary program, with sectional meetings Wednesday and Thursday for the consideration of such subjects as stockraising, poultry keeping, fruit growing, beekeeping, dairying, soils and crops, marketing, agricultural conservation, the rural community and the rural church.

Women will meet in separate sessions throughout the four days. Organizations to meet during the convention include the Kentucky Federation of Homemakers, the Kentucky Jersey Cattle Club, the Kentucky Guernsey Cattle Club, the Kentucky Holstein Cattle Club, the Kentucky Seed Improvement Association, the Kentucky Turkey Growers' Association, the Kentucky Rural Church Council, and the Kentucky Beekeepers' Association.

KENTUCKY 4-H'ERS WIN BLUE RIBBONS AT NATIONAL SHOW

Kentucky 4-H club girls winning blue ribbons on exhibits at the National 4-H Club Congress during the International Live Stock Exposition in Chicago were Virginia Bowles, Shelby county, on five jars of canned vegetables; Mary Ellen Rount, Oldham county, on a school dress; and Verna Mae Keightley, Oldham county, on a room improvement display.

Winning red ribbons at Chicago were Helen Schneider, Jefferson county, on five jars of canned foods; Lucy Mae Griggs, Madison county, on a dress and coat; Nancy Stolla, Fayette county, on a dress and coat; and Frances Morgerson, Fayette county, on a window treatment for a girl's room. In judging contests, the following Kentucky 4-H club members won red ribbons: Clement Cockeral and Clifton Walkins, Grayson county; Bess Jackson, Trig county; Maureen Ellis, McLean county; and Mary Ruth Griffin, Henderson county. White ribbons were won by Betty John Aere, McLean county, and Ford Shobe, Jr., Warren county.

Sheep which the University of Kentucky Experiment Station exhibited at the International Live Stock Exposition won first prizes on Hampshire and Cheviot wether

lambs and on pens of Hampshire and Cheviot lambs; fourth and seventh on Hampshire wether lambs, sixth on a pen of Hampshire lambs; first and fourth on special pens of Hampshire wether lambs; second, third, ninth and 15th on Southdown wether lambs, and second and sixth on pens of Southdown wether lambs.

The University also won sixth on an Angus steer, ninth on a Hereford steer and 12th on a Short-horn steer.

POULTRY PAYS WELL ON KENTUCKY FARMS

County agents in Kentucky are reporting profits from poultry, where bred-to-lay pullets are owned and proper attention is given to feeding, housing and sanitation.

K. W. Williams of Red Bush, Johnson county, for the year which ended October 1 made a profit above feed cost of \$467 from 200 hens.

Mrs. Melvin Woodward of Bracken county made \$270 a hen above feed cost. She started with 125 hens and finished the year with 95. The average egg production per hen was 210 eggs, and the total production, 1,981 dozens.

The Millard Daulton of Fleming county reports a profit of \$255 per hen. J. M. Clary, \$222 a hen, and several other Fleming county farmers made almost \$2 per hen.

Guy Jackson, the only farmer in Calloway to keep a complete flock record, reports a profit of \$194 per hen. He gathered an average of 144 eggs per bird.

A summary of five demonstration flocks in Mason county shows an average income of \$2.87 and an average profit of \$1.44 per hen. The best flock returned a profit of \$2.74 per hen.

Mrs. James Pendygraft of Perryville from a flock of 84 hens had total receipts for the year of \$234 and a profit over feed cost of \$129.

HERE'S THE FOODS NEEDED EVERY DAY

Appetite cannot always be followed as a guide in selecting food and one may eat enough to satisfy hunger and still have a deficient diet, it is pointed out in the Kentucky College of Agriculture publication, "Make the Farm Feed the Family."

In order that housewives may feel assured that members of their families are well fed, it is suggested that the following foods be served daily:

A quart of milk for each child and a pint for each adult. Liberal servings of butter at each meal. Two or more generous servings of vegetables other than potatoes. Two or more generous servings of fruit.

At least one egg per person, in-

cluding those used in cooking. One liberal serving per person of lean meat. Do not count bacon, which is mostly fat. One serving of whole cereal food. This may be a breakfast food, whole-wheat biscuits, muffins or a whole cereal cooked and used in the preparation of a main dish or dessert.

CHRISTMAS HAM AND BACON ARE PRACTICAL GIFTS

Food as a Christmas gift carries with it the genuine feeling of Christmas happiness, a bit of charm from the days of the past. In 1940 it's possible to incorporate this charm without continual bustle in the kitchen from Thanksgiving on.

Inez S. Wilson, home economist, suggests an assortment of meat products as Christmas gifts. Not only do they make very welcome gifts, but they are so handy to buy. You can shop so easily at your neighborhood meat market.

Christmas Ham and Bacon. A generous amount of bacon in a gay Christmas wrapping makes a very welcome gift, and a whole ham will be appreciated by all the family whether the family is your own or that of a friend. You'll find bacon and ham featured this month, with other meat products, arranged either as gift assortments or awaiting individual selection.

Canned Meats, Plain and Fancy. The large number of canned meats now available is grand to fill the recipient's emergency shelf while the fancy meat spreads for canapés or hors d'oeuvres add an interesting note to any assortment. So don't be too bothered by a puzzling Christmas list. Take a look around the market and make yours a gift of extended Christmas cheer.

WATER BAGS

If you haven't a water bag you may fill a bag with hot salt as a substitute for the lack of a rubber water bag. A fruit jar filled with hot water and wrapped in a towel will answer in an emergency. If your hot water bottle leaks, fill it with hot salt instead of water. You can often mend the leaks in your rubber water bag by sticking adhesive tape over the hole.

INSPIRATIONAL

Four thinks a man must learn to do. If he would make his record true: To think without confusion clearly; To love his fellow-men sincerely; To act from honest motives purely; To trust in God and heaven securely.

—Henry Van Dyke.

GOAT FARMERS PLAN STATE ORGANIZATION

A state organization of goat breeders, the use of goats to supply milk to families now without cows, and the health properties of goat's milk, were discussed at a meeting of goat owners at the annual fall sheep day at the University of Kentucky College of Agriculture at Lexington.

Goat breeding is a growing industry in Kentucky, it was said, and the demand for goat's milk exceeds the supply in many communities. The Alfred P. Sloan Foundation and other agencies are encouraging goat ownership by families without sufficient milk supply.

Sheep breeders discussed the control of diseases and internal parasites and proper feeding to prevent pre-lambing paralysis and other troubles.

Prices of motor fuels in Switzerland jumped 74 per cent in the last year.

Your hogs are really meat racks — racks on which you load the pounds of pork. Naturally, the bigger the racks, the more meat they carry and the easier it is to put on gains.

Francis Souther Writes Of Army Life At Ft. Custer

The following letter was received from Private Francis Keene Souther, a volunteer in the U.S. Army, and the first man to leave Boone County for service:

Dear Folks:

I am located at Ft. Custer, Mich. Co. F. 10th Inf. Barracks 2617. Company F. and E., composed of 410 soldiers.

Friday morning arose at 3 o'clock

rolled our blankets and had show at 3:45, fell in line and marched to Newport, where we boarded a special train at 7:20 (just daylight). Our luggage had been sent the day before and we were supplied with individual lunches, consisting of sandwiches, pickles, apples, cakes and coffee. We went thru Dayton to Toledo, then to Battle Creek, arriving there at 7 o'clock that night.

We marched to our new home.

Ft. Custer, which we found to be

under every stage of construction. Five hundred barracks were completed, each one being 150 feet long, two-stories high with heat, hot water, showers and everything. Besides these sleeping quarters, there are mess halls, supply houses, recreation rooms, guard houses and orderly rooms for each company, and it's all laid off in streets, extending 3 miles long and at least 1 mile wide. It is only half completed and it's difficult to imagine magnitude of this post, it's huge, gigantic and colossal.

We all have heavy wool underwear and good warm clothes. I guess it won't be so bad. So far, I'm satisfied.

FAMILY DOCTOR

Green vegetables should be eaten to add iron to your system. The less water you have to use in cooking green vegetables, the more iron you will retain for your health's sake. Pineapple is a good preventative for colds, a doctor tells us. This includes canned as well as fresh pineapple. Pineapple builds up resistance and is high in vitamin content.

Japan faces a salt scarcity.

PROPER LIVESTOCK GRADING NECESSARY

Kentucky's livestock auction markets should adopt a uniform system of grading and of reporting these grades and prices to the newspapers for publication.

If you have studied market quotations from various markets as they are listed in our newspapers you will see that not only do prices vary considerably, but that no two markets report their grade prices in the same manner. We read lambs 9.25 per hundred without sort. Is this strictly true or were these choice lambs. There is a high, medium and low of any grade and in order that we may know definitely the price of lambs so that we may compare markets it would only be fair that all lambs in this grade be averaged in one price.

Another hindrance to the understanding of our markets reports are: "Tops" may be listed on one market at \$10.00 and on another \$9.50. That may be the highest prices paid, but were the \$9.50 lambs as good as the \$10.00 lambs. We have no way of knowing from our reports.

If our stockyards would adopt a standard system of grading and the reporting of prices the task of the farmer would be much easier in making a decision. Prices as they are reported today by the auction

markets are probably of very little value if the farmer is trying to decide what will be the most profitable grade and weight to sell his stock.

Probably one solution of this matter would be a disinterested, thoroughly competent grader who would grade the lambs on a head-age basis into government grades and each market report according to these grades. If this was done we would probably see very little variation in price.

If these newspaper reports are for the benefit of the farmers why not make them in a manner so that they can be understood and compared. It will result in a larger income to the farmer, and the Marketing Division of the State Department of Agriculture is interested in this accomplishment.

Other states have standardized their grades and reports. Why can't the Kentucky farmer receive the same help as his neighbors in other states.

Dairy farmers in 1941 may expect their largest income for any year since 1931, says an outlook report of the Kentucky College of Agriculture. Business is improving, people are buying more dairy products, and the relationship between prices of dairy products and feeds continues favorable.

SAYS HYBRID CORN GAVE BIG RETURNS

An investment of about \$6,000 in hybrid seed corn last spring returned approximately \$40,000 to Logan county farmers, according to County Agent John R. Watlington. The 10,000 acres of hybrid corn outyielded common corns by about 17 percent. This increased production, calculated at 60 cents a bushel, would be worth at least \$40,000 Watlington says.

In addition to higher yields, the Logan county men noted that hybrid corn matured faster than other corn, and thus permitted earlier seeding of cover crops.

It might be a good idea to see if we would get sick licking the back of Christmas Seal stamps.

Why Be Old At 40?

N. TULCH
Foot Comfort Specialist at—
PEOPLE'S FOOT COMFORT
313 and Madison Covington

Do you have severe pains in the muscles of your legs?
Do you walk with toes pointed out?
Are you bedeviled by a thousand demons tearing at your back?
Do you hate to get up in the morning?
Do you experience foot pain when walking?
Can you be on your feet all day without fatigue?
Any or all of these conditions may indicate that one or more of the four arches of your feet are on the verge of collapse. There is really no end of the trouble that such a condition could cause. Around the bones and muscles of your feet are numerous nerves, all of which are directly connected with the nerve center. Severe pains in your feet are transmitted to every part of your body.

What can you do about it?
For years men and women have withstood the aches and misery due to some foot condition and have always decided "There is nothing you can do about it."

Now Comes a Sure Way to Relief for many aches and pains due to faulty foot condition. You will be eager to rise each morning and meet the conditions of the new day. You will have the springy active step of a youngster of eighteen. You will not be old at forty! There is no secret to it. You don't have to take a long rest, nor a change of climate. You need only to be correctly fitted in a pair of surgical shoes. You may think this is a simple way to end all of pain and misery, you have been suffering for a good many years, but after all don't the simplest things in life bring the greatest joy?

Resolve today that you will pronounce the death sentence on the misery, aches and pains due to foot trouble.—Adv.

RECORD SET IN ETHYL ALCOHOL PRODUCTION

More ethyl alcohol was produced, and more was used for denaturation, during the fiscal year ended June 30, 1940, than in any previous year in Bureau records, according to the annual statistical release on industrial alcohol issued today by Commissioner of Internal Revenue Guy T. Helvering.

The production of ethyl alcohol in the year amounted to 243,727,756 proof gallons. This exceeded by more than 20,000,000 proof gallons the previous peak year of 1937. The largest producing states were Pennsylvania, New Jersey, West Virginia, Louisiana, Indiana, and Maryland, in the order named.

Of the total withdrawals of ethyl alcohol during the fiscal year, 24,344,306 proof gallons were withdrawn on payment of tax, and 227,476,422 proof gallons were withdrawn tax-free. Withdrawals of ethyl alcohol for denaturation, which amounted to 223,321,704 proof gallons, accounted for most of the tax-free withdrawals. The largest withdrawals of ethyl alcohol for denaturation in any previous year occurred in 1926, when 191,670,107 proof gallons were withdrawn. The high point in tax-free withdrawals of ethyl alcohol, reached in 1940, was largely the result of the increased demand for specially denatured alcohol, which is an essential material in many manufacturing industries. The production of specially denatured alcohol for the fiscal year 1940 amounted to 111,409,797 wine gallons, which compares with the previous peak production of 83,561,077 wine gallons for the fiscal year 1939.

TOBACCO YIELDS WELL IN ADAIR CO.

One of the best tobacco yields reported this season is 1,306 pounds from slightly less than two-thirds of an acre on the farm of John Dunbar in Adair county. The land was rich, and 20 percent superphosphate was applied at the rate of 500 pounds to the acre, and complete fertilizer used along the rows. Mr. Dunbar sold the tobacco in the patch for \$324.

E. H. Bradshaw, also of Adair county, grew 1,292 pounds of tobacco on an acre and two-tenths. This land was well manured and 300 pounds of 4-10-6 fertilizer used along the rows. Both men grew Kentucky No. 16 burley tobacco.

ACID FOOD FEAR IS BOGEY, SAYS U. S. D. A.

"We eat too many acid foods" is an unfounded idea in which many persons have firm faith. They proceed accordingly, and shun oranges, tomatoes and other acid foods—for fear of acid. The taste is acid, but actually these foods—for fear of acid. The taste is acid, but actually these foods and most other fruits and vegetables have the opposite effect when eaten. They tend to counteract acidity. There is no need to worry about acid-forming and base-forming foods, say the nutritionists of the Federal Bureau of Home Economics. If a person has a well-rounded diet that includes plenty of milk, eggs, fruits, vegetables and cereals with some meat, fish or poultry. It is better, they emphasize, to focus attention on adequate diets than to fret about acid-forming diets.

Along the same line is the fancy about the danger of eating acid fruits and milk at the same meal. It is true that the acid fruits may curdle the milk, but the digestive juices of the stomach have the same effect. So it is perfectly safe to eat cherries and drink milk at the same meal, and to use orange juice in a milk drink.

Another false food idea is that one should not eat different fruits together because there is danger in combining the different acids. Nutritionists explain that there is no possible harm in fruit combinations. Nature even combines different acids within a single fruit.

STUDY CONDITIONS IN HOPKINS COUNTY

A planning committee in Hopkins county, Kentucky, working in cooperation with the county and home demonstration agents, the State College of Agriculture and other agencies, made a study of farm conditions. Recommendations of the committee's report included soil conservation, housing, schools, health, sanitation, roads, rural electrification, community activities, stock raising, 4-H club work and reforestation.

HIGHER PRICE FOR HOGS IN PROSPECT

Higher prices for hogs in 1941 are in prospect at the present time, according to the annual agricultural outlook prepared by the Department of Markets and Rural Finance in the Agricultural Experiment Station at Lexington.

The pig crop of the nation was about 10 percent smaller in 1940 than in 1939 and present indications are that there will be no larger crop of pigs in the spring of 1941 than in 1940. If the present hog and corn price relationship has its usual effect on the breedings of sows for spring farrowing, Total Slaughter supplies of hogs in the marketing year 1940-41, which began October 1, will accordingly be smaller than for the previous year.

Since the number of pigs farrowed in the fall declined relatively more than in the spring of 1940, marketings of hogs may decline relatively more in the second quarter than in the first quarter of 1941.

The demand for pork is also expected to be better in 1941. Payrolls are expected to be larger and since consumption of pork responds quickly to improvement in consumer's purchasing power this is expected to have a favorable effect on prices received by farmers for hogs. The export demand for pork and lard may be weak but since American exports of these products have been small in recent years, such weakness is not expected to be an important price depressing influence in 1941.

THE FARM AND HOME

In canning meat in glass jars, precooking shrinks the product so that it packs better, and also insures adequate processing. It may be precooked in the oven, in fat or in a small amount of water. It should not be packed too tight. Normally, a horse will drink

about 12 gallons of water daily; a cow, 12 gallons; a sheep, one gallon; a hog, two gallons, and chickens, five gallons per 100 birds. Consumption may be less in cold weather, or in the case of impure water.

To make "creamy eggs," pour 8 or 9 unbeaten eggs into the top of a double boiler, add a fourth of a cup of whole milk, a teaspoon of salt and a bit of pepper. Cook over boiling water, stirring constantly, until the eggs are fluffy and creamy.

SORGHUM ASSOCIATION
SELLS 3,700 GALLONS
The Sorghum Producers' Cooperative Association of Menifee county, Kentucky, reports the sale of

3,700 gallons of molasses this season, at an average price of 70 cents a gallon. It was put up in quart, half-gallon and gallon cans, and sold mostly to grocery store

owners in Central and Eastern Kentucky, with a few hundred gallons going to other states.
The molasses was made from home-grown sorghum cane on the farms of the 20 members of the association and sent to Frenchburg for blending and grading. It then went to retailers bearing the label "Kentucky Sorghum." Yields averaged about 105 gallons to the acre.

The cooperative association received assistance in marketing from the Department of Markets and Rural Finance, and in the construction and operation of the blending plant from the Department of Agricultural Engineering, at the College of Agriculture at Lexington.
Plans for next year include a larger membership of farmers in Menifee county, and extended the association to Bath and Wolfe counties. Contacts have been made with chain stores in Ohio, West Virginia and other states, in an effort to extend and improve the market for Kentucky sorghum molasses.

One could not ask for greater happiness, than to be able to sincerely say and mean "Merry Christmas."

The Christmas spirit makes shoppers heavy on their feet and light in their hearts, though warm in their hearts.

TOMATOES, PICKLES

HELP MEADE FARMERS

Farmers in Meade county, Kentucky, added to their incomes this year by marketing 525 tons of tomatoes. The average yield was more than three tons to the acre, but several farmers produced five to eight tons to the acre, two farmers picked more than 10 tons to the acre, and Joe Vessels delivered 26 tons from two acres.

Forty-seven Meade county farmers grew pickles this year. While their average returns were only about \$25 to the acre, several men made \$50 to \$100 an acre from pickles. County Agent Fred Hafer says the returns were good, considering the season.

Another thing that is all fagged out during the Xmas holidays is the vacuum sweeper, from picking up tree needles.

PERMITS REQUIRED TO EXPORT TOBACCO SEED

mit must be had from the Secretary of Agriculture before tobacco seed or plants may be sent to foreign countries. The law says that law which forbids the exportation where the seed or plants are to be of tobacco seed and plants, except used for experimental purposes in for experimental research. A per-

scientific research.

3-WAY ROAST IS NEW IDEA IN ECONOMY

A three-way roast beef is a new idea in economy buying. The sixth and seventh ribs of beef, a cut ordinarily considered too large for family use, is recommended as a source of meat for three distinct meals.

It will provide a small pot roast, a small roast or steaks and ground beef or stew.

Pot-Roast From Chuck Muscle

Your meat retailer will divide the roast into these cuts for you. Ask him to saw across the rib four inches above the chine bone, then lift the rib ends and outside chuck muscle from the eye muscle.

The cartilage and rib ends can then be removed from this strip, leaving a long, thin muscle which can be rolled and tied into a compact, boneless pot-roast.

Roll Pot-Roast

2 tablespoons lard
1 small onion
Salt and pepper
1 cup hot water

Use rolled and tied pot-roast made from 6th and 7th ribs of beef. Wipe with a damp cloth when in hot fat. Add sliced onion and seasoning. Combine water and catsup. When onions are slightly browned, add a small amount of water and catsup mixture. Cover tightly and allow to simmer slowly, adding more liquid when necessary. Allow 45 minutes per pound. Peel potatoes and add to roast 45 minutes before done. Turn potatoes twice during cooking.

Steaks From Eye Muscle

The eye muscle when lifted from the backbone can be cut into thick boneless steaks or left in one piece, wrapped in cod fat and roasted.

Country Club Steaks

Have the eye of the 6th and 7th ribs of beef sliced in one-inch thick steaks. Wipe with a damp cloth. Place steaks on the broiler rack, allowing three inches between the surface of the meat and the source of heat. When steaks are nicely brown on one side, season, turn and brown on other side.

Third Meal May Vary

The meat from the ribs and around the backbones may be cooked with the bones for soup, used as the base for a delicious stew or ground and used for meat patties, meat loaf or in one-dish meal, such as Spaghetti Hamburg.

Spaghetti Hamburg

1 pound ground beef
tablespoons lard
Salt and pepper
3 tablespoons grated onion
1 small can broken mushrooms

Roll meat into small patties. Brown in lard. Add onion and mushrooms. Simmer 15 minutes.

MILK BIG WEAPON AGAINST RICKETS

Milk is the one big weapon against rickets, says home economists at the Kentucky College of Agriculture. Cod liver oil also may be needed in winter.

Rickets do the most damage to children, with results affecting them all their lives. It causes bow legs, stiff joints and lowered resistance to disease. To prevent rickets, a child should have at least a quart of milk every day.

TONIGHT AND FRIDAY

Mickey Rooney and Judy Garland, heading a rollicking juvenile group, provide music with laughs in "Strike Up the Band," gay musical romance of youth.

Mickey and Judy, aided and abetted by June Preisler and other clever youngsters, many seen with them in "Babes in Arms," organize a swing band in high school. Their adventures range from staging a comical travesty on old-time plays, with "corny" songs, to smart ball-room work, modern song hits such as "Nobody" and "Our Love Affair," and a big climax in a radio studio where they win Paul Whiteman's prize with Gerchewin's "Strike Up the Band," embellished

by comical specialties.

SATURDAY

Weaving its colorful theme around the exciting, absorbing details of designing and pre-testing new aircraft, "Men Against the Sky" presents Richard Dix, Kent Taylor, Edmund Lowe and Wendy Barrie as the four human factors whose problems provide romance, suspense and action.

After frantically striving to promote finances, Lowe, an airplane manufacturer, finds that Taylor, his chief engineer, is having design trouble with their high speed pursuit ship which is being rushed to beat competition. The problem is solved when Miss Barrie, a draftsman, submits a unique idea. The real creator of the idea, however, is Dix, a discredited, unemployed pilot and brother of the girl, whom he knows is secretly in love with the chief engineer. But when Dix accidentally ruins matters by cracking up the finished

model in a test flight, he precipitates a series of dramatic as well as romantic complications which mount to a swift-paced climax.

SUNDAY AND MONDAY

"Third Finger, Left Hand" starring Myrna Loy and Melvyn Douglas is one of the best comedies of the year, and you will be interested from beginning to end. Added attractions will be a news reel and cartoon.

TUESDAY

Due to many requests the picture "In Old Chicago," will be shown one night only at the Gaiety. Starring in this picture are Alice Payne and Don Ameche. It's rated as one of the best, and played for several weeks in the larger theaters. Last chance to see this big picture. Also cartoon.

History Of Blyth Family

The following history of the Blyth family was compiled by A. B. Rouse:

Arthur Blyth was born in Glasgow, Scotland, on September 19th, 1817, and died at Burlington, Ky., on July 6th, 1898.

Arthur Blyth, after four weeks' voyage from Scotland landed in New York and made his way to Pittsburgh, and from there, on a flatboat to Cincinnati, Ohio, where he served for three years as a cabinmaker for George W. McAlpin.

He then located at Burlington, Kentucky, where he continued his trade as a cabinmaker and farmer. A number of old residents of Boone and surrounding counties have in their homes furniture made by him.

He married Sarah Hughes of Burlington on the 28th day of May 1839. Sarah Hughes was born at Burlington, Kentucky, on the 28th day of February, 1820, and died at Burlington on the 10th day of December, 1895. To this union thirteen children were born in Burlington, all of whom have passed to the Great Beyond.

The name, date of birth, marriage, and death of each child is as follows:

Anna Jane Blyth, born May 11, 1840, died June 2nd, 1842.

Thomas Blyth, born April 1st, 1842, married Mary, June, February 28th, 1878, died October 17th, 1913.

Mary Jane Blyth, born April 1st, 1842, married Clark Green, January 11, 1866, died July 16th, 1899.

Jennetta Blyth, born November 19, 1845, married R. C. Perkins April 11, 1866, died February 1st, 1910.

Jeremiah Blyth, born October 3, 1847, married Eugenia Fowler December 15th, 1869, died July 15, 1915.

James Arthur Blyth, born October 24, 1849, died May 6th, 1850.

Theresa Blyth, born March 14, 1851, married P. P. Walton September 4th, 1873, died September 15th, 1928.

Eliza Jane Blyth, born February 26, 1853, married Dudley Rouse,

September 4, 1873, died December 21st, 1920.

George Blyth, born August 12th, 1855, married Laura Huey, June 9th, 1881, died April 26th, 1934.

James H. Blyth, born January 3rd, 1858, married Jenny Johnson, October 26th, 1887, died April 21st, 1929.

Henry H. Blyth, born January 3, 1858, married Minnie Smith May 26th, 1886, died January 15, 1933.

David C. Blyth, born November 21st, 1860, married Lucy Dadds, October 20th, 1890, died December 5th, 1940.

Lucy Allen Blyth, born January 12, 1863, married Grant Dempsey November 11th, 1890, died September 23rd, 1900.

Dairymen Discuss Cheaper Rations

Better rations at a lower cost, combined with prospects for higher dairy prices should make dairymen more profitable, according to George Harris, Dairy Field Agent of the College of Agriculture. Feed prices are expected to advance but considerable saving can be made through the careful selection of feeds purchased and balancing them with home grown feeds, according to Mr. Harris.

Mr. Harris addressed dairymen at the county dairy feeding school held at Burlington last Wednesday. The meeting was considered one of the most practical and interesting one of its kind held to date.

Dairymen considered the foundation for cheaper feed costs was the production of high quality legume hay, especially alfalfa, and through use of good pastures over a long period of grazing. Pasture was considered the cheapest and best feed and legume hay second.

High producing cows should be given an additional grain supply. Legume hay production can be greatly increased through use of lime and phosphate made available through the Agricultural Conservation Program.

CHAS. ROSENSTEL CHARGED WITH WRECKLESS DRIVING AND OPERATING CAR WHILE INTOXICATED.

Chas. Rosenstiel, 26, of near Florence was arrested last week following an accident at Zimmer Gardens, in which Ben Zimmer, Jr. was seriously injured.

Rosenstiel was charged with wreckless driving and operating a motor vehicle while intoxicated. When arranged before Judge N. E. Riddell Friday he was placed at \$500.00 and trial set for January 10th.

Rosenstiel was the driver of the car which crashed into another car near Zimmer Gardens early Sunday, December 15th, pinning young Zimmer between the two cars. Zimmer was reported to be suffering from a fracture above the knee, leg broken in two places below the knee, and an ankle fracture.

At the time of this writing, reports from the hospital indicated that Mr. Zimmer had a fair chance of recovery.

Idlewild Farm Sold To Norwood, O., Man

Mrs. Bertha Davis has sold her farm of 17 1/2 acres near Idlewild to Mr. Edward J. Shannon of Norwood. Possession to be given March 1st.

Mr. Shannon is a manufacturer of wood and metal products and the farm will be operated by a property owner.

It is not the present intention of Mr. Shannon to move to the farm, but expects to spend the summers at the farm and will operate by tenants.

This farm is known as the James Taylor Gaines farm and has been in this family for over fifty years. The improvements and buildings have been well taken care of and is regarded as one of the best farms in Boone County. The residence is located on high ground affording a view of three states. The improvements consist of a 10-room two-story brick house with bath, electric, 5-room tenant house, three barns and other out-buildings.

A. B. Renaker, cashier of the Peoples Deposit handled the sale for Mrs. Davis who is spending the winter in St. Petersburg, Fla.

Orin Edwards, of Union, R. 1, was a business visitor in Burlington Saturday morning, and while here called at the Recorder office, having his subscription moved up another year.

HEALTH LAW IS DISCUSSED

AT MEETING HELD IN LOUISVILLE - NEW MARRIAGE HEALTH LAW BECOMES EFFECTIVE JANUARY 1.

Marriages of eligible couples under a new state law requiring premarital physical examinations will not be delayed more than two or three hours. Dr. A. T. McCormick, state health commissioner, told members of the Kentucky County Clerks Association in Louisville.

The new law becomes effective January 1st.

The procedure, he said, would be for individuals wishing to marry to go to a physician of their choice or a county health officer. The physician then send them to a certified laboratory for a blood test. These laboratories are scattered throughout the state.

The applicant then returns a sealed report of the test results to the physician and if the applicant is free of syphilis, he receives a certificate which must be presented to the county clerk before a license can be issued legally.

The average cost of the examinations will be \$2, Dr. McCormick said.

With the exception of Ohio, all states bordering Kentucky have similar laws.

Dr. John R. Pate, consultant for the State Health Department estimated an average of 100,000 persons were married in Kentucky each year. Available records indicated, he said, that 2000 persons could be expected to be infected.

Week's Vacation Planned By Boone Co. Recorder Staff

Adhering to a custom originating many years ago by The Recorder, no paper will be published next week.

The Recorder staff welcomes this week, as it gives them a few days to relax from the usual routine of newspaper work, and gives them an opportunity to enjoy a few days of the hunting season.

This week our paper is being published Monday, therefore we are unable to gather a large amount of news. We regret this shortage of news, but will endeavor to give you a larger paper for the first week in January. Our next publication date will be Thursday, January 9th.

At this time was wish to extend best wishes to each and every person for a Merry Christmas and a Bright and Prosperous New Year.

BURLINGTON DROPS GAME

TO A. J. JOLLY ON LOCAL FLOOR - NEW HAVEN SUFFERS DEFEAT AT HANDS OF ALEXANDRIA.

The basketball team from A. J. Jolly, Campbell county, trounced the Burlington five Friday night by a score of 39 to 25, on the local floor. Jolly took the lead at the end of the first quarter and maintained a safe lead throughout the game. Jolly of the winning five was high point man with 16, while William Tinklenberg led the losers with 7 points.

The Burlington reserves suffered defeat at the hands of the Jolly reserves by a score of 17 to 16.

The New Haven Tigers lost to the Alexandria Camels on the winner's court Friday night by a 55-35 score. It marked Alexandria's twelfth consecutive victory. Bobby Shields with fifteen and Virgil JUDGE with thirteen points were best offensively for New Haven. Welhaus with twenty showed the way for Alexandria.

New Haven's next game will be with Burlington on January 10. The game will be played at New Haven.

Hamilton took a stronger hold on second place in the Boone County Conference by winning over Hebron 47 to 27 on the Hamilton floor Friday night.

The victory was Hamilton's fourth in five conference games. Hebron has won one game in the league. Saturday night Hebron met Alexandria in a non-conference game at Hebron.

Due to an epidemic of influenza in the Walton school the basketball game scheduled Friday night between Florence Knights and Walton-Verona was postponed.

Local Poet Wins Place In Important Volume

Miss Betty Jo Weaver, teacher, of Union, Ky., is one of the authors whose poems are included in Poets of America, 1940, Democracy Speaks, a 700-page volume just published. More than 12,000 poets living in every part of the United States and Canada competed for a place in this important volume; only a small percentage of these were found to write poetry of sufficient merit to be accorded a place in the book. The volume contains the work of little-known authors as well as that of writers who have been published in many magazines and books. A similar volume is now being compiled and poets who are interested in having their work considered for the new book should write to the publishers for information: Avon House, 1107 Broadway, New York N. Y.

Hebron Lodge To Meet December 27th

Hebron Lodge No. 757 F. & A. M. will hold a meeting at the Hebron school, St. John's Day, Friday, December 27th, at 7:00 p. m.

At 7:30 the election of officers will be held. At 8:00 p. m. an oyster supper in the school kitchen for Masons and their families will be enjoyed.

As a special feature of the program the lodge will have some of the Pastmasters of Golden Rule Lodge No. 345 and Col Clay Lodge No. 159, who will have charge of installation ceremonies.

The public is invited to the open session of the meeting.

PEACE BE WITHIN US

Each year some Scrooge says the universal Christmas spirit is dead, that man has come so far from the shadow of the Bethlehem manger that he ceases to reflect in its symbolic tidings. That is not true. Man thinks himself as great, is proud of his possessions, of his daring, courage and capabilities. He boasts of worldly gains, of his advantages, of his physical and mental attainments. Man believes himself unbeatable and invulnerable, until along comes Christmas to revive the spirit of goodness, tolerance, faith and love. However base our desires, however cruel our intentions, however comfortless our natures, each year and turn to God. The spell of Christmas, the symbol of fear and stable, touch the human universal heart, brings remembrance and awakens within man those virtues that make him akin to his Maker.

We have come many Christmas-tides from that birthday of over 1900 years ago. We have lived a thousands years in endeavoring to justify ourselves in the eyes of our fellows. We have used wisdom and kindness, sympathy and gentleness, for in each is the capacity to be these sometime during a lifetime. But perhaps we have permitted the false gods of power and wealth to over-ride our gentle traits and dim the true nature with a false face of personal greed.

Would we be where we are today if we had heeded the cry for peace and good-will? Though nation fight nation, their people oppressed and suffering, there still remains the universal spirit for Christmas. No matter what effort a country makes to keep Christmas from the boundary-line, regardless of laws against religion, the heart hangs up its stars and wreaths, the spirit sings of the light of the star, there is the odor of sweet hay and the vision of the Mother holding aloft the Christ child. You cannot blind man to the creed with which he was born or erase from his soul the inheritance from that Holy Baby.

As we busily bedeck the Christmas trees of Boone County, as we purchase and as we receive, being fatigued by the material part of the holiday, let us remember the spiritual Christmas that is reverent and profound in its true meaning. Our faith promises through peace "good-will among men." To deny it we reap that which is about us, war and hate and greed. So let us throw off the burden of man-made misery, hearken to the angel of peace, the star of God's guidance, the wreath of glory and the carol that sings of our great blessings through love and peace within us.

PAYMENT RATES ARE ANNOUNCED

FOR 1941 CONSERVATION PROGRAM - MORE FUNDS AVAILABLE FOR SOIL-BUILDING PRACTICES.

Conservation payment rates substantially the same as in 1940 and a total acreage goal for all soil-depleting crops the same as the 1940 acreage goal were announced December 10 for the 1941 Agricultural Conservation Program by the Agricultural Adjustment Administration.

The principal change in payments, as part of a continuing policy of placing more emphasis on soil conservation, makes available a greater share of the funds for carrying out approved soil-building practices.

A reduction in the acreage goals for dark tobaccos and a small upward adjustment in the acreage goal for burley tobacco were among the changes in goals for individual crops, but the total acreage goal for all soil-depleting crops in 1941 is 270,000,000 to 285,000,000 acres, the same as the goal established for 1940.

Adjustments in rates of payment for compliance with special acreage allotments have been made, funds are being allocated for conservation practices, because of increased average yields.

Rates of conservation payments to be made in 1941 to Kentucky farmers who plant within their special crop allotments are as follows: Corn (in the 12 commercial corn counties of the State), 9 cents a bushel; cotton, 1.37 cents a pound; wheat (on farms with commercial allotments) 2.3 cents a bushel; potatoes (on farms with commercial allotments) 2.3 cents a bushel; burley tobacco, 0.8 cents a pound; fire-cured tobacco, 1.5 cents a pound; dark air-cured tobacco, 1 cent a pound; and vegetables (on farms with commercial allotments), 1.30 cent a acre. These

rates are based on the normal yield of the 1941 acreage allotments.

The 1940 conservation payment rates for these commodities were: Corn, 9 cents a bushel; cotton, 1.44 cents a pound; wheat, 8.1 cents a bushel; potatoes, 2.7 cents a bushel; burley tobacco 0.9 cent a pound; fire-cured and dark air-cured tobaccos, 1.08 cents a pound; and vegetables, \$1.35 an acre.

National acreage goals for those crops with allotments are established in Kentucky are as follows:

Wheat—The 1941 National goal is 60,000,000 to 65,000,000 acres, the same as the goal in 1940, compared with a 1940 planted acreage of 64,888,000.

Corn—The 1941 National goal is 88,000,000 to 90,000,000 acres, the same as the goal in 1940, compared with a 1940 planted acreage of 88,116,000.

Cotton—The 1941 National goal is 27,000,000 to 29,000,000 acres, the same as the goal in 1940, compared with a 1940 planted acreage of 25,077,000.

Potatoes—The 1941 National goal is 3,100,000 to 3,300,000 acres, the same as the goal in 1940, compared with a 1940 planted acreage of 3,122,000.

Burley tobacco—The 1941 National goal is 370,000 to 390,000 acres, compared with a 1940 goal of 380,000 to 370,000 acres and with a 1940 planted acreage of 380,800.

Dark air-cured tobacco—The 1941 National goal is 30,000 to 32,000 acres, compared with a 1940 planted acreage of 45,000.

Dark fire-cured tobacco—The 1941 National goal is 30,000 to 32,000 acres, compared with a 1940 planted acreage of 112,200.

Commercial vegetables—The 1941 National goal is equivalent to that established in 1938 and 1937.

The general crop National acreage goal for 1941 is 140,000,000 to 150,000,000 acres, compared with a goal for 1940 of 145,000,000 to 150,000,000 acres.

Comparative figures are not available on the goals for the dark tobaccos in 1940 since three types, including one not produced in Kentucky, were combined in establishing the 1940 goal. Both fire-cured and dark air-cured goals are

lowered in 1941, however.

Special allotment acreage goals for corn, wheat, cotton, and tobacco for 1941 are below the 1938-1937 average planted acreage of these crops.

A soil-building allowance will be set for each farm on the basis of the farm's cropland, non-crop pasture, commercial vegetables, commercial orchards and other factors; and rates and procedure for establishing these allowances in 1941 are about the same as in 1940.

Because a larger proportion of the funds for 1941 will be available for these practices and because provisions have been made for greater local adaptation, farmers have an opportunity to carry out a more comprehensive conservation program in earning these allowances in 1941.

"This increased emphasis on conservation through soil-building practices in 1941 is another step toward our goal of getting more conservation every year," R. M. Evans, AAA administrator, said in announcing the 1941 payment rates and acreage goals.

As in previous years, it is pointed out, the payments are contingent upon the \$500,000,000 annual appropriation authorized in the Agricultural Adjustment Act of 1938, and the rates are subject to participation when final payments are made.

Conservation payments for four commodities produced in Kentucky—wheat, corn, cotton and tobacco—will be supplemented by parity payments from a separate appropriation of \$212,000,000 already made if the 1940 season average prices for these commodities fall below the established parity prices.

Conservation payments for four commodities produced in Kentucky—wheat, corn, cotton and tobacco—will be supplemented by parity payments from a separate appropriation of \$212,000,000 already made if the 1940 season average prices for these commodities fall below the established parity prices.

Large Building Being Erected In Elsmere To House Super Market

Mrs. Lola Herschling, proprietor of Dixie Dry Goods announces the erection of a new building just south of her store in Elsmere. The new building has been under construction for the past several weeks and will be completed in the near future.

The building is of brick construction and is modern in every detail. The building will be a one-story structure.

Mrs. Herschling stated that the new structure will house a Kroger Super Market. She also stated that a ten-year lease had been taken on the building by the Kroger Co. The stores of Elsmere, Erlanger, and Florence will be combined for the Elsmere Super Market.

Burley Market Closes For Holiday Season

The Kenton Loose Leaf Tobacco Warehouse sales Friday closed the pre-holiday market for northern Kentucky. Further sales will be conducted until the morning of Monday, Dec. 30, Herbert Whitley, Manager announced.

Because of the poor grade of tobacco offered for sale, Friday's income resulted in the lowest average reported for December. A total of 19,882 pounds was sold for \$2892.28, an average of \$14.55.

Though no sales are being held the Covington warehouse will be open daily to receive tobacco in preparation for the next market on Dec. 30, it was announced.

Mrs. Ella Herzog

Mrs. Ella Herzog, Flora and Garvey avenues, Elsmere, died Saturday at St. Elizabeth Hospital, Covington, after a short illness. She was 57.

She leaves five sons, Lawrence Charles, Ralph, John and Bernard, and four daughters, Sister John Martin, Sister Ruxilla, Sister Mary and Sister Euphrasia, Sisters of Divine Providence, St. Ann Convent, Meabourne, Ky.

Funeral arrangements were in charge of Philip Tallaferro, Erlanger funeral director.

Kentucky Tobacco And Cotton Quota Votes Are Listed

Preliminary summaries of votes cast by Kentucky farmers in four marketing quota referendums this year show that burley quotas were approved for the next three years by a favorable vote of 81.1 per cent, dark fire-cured quotas were approved for the next three years by a vote of 88.9 per cent, dark air-cured quotas were approved for the next three years by a vote of 87.8 per cent, and a cotton marketing quota was approved for 1941 by a favorable vote of 97.5 per cent.

The three-year quotas for burley tobacco carried in the referendum of November 23 by more than the required two-thirds majority in all but nine counties of the State where votes were cast. In these nine counties three-year quotas were favored by 50 per cent or more of those voting.

Three-year quotas were approved for dark fire-cured and dark air-cured tobaccos by more than two-thirds in all but two of the counties reporting votes and the 1941 cotton quota received more than an 80 percent vote of approval in seven of the eight counties where votes were cast in the referendum of December 7.

In the burley referendum the total State vote was: For three-year quotas, 78,591; for a 1941 quota only, 2,910; against quotas, 15,464.

State totals in the other three referendums were: Dark fire-cured tobacco—for three-year quotas, 7,856; for a 1941 quota only, 131; against quotas, 829; Dark air-cured tobacco—for three-year quotas, 8,981; for a 1941 quota only, 192; against quotas, 928; Cotton—for the 1941 quota, 1,18; against the quota, 31.

FLU REPORTED IN WALTON

According to a report from Dr. R. E. Ryle, Walton physician, there are approximately 25 cases of flu in the Walton precinct. Several days ago it was reported that there were 200 citizens suffering from the disease. This report was false.

Dr. Ryle stated that the disease was a mild affecting a person for only two or three days.

PROMINENT LADY CALLED

WAS LIFE-LONG RESIDENT OF FLORENCE - HAD TAUGHT MUSIC FOR THE PAST FORTY YEARS.

Mrs. Fannie Clutterbuck, 74, well known Florence lady, died Thursday at Booth Hospital, Covington, after a short illness.

Mrs. Clutterbuck lived in the home and was in charge of the memorial birthplace of the famed John Uri Lloyd. She was a life-long resident of Florence and a member of the Hopeful Lutheran Church.

Mrs. Clutterbuck will be greatly missed in her community. She was very active in civic and church affairs, and was loved by everyone who had the pleasure of making her acquaintance.

She was a graduate of the Cincinnati Conservatory of Music, and had taught piano lessons for more than forty years.

She is survived by a daughter, Mrs. Lloyd Aylor, Florence; a son, Carl Clutterbuck, Ludlow; three brothers, one sister and one grandchild.

Funeral services were conducted Sunday at 2 p. m. in the Hopeful Lutheran Church, with Rev. H. M. Hauser, her pastor, officiating. Burial was in Hopeful cemetery.

Tharp and Smith, Florence funeral directors were in charge of arrangements.

Mrs. Bertha E. Kinman

Services for Mrs. Bertha Eda Kinman, 15 W. 11th Street, Covington, who died Thursday at her home, were held at 1 p. m. Saturday at the Walton Baptist Church. She was 55.

Mrs. Kinman was a former resident of Walton, having moved to Covington one year ago. She was a member of the Vine Run Baptist Church and the Grant County Daughters of America, Council No. 63, Dry Ridge.

She leaves two daughters, Misses Virginia and Essalene Kinman, two sisters, Mrs. Verna Lafferty, Covington and Mrs. Ella Webb, Cincinnati.

Burial was in Napoleon cemetery.

MAJOR BROWN RESIGNS POST

AS DIRECTOR OF THE DIVISION OF GAME AND FISH - STEVE WAKEFIELD LIKELY TO SUCCEED BROWN.

Maj. James Brown, director of the Division of Game and Fish in the Kentucky Department of Conservation, announced his resignation at a meeting of the Advisory Game and Fish Commission Friday.

Maj. Brown has accepted a similar position with the Louisiana Department of Conservation, it has been reported from Louisiana.

The chief of Kentucky's game and fish division has the administration of the funds derived from the sale of hunting and fishing licenses.

According to reports Maj. Brown will accept the post in Louisiana with a substantial increase in salary over the local position.

Steve A. Wakefield, assistant director of the Division will become acting director if the division's Advisory Commission and the League of Kentucky Sportsmen approve, Gov. Johnson announced.

Maj. Brown's resignation will be effective Dec. 31, when he will take his new post at New Orleans.

Maj. Brown recommended Mr. Wakefield as his successor.

Gov. Johnson said Mr. Wakefield seems to be the choice of those with whom he has conferred. The governor said Maj. Brown leaving was "a distinct loss to my administration and state."

If Governor Keen Johnson holds to precedent set by former Gov. A. B. Chandler, the Advisory Game and Fish Commission will be allowed to recommend Maj. Brown's successor.

HICKS MOTOR COMPANY

IMPROVES LOCATION

On January 1, 1941, the Hicks Motor Company, authorized Ford and Mercury distributors in Northern Kentucky will move their location to a larger and more convenient place of doing business at 424 Scott street.

During the month of December, the building at 424 Scott Street is being repaired and fitted for occupancy. A crew of cleaners are at work completely cleaning the interior of the building, so that customers may be served accord-

ing to Ford standards of cleanliness.

The show room is being decorated in an entirely new modernistic color scheme. New style high intensity lighting is being put throughout the building, which is especially attractive in the showroom. This lighting gives correct color tone to the new color combinations offered in the Ford, Mercury and Lincoln-Zephyr cars so that the person inspecting them can see the colors the same as if they were shown in daylight.

New offices are being located and partitioned off for the use of salesmen's and the clerical staff. A completely new parts department occupying over 2,000 square feet of floor space being provided, which is easily accessible from three different entrances to the building. A complete truck showroom is also provided for, as the Hicks Motor Company always carries a stock of six different wheelbase Ford trucks, with all three motor sizes, and representative body models of the 42 body styles available.

The service department will be easily accessible, since the service entrance is from the side of the building. The street is wide at this point so that it is not necessary to back the car into traffic to either enter or leave the building. The automatic doors open at the sound of a horn. The service depart-

ment, under the direction of Dewey G. Perrow, of Erlanger, Ky., will have a capacity of more than twice the number of repair jobs per day than is now the capacity of the company. Among the items of new equipment are complete front end and frame aligning machinery, authorized brake-testing machinery, headlight lamp testing, high-speed lubrication, and washing facilities with high speed hot water car washing. To increase the quality of the work, this department also has high intensity lighting.

The paint and body shop are in a separate department on the third floor of the building, where storage for a large number of cars is provided.

The High Cost of Getting Well

Within recent years much has been said about the high cost of getting well. After giving this problem a great deal of study, we have devised a simple plan whereby the patient may get the best health service at a very nominal cost, without sacrificing any laboratory tests or x-rays which may be necessary in his particular case. We shall be glad to explain this plan in detail if you will call at this office.

What happen to Frank James?
Ever since "Jesse James" rode
spectacularly across the screen,
more than one movie fan has asked
himself that question.
Jesse, it will be remembered, was
cowardly murdered by the Ford
brothers, but Frank was nowhere

in evidence when the first James
picture ended.
The puzzle is now answered to
the satisfaction of all concerned in
"The Return of Frank James," new
Technicolor 20th Century-Fox pro-

WOMAN No. 1—

Here's a Woman: (Not old—
that cannot do all the things she
would like to do. Why? Her feet
hate her. Long before the day is over
her legs ache and "draw." Early in
the afternoon her back begins to
ache—then her head aches. When
the day is over, she is a physical
and nervous wreck, glad to be in
bed. Now maybe after a night's
sleep (if she gets a night's sleep)
she hopes the day will bring her
some body and foot comfort.

THE SECOND WOMAN:—About
the same age—used to suffer day
after day like the first woman.
Someone told her that feet out of
balance and not properly support-
ed sometimes caused leg pains,
backaches — and followed by
headaches and general nervous-
ness.

BUT SHE INVESTIGATED and
found that these things can be
corrected. After wearing surgical
shoes, the foot pains disappeared.
— Corns and callouses vanished—
no more leg pains—no more back-
aches—no more headaches—and
the world seemed bright again—
Just like being born all over again.
If you are suffering—don't put
up with it another day—investigate
today—Your feet may be causing
all your trouble.—Adv.
